# About us

**NESTLED IN THE PICTURESQUE COUNTRYSIDE OF FRENCH NORMANDY, TERDIS HAS BEEN AT THE FOREFRONT OF CAT LITTER INNOVATION AND PRODUCTION FOR OVER 25 YEARS. OUR JOURNEY BEGAN WITH A COMMITMENT TO BLEND PRACTICALITY FOR PET OWNERS WITH UNPARALLELED COMFORT FOR THEIR FELINE COMPANIONS.**

Our products are crafted to provide superior odor control, moisture management, pets comfort and environmental sustainability guaranteeing satisfaction of both modern pets owner and their beloved pet.

Our expertise in selecting the finest raw materials, our pursuit of excellence in product quality and our relentless innovation in creating more efficient formulas ensures that Tranquille remains a trusted name in the Pet Care market.

At TERDIS, we also believe in the power of strong partnerships with our distributors and the value of customer feedback, which have been also instrumental in our growth and success.

Today, we are proud to produce over 12 million bags of cat litter annually, offering the market's most extensive range of products. Our selection includes Silica, Clumping, mineral clumping, and Vegetal cat litter, each designed to cater to diverse preferences and requirements.

TERDIS with its brand Tranquille has grown to become a leading name in the French cat litter market.

**LONG  
LASTING**

**BAD ODOR  
ELIMINATION**

### + PRODUCT INNOVATION

**CARBONITE  
COMPLEX  
FOR BAD ODOR  
ELIMINATION**

### BENEFITS

#### SUPER EFFICIENT LITTER

Carbonite is an exclusive formula with high absorption capacity, CARBONITE BY TRANQUILLE® offers comfort in your daily life. No more litter chores and inconveniences! In just a few minutes, urine and feces are transformed into very compact and odorless agglomerates. Cleaning the litter box becomes simple.

#### BAD ODOR ELIMINATION

Sodium carbonate is an ecological product (no additives), it is biodegradable, non-flammable, non-toxic, with multiple functions.

Combined with the CARBONITE BY TRANQUILLE®, it helps eliminate odors, giving the animal the comfort and tranquility it deserves, and ensures good hygiene to its litter box. A dry environment is less conducive to the development of bacteria involved in the formation of malodorous compounds.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. Clumping capacities of Carbonite allow you to throw away only agglomerates and to reduce the amount of litter you use. Our goal is also to protect environment by transforming and packing our products in France where environmental laws are required.

## PRODUCT INNOVATION

CONTAINS  
AN ATTRACTIVE  
NATURAL  
GRAIN

## INNOVATION

### BENEFITS

#### STRONG ATTRACTION POWER

CARBONITE KITTENS BY TRANQUILLE® contains an attractive natural grain to attract young cat to its litter box and get it familiar. This attractive grain releases a natural odor that is only perceptible by the cat. The CARBONITE KITTENS BY TRANQUILLE® will help to educate your young pet to hygiene. The CARBONITE KITTENS BY TRANQUILLE® is also suitable for unruly cats.

#### BAD ODOR ELIMINATION

Sodium carbonate is an ecological product (no additives), it is biodegradable, non-flammable, non-toxic, with multiple functions. Combined with the CARBONITE KITTENS BY TRANQUILLE®, it helps eliminate odors, giving the animal the comfort and tranquility it deserves, and ensures good hygiene to its litter box. BAD ODOR  
ELIMINATION

### + PRODUCT INNOVATION

ANTIBACTERIAL  
AND SANITIZING  
GRAINS

## INNOVATION

### BENEFITS

#### SPECIFIC AND EXCLUSIVE STERILIZED CAT FORMULA

Sterilized cats often have an adapted diet and have undergone a physiological evolution.

These changes in sterilized cats impact urine and feces (volume, odor, etc.). They are more sedentary and use their litter box more often.

The CARBONITE STERILIZED CATS BY TRANQUILLE® litter formula is ultra absorbent and clumping. It contains an active grain which releases an antibacterial and sanitizing compound upon contact with dirty materials.

#### SUPER EFFICIENCY

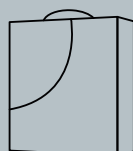

Carbonite is an exclusive formula integrating active carbon and sodium bicarbonate to eliminate odor and to guarantee high absorption capacity.

CARBONITE STERILIZED CATS BY TRANQUILLE® offers comfort in your daily life. No more litter chores and the inconveniences! In just a few minutes, urine and feces are transformed into very compact and odorless agglomerates. Cleaning the litter box becomes simple.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your cardboard box with others recyclable wastes. **6 - 6,1 liters**

# Fleur de litière

## → PRODUCT BENEFIT

**STRONG CLUMPING**

**LIGHTWEIGHT**

**LONG LASTING**

**HIGH ABSORPTION CAPACITY**

## + PRODUCT INNOVATION

**FORMULATED WITH SODIUM CARBONATE**

## BENEFITS

### STRONG EFFICIENCY

Sodium carbonate is an ecological product (no additives), it is biodegradable, non-flammable, non-toxic, with multiple functions. Combined with the FLEUR DE LITIÈRE BY TRANQUILLE®, it participates in the active elimination of odors, offering to the animal the comfort and tranquility it deserves, and ensures good hygiene to its litter box.

