03

Company Introduction

Established in **2005**

Business covers more than **60** countries

Over **100** patents

Obtained more than **40** computer work certificates

110 million paid-in registered capital

Centennial ULIRVISION

**ULIRVISION Focuses
On R&D and
Industrialization
of Thermal,
Ultraviolet Imaging
Technology**

- The world-only enterprise that simultaneously produces thermal imaging camera, UV see corona camera and gas imaging camera
- National high-tech enterprise, national key software enterprise
- **2** items
Received free funding from the National Innovation Fund Project of the Ministry of Science and Technology

Obtained a lot of international certifications

UL: ultraviolet IR: infrared Vision: far-sight

Company Culture

Location

Infrared-centric IntelliSense
products and big data
service provider

Vision

Make the
world more
secure

Mission

Help visionaries
gain insight
into the future

Value

Create value for customers,
provide a platform for those
who struggle, and contribute
to social progress

Company Advantage

Industrialized company integrating
independent research and development,
production and maintenance

Possess software development
technology of big data and cloud
service management platform

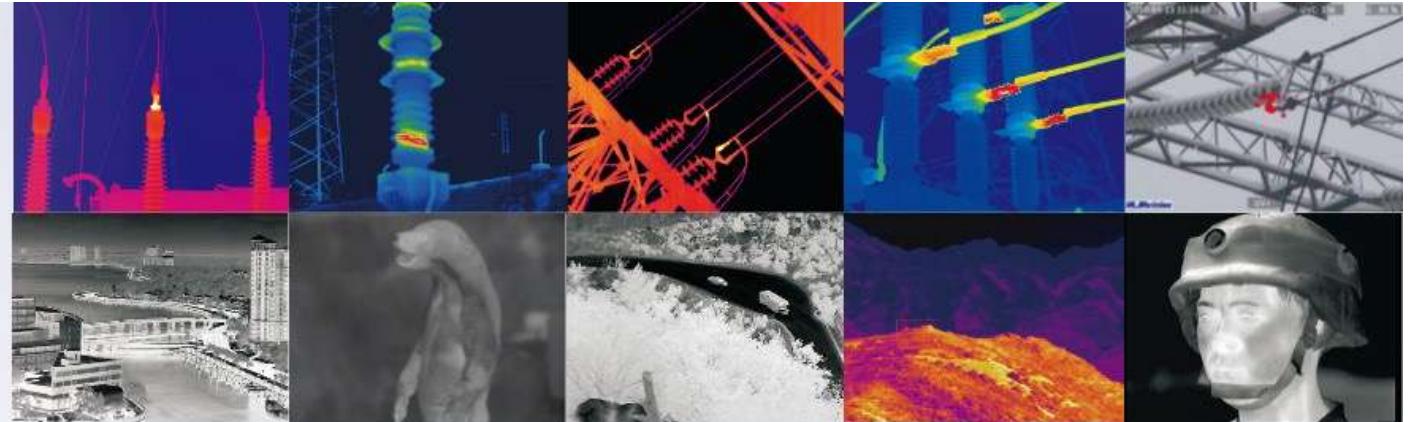

More than 15 years of
technological innovation and
industrialization accumulation

Have thermal, ultraviolet, gas
imaging technology and
products

Professional management
group and perfect quality
management system

Advantages

Product Innovation History

Excellent Image Quality 12 μ m Detector, NETD <18mK

Presents more delicate image quality, optimizes algorithms for different scenarios, and supports customization.

ULIRVISION

EAGLE SERIES

Thermal Imaging Riflescopes

ULIRVISION

Dual Field Of View (Eagle-D Series)

25mm: global search. 50mm: presenting details.

Laser Ranging 1200m

Higher accuracy, longer distance, smaller error. The built-in high-precision laser ranging module can achieve accurate ranging of 1200 meters, and the target distance can be easily obtained.

Exquisite Structural Design

The structure is strong and reliable, with better impact resistance, which can withstand 1000g/0.4ms impact.

