Our protective packaging options for you.

Robust equipment packaging

MegaPack JUMBO are ultra-robust large load carriers made of high-density polyethylene. They are designed to withstand the toughest conditions and offer maximum protection for high-tech equipment.

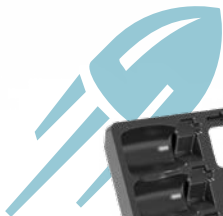

- + Extreme shock and impact resistance
- + High loads and payloads
- + Long service life
- + Volume-reduced storage

Economic transport boxes

Foldable large load carriers, such as the MegaPack BETA, are characterized by their good overall package. Ideally suited for a cost-effective transport of light equipment.

- + Individual box heights
- + Easy handling
- + Volume-reduced storage

Ammunition packaging

Our transport cases are produced to customer specifications. They are a perfect fit, dust- and shatterproof, guaranteeing high protection for ammunition as well as guns and tactical equipment.

- + Bespoke design
- + High accuracy of fit
- + Ergonomic handling
- + Reusable packaging
