About DSIPC

Perfect Solution, Perfect Service

Dingsheng Intelligent Technology (referred to as: DSIPC) is a leading innovation manufacturer that aims to promote the development of the global IoT industry, focusing on cloud computing, big data, new retail, smart education, artificial intelligence, industrial automation, healthcare solutions.

DSIPC History

Company History:

- In 2007, the original Taiwan R&D team was founded in 2007 to provide high-reliability civil, industrial, and medical grade ODM customization solutions for Taiwanese and mainland computer motherboard manufacturers.
- In 2009, we focused on research and development of industrial control, medical computer motherboards, complete machines, and provide ODM and OEM services.
- In 2012, it established branches in Beijing, Taipei, Shanghai and San Francisco.
- In 2015, the strategic focus was to establish the vision of “becoming the world's leading provider of IoT smart device hardware platforms and solutions, becoming the industry leader”.
- In 2017, the company launched “DSIPC” Dingsheng intelligent self-owned brand products, and actively promoted its own brand products based on the original ODM and OEM development.
- In 2017, became a member of the Intel Internet of Things Solutions Alliance.
- In 2018, in the smart education market, OPS, OPS-C, and OPS-C+ computer products have been verified by many years of market application, and at the same time, through intel for nearly two years of rigorous comprehensive assessment, passed and reported to the US headquarters in June 2017. Formally became an intel OPS certified partner in January 2018.
- In 2019, launched Intel Market Ready Solution Health Station.
- In 2021, Top Ten Digital Signage Player Brand Award.

DSIPC Strategy

Focus on a vertical segmentation industry, deepen the needs and pain points of customers, provide perfect service and differentiated product innovation; establish excellent customer relationships and continuously expand the share, and then integrate software and hardware total solutions to build industry barriers; at the same time continue to find and expand new development opportunities, copying our success strategy.

What we believe

Professional communication	Find the truth
High efficiency	Trust partner
Keep innovation	perfect solution

Our Resource

- 16 years technical accumulation
- brand name

- Intel technical support and marketing resource
- National high-tech enterprises

- R&D
- OEM/ODM Service
- Perfect service

- Rich product line and differentiated products
- Total solution capability
