

**Dear Madam,
Dear Sir,**

Please receive this letter, which is intended to propose a professional collaboration with you. I am grateful for this opportunity and thank you in advance for taking the time to read the following and review the attached materials.

My name is Zsolt Fogarassy; I was born in 1965 and am a direct descendant of the Márk family. Our family received it's noble title from Prince Báthory in 1591.

The name we chose for our group is MARK; the name carries a responsibility, and from generation to generation, it has defined our personal approach to everything we do day by day. Our family has a history/experience of more than 250 years in the forestry and wood processing industries; my son Robert is the 8th generation.

Under my personal leadership for the past 33 years, we have once again dedicated our lives and attention to the wood industry; we are Romania's oldest factory, and we **have been in continuous operation for more than 33 years.**

I am the founder and CEO of the MARK Group; we manufacture premium-quality exterior and interior doors and windows.

1. Our industrial site and factory:

-Located near Targu Mures on a 4-hectare site, with 4,000 square meters of heated industrial builded surface and an additional 2,000 square meters of warehouse space.

-Our factory is equipped with state-of-the-art technology; last year we completed a technological upgrade worth nearly 2 million euros, which helps us maintain our position as the market leader in terms of quality in Romania.

Please take a moment to view the **MARK** factory's presentation materials and short video, which showcase our manufacturing capabilities:

2. We specialize in the manufacture of exterior and interior doors and windows,

-We manufacture exterior doors and windows in more than 10 different systems using laminated wood, including wood-aluminum systems; our products are available in a wide variety of wood species. Every product we manufacture meets the most modern performance standards.

-We manufacture interior doors and windows in compliance with all European standards, ranging from simple rebated doors to more complex frame-mounted doors with casing, including doors and windows with enhanced sound insulation.

We also undertake the complete implementation of projects, taking into account all individual and special requirements.

Here is an illustrative example:

-If we are entrusted with the comprehensive execution of an entire project, including the design and manufacture of custom-made interior elements, we are happy to take on this responsibility as well. Our manufacturing services also include specialized design.

-We are proud of our work on various high-quality private residences, hotels, and even projects for renovated hotel chains, such as the first 5/6-star Corinthia hotel built in Romania.

-We have many years of experience in the professional reconstruction and renovation of historic buildings within our field of expertise, of course.

-The number of completed projects of this type exceeds 150 buildings—in Romania, France, Israel, and England. One of our most recent successfully completed projects of this type is the Casino building in Constanta.

Please take a look at the attached presentation materials and short video:

https://drive.google.com/file/d/11muw90UPSGtaEx2FAue-53ZDFFQhobjd/view?usp=drive_link

-We possess a high level of expertise and experience in manufacturing modern, sleek-lined windows and doors for contemporary buildings, in accordance with design specifications. We have developed a NEW Minimal Wood-Aluminum window system that meets today's design requirements..

3. 52dB Soundproof exterior joinery Doors and Windows, Also Available for Historic Building Style:

-When you have a moment, please take a look at the short presentation about our product developed for the hotel industry.