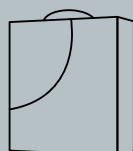

The FLEUR DE LITIÈRE BY TRANQUILLE® is a high absorbent component. It's combined with the fineness of the grain of FLEUR DE LITIÈRE BY TRANQUILLE®, and promote the best absorption capacity.

This litter is clumping, urine and feces turn into compact agglomerates, completely odorless and easy to remove from the box.

### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your cardboard box with others recyclable wastes. Clumping capacities of FLEUR DE LITIÈRE BY TRANQUILLE® allow you to throw away only agglomerates and to reduce the amount of litter you use.

### + PRODUCT INNOVATION

**DAILY  
THROWAWAY  
LITTER IN THE  
TOILET**

### BENEFITS

#### STRONG EFFICIENCY

SOLU WC BY TRANQUILLE® is a specific granulated formula with high absorption capacity to offer you comfort in your daily life. No more litter box chores and inconveniences! In just a few moments, urine and feces are transformed into very compact and odorless agglomerates. Cleaning the trash becomes easy.

#### DAILY THROWAWAY LITTER IN THE TOILET

Thanks to the SOLU WC BY TRANQUILLE®, you reduce the impact of your litter on the weight of your waste. The formula of SOLU WC BY TRANQUILLE® allows you to flush the daily clump in the toilet. Once flushed in the toilet, the agglomerate disintegrates and takes a sandy shape.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our package is recyclable and Clumping capacities of SOLU WC by TRANQUILLE® allow you to throw away only agglomerates and to reduce the amount of litter you use.

### → PRODUCT BENEFIT

DOES NOT  
STICK TO PAWS

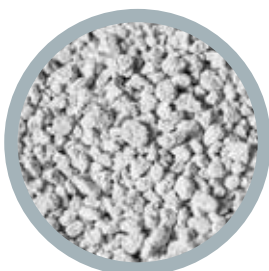

LIGHTWEIGHT

BAD ODOR  
ELIMINATION

### + PRODUCT INNOVATION

FORMULATED  
WITH SODIUM  
CARBONATE

### BENEFITS

#### EFFECTIVE NON-CLUMPING LITTER

the HYGIENE TRANQUILLE® litter provides comfort to your cat. The dimpled minerals with high absorption capacity absorb urine and dry out feces.

The formulation with Sodium Carbonate has an active action on odor elimination to ensure good hygiene to litter.

#### A LIGHT LITTER

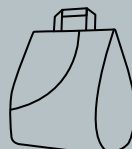

The dimpled structure of the dust-free mineral makes the HYGIENE TRANQUILLE® a very light litter. The low density reduces the weight of the wastes.

The HYGIENE TRANQUILLE® has a low weight for a large volume of bedding, so it is easy to handle. The low density of our litter, combined with the size of the grains, allows it to adhere as little as possible to your cat's paws.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your paper bag with others recyclable wastes. Our goal is also to protect environment by transforming and packing all our products in France where environmental laws are required.

### PACKAGING

#### RECYCLABLE PAPER BAG

Volume  
**9 liters**

## Végécompost

### → PRODUCT BENEFIT

### + PRODUCT INNOVATION

**CLUMPING  
AND  
BIODEGRADABLE**

### BENEFITS

#### WHY CHOOSING VEGECOMPOST BY TRANQUILLE?

VEGECOMPOST BY TRANQUILLE® litter is ultra-clumping, absorbent and biodegradable.

**Ultra clumping:** in contact with moisture, fibers of VEGECOMPOST BY TRANQUILLE® litter clump together to form clumps of dirty material, thus facilitating their elimination.

**Absorption:** Eco-recycled plant fibers are highly effective in absorbing odors, with an instantaneous effect.

**Biodegradable:** The natural plant fibers of VEGECOMPOST BY TRANQUILLE® cat litter are biodegradable. They are formulated from by-product of cereal and corn..

#### AN INNOVATIVE SOLUTION

Our VEGECOMPOST BY TRANQUILLE® litters decompose faster than clay or silica-based litters, which reduce the impact on landfills. You can easily throw it away, in the toilet in small quantity, in the organic waste bin or by composting them.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your bag with others recyclable wastes. Naturel components of VEGECOMPOST BY TRANQUILLE® make it an integrally compostable litter. Our goal is also to protect environment by transforming and packing all our products in France where environmental laws are required.