1000g/0.4ms

Specification

ULIRVISION

EAGLE -L SERIES

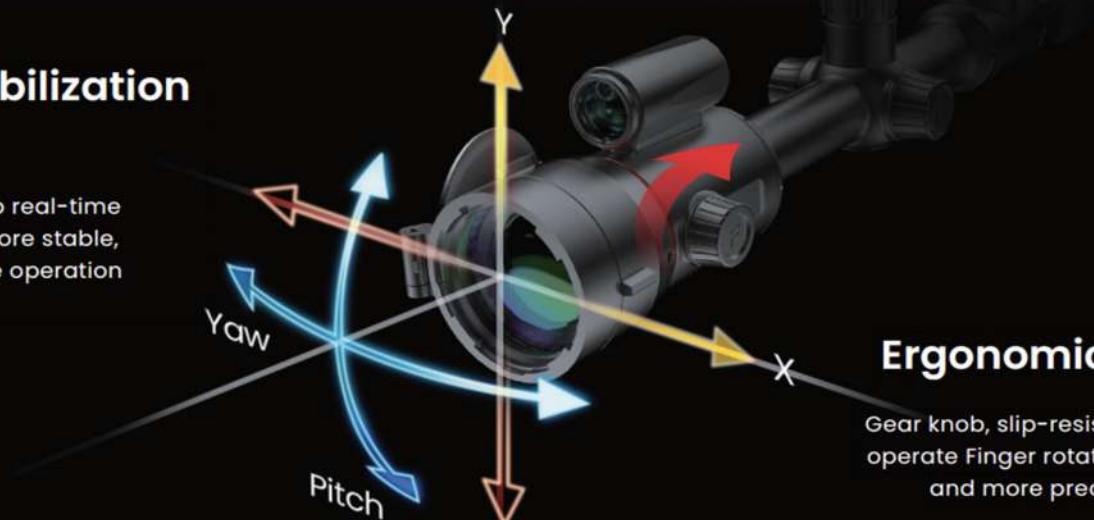

Thermal Imaging Riflescopes

ULIRVISION

Six-axis Stabilization System

Multi-dimensional flip real-time prompts provide a more stable, accurate and reliable operation experience.

Ergonomic knobs

Gear knob, slip-resistant, easy to operate. Finger rotation for faster and more precise focusing.

Breakthrough Experience (Eagle-LD Series)

It can be operated with one hand. At the 25mm end, a wide FOV, suitable for flexible global searching. 60mm end, breakthrough optimization, 3000m ultra-far locking.

FORESIGHT SERIES

Thermal Imaging Monoculars

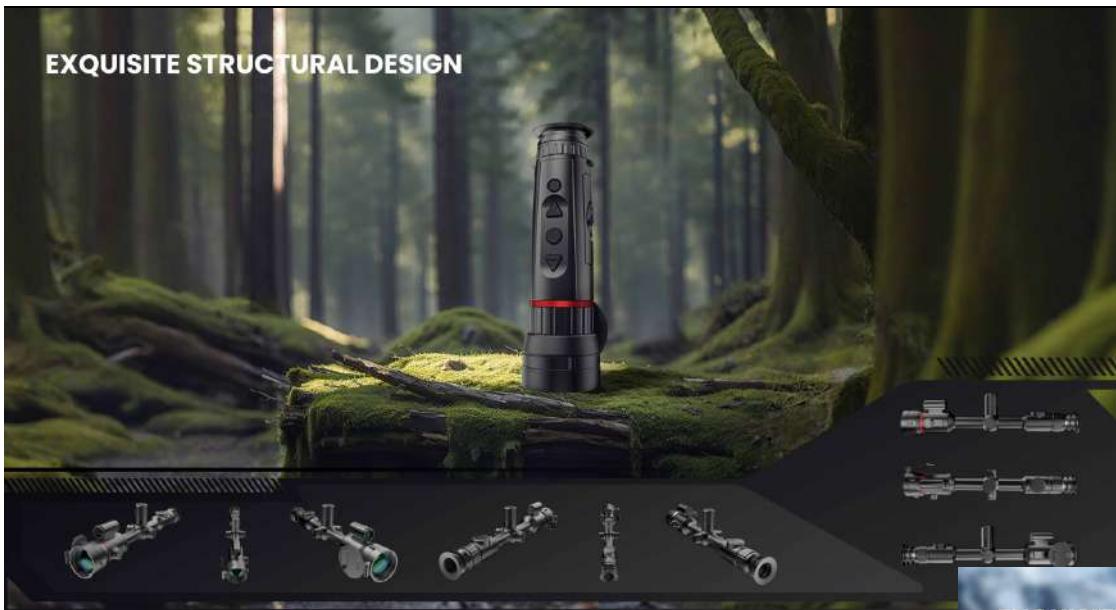

ULIRVISION

FORESIGHT-D SERIES

Thermal Imaging Monoculars

Hot Spot Tracking

Automatic recognition, faster detection, hot spot tracking, more accurate locking.

