

# MODULAR RACKS

CHARGING  
collection

Modular racks in anticorodal aluminium that are easily customizable thanks to their predisposition to our accessories. It is possible to add extra bike racks (accessory **PB-ETRA-6**) and Schuko sockets (accessory **KEBP-ETRA-6**) to increase capacity (therefore 12 bike racks and 12 charging sockets). It can be combined with our ST&GO bike station for maintenance and inflation by replacing one of the two legs.

**Brackets** can be inserted to accommodate electric scooters to be recharged using the existing sockets on the rack (see accessory: "MP-5" and "MP-10"). **Safety brackets** can be inserted to fasten the bicycle frame to the rack (see accessory: "STAFFA-RAS").

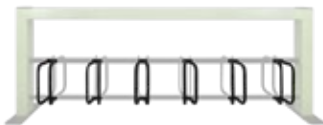

## ACCESSORIES FOR MODULAR RACKS

MP-5 / MP-10	PB-EXTRA-6	STAFFA-RAS	KEBP-EXTRA-6 FOR ELECTRIC RACKS ONLY
--------------	------------	------------	---

Scratch-resistant black plastic brackets for **5 or 10 scooters rack** (5 on the front and 5 on the back) to park between one bike rack and another.

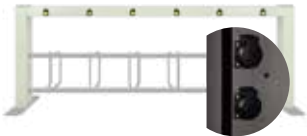

**6 extra vertical bike racks** to be placed on the back of the rack's supporting structure. Combined with the existing 6 racks, they allow you to **park 12 bicycles**.

**6 horizontal brackets** associated with the existing 6 racks, covered with scratch-resistant plastic material, placed under the horizontal bar of the rack which allow you to tie with **your own chain-lock the bicycle frame to the rack**.

Install an **additional 6 Schuko sockets** onto the rear of the rack's supporting structure. When combined with the 6 existing Schuko sockets (E-RAS-M-6), this configuration enables **the charging of up to 12 bicycles**.

**E-RAS-M-6****E-BIKE RACK