### PACKAGING

**RECYCLABLE PLASTIC  
OR PAPER BAG**

Volume

# Recycled Tofu

## PRODUCT BENEFIT

## PRODUCT INNOVATION

**100% BIODEGRADABLE**  
**100% COMPOSTABLE**  
**100% CLUMPING**

## BENEFITS

### ABSORBENT, SUPER CLUMPING LITTER

RECYCLED TOFU BY TRANQUILLE® is clumping, absorbent and biodegradable.

In contact with moisture, fibers of RECYCLED TOFU BY TRANQUILLE® litter clump together to form clumps of dirty material, thus facilitating their elimination

Eco-recycled plant fibers are very effective at absorbing odors.

### EASY REMOVAL

RECYCLED TOFU BY TRANQUILLE® is a vegetable by-product based litter 100% biodegradable, 100% compostable. Dirty clumps can be flushed into the toilet in small quantity.

### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your bag with others recyclable wastes. Naturel components of RECYCLED TOFU BY TRANQUILLE® make it an integrally compostable litter. Our goal is also to protect environment by transforming and packing all our products in France where environmental laws are required.

## PACKAGING

### RECYCLABLE PLASTIC OR PAPER BAG

Volume

## Vegetal

### → PRODUCT BENEFIT

BIODEGRADABLE

ABSORPTION CAPACITY

LIGHTWEIGHT

### + PRODUCT INNOVATION

**100% BIODEGRADABLE**  
**100% COMPOSTABLE**

### BENEFITS

#### **CERTIFIED FRENCH AND GMO-FREE!**

VEGETALE BY TRANQUILLE® is produced in France with French corncobs and is GMO-free. It is recyclable, combustible, bio-based and complies with the requirements of the veterinary pharmacy. It is dust-free and does not generate dust during use. Packaged in a 100% recyclable paper bag, it is THE eco-friendly litter!

#### **ABSORBENT AND ANTI-ODOR LITTER**

The composition and particle size of our VEGETALE BY TRANQUILLE® has an absorption capacity 2 times its weight in water. The corn cob offer to the cat the comfort and peace of mind it deserves when using its litter. Corn cob also helps the reduction of odor by catching up urine in its structure.

#### **ECOLOGICAL**

Plant fibers of this litter are 100% biodegradable and compostable. Preserve the environment by composting your litter! The natural composition of VEGETALE BY TRANQUILLE® gives you the possibility to compost it if you add a compost activator dedicated to animal waste.

### PACKAGING

#### **RECYCLABLE PAPER BAG**

Volume

## Cristale and Active Carbon

### PRODUCT BENEFIT

### PRODUCT INNOVATION

**ACTIVE  
CARBON**

### BENEFITS

#### SUPER EFFICIENT LITTER

The CRISTALE BY TRANQUILLE® is odorless, non-toxic and safe for the cat. The urine is absorbed with spectacular efficiency. The CRISTALE BY TRANQUILLE® is formulated with Active Carbon, a natural based component.

#### AN ECONOMICAL LITTER

Half of the weight, CRISTALE BY TRANQUILLE® is more economical and practical to use than basic litters. One bag contains the necessary amount for 1 cat of 4 kg for a period of approximately 1 month!

Thanks to its low density, CRISTALE BY TRANQUILLE® reduces weighing down the animal waste.

#### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your bag with others recyclable wastes. Our goal is also to protect environment by transforming and packing all our products in France where environmental laws are required.

**DOES NOT STICK  
TO PAWS**

**LONG  
LASTING**

**HIGH  
ABSORPTION  
CAPACITY**

## + PRODUCT INNOVATION

**HEALTH  
MONITORING**

## BENEFITS

### HEALTH MONITORING OF MATURE CATS

Your cat's health deserves your full attention: the health monitoring grain will check it for you\*.

Cats do not drink much, which is why their urine is naturally highly concentrated in minerals. If, for physiological reasons, the urine becomes too basic or too acid. These minerals can precipitate and could generate urinary stones that affect the kidneys. These conditions are common for cats. A balanced diet and a permanent availability of fresh water help to limit the concentration of minerals in order to maintain a neutral urinary pH, preventing the appearance of urinary disorders.

### SUPER EFFICIENT LITTER

The HEALTH MONITORING CRISTALE BY TRANQUILLE® offers advantages to other litter: the Silica is odorless, non-toxic and safe for the cat. The urine absorption is spectacular.

The high absorption is given by the porous structure of silica to ensure an effective remove of organic impurities and bad odors.

### ECOLOGICAL

The global environment is one of our priority at TRANQUILLE. Our packages are recyclable. You can throw away your bag with others recyclable wastes. Our goal is also to protect environment by transforming and packing all our products in France where environmental laws are required.