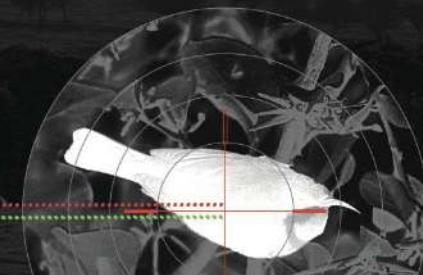

Customizable Function Keys More than Just Convenient

Excellent UI interactive interface + freely definable function keys to create an exclusive observation experience.

Automatically Estimate the Target Distance

According to the size of the measured target, the target distance is estimated by the algorithm, the maximum error per kilometer is <1m.

FORESIGHT LRF SERIES

EXQUISITE STRUCTURAL DESIGN

Support Taking Photos and Videos

Connect to ULIRVISION Insights via WiFi for remote control, real-time image and video transmission, and easier sharing.

INSIGHTS APP

Laser Ranging 1200m

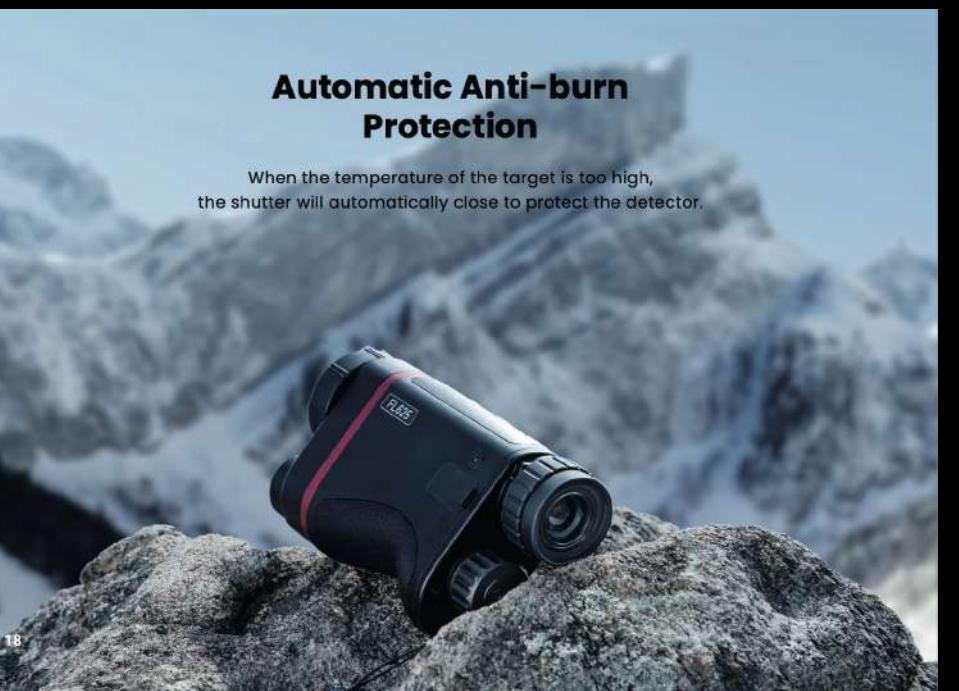

Measure distant targets more easily than ever before, achieve fast and precise positioning, and enjoy the pleasure of locking in.

Range up to **1200m**

Automatic Anti-burn Protection

When the temperature of the target is too high, the shutter will automatically close to protect the detector.

Countries and Regions Served

It has established extensive cooperation with more than 30 countries around the world
Temperature measurement products are distributed in Asia, Africa, South America, North America, Oceania

Treat each other
sincerely
Win-win cooperation
