

BCE311P15-1NW
„Economy“ automatic bag closing machine for closing all kind of bags.

BF29905A
Frequency-controlled bag feed-in device with belt drive

20600HES
Square telescopic column, PLC controlled
998M28AE
Thread detector

29926EUS
Photocell assembly

20401F
Movable base

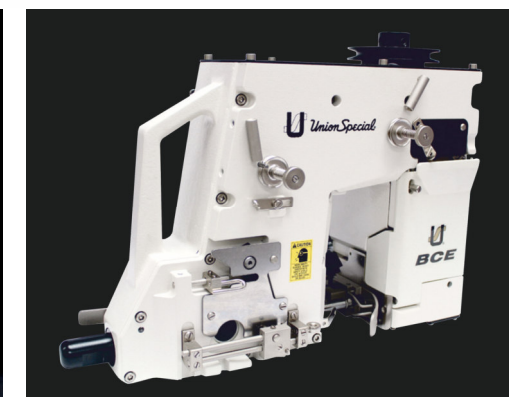

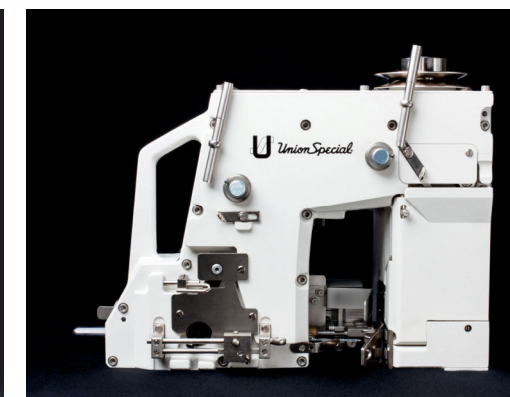

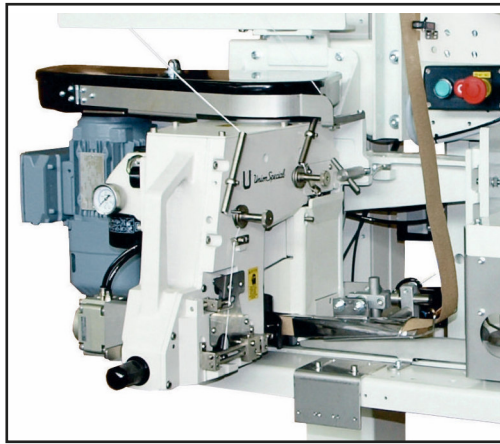

BC211UA26-1M
High performance automatic bag closing machine for closing bags with or without crepe paper tape.

FB29910A
Frequency-controlled, combined bag feed-in, trimming and taping device.

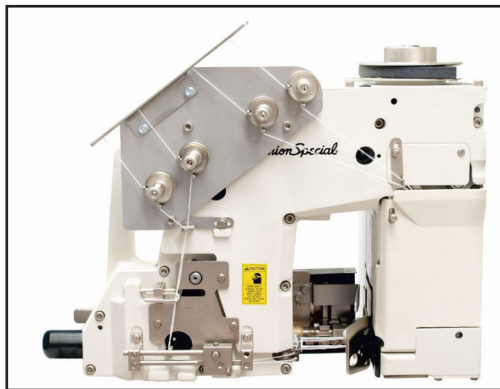

20600HBC
Round telescopic column

91605GF2.50AH
Belt-type conveyor (special design)

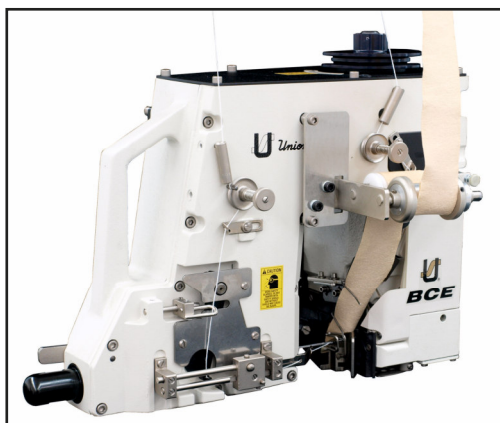

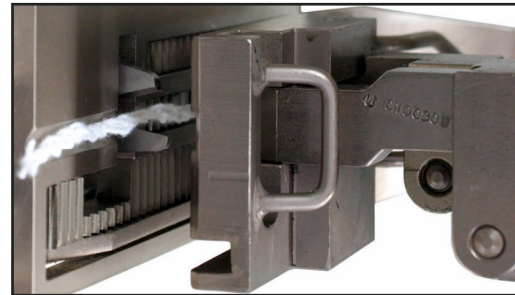

BC211UA23-1NW
High performance automatic, single needle, two thread bag closing machine for closing bags with crepe paper tape

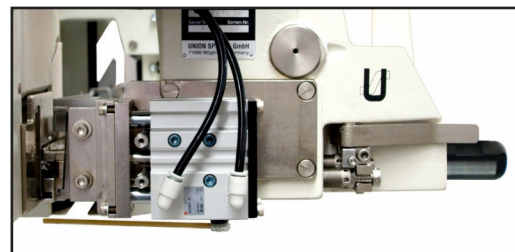

BC211PD26-2M
High performance automatic, two needle, four thread bag closing machine for closing filled bags.

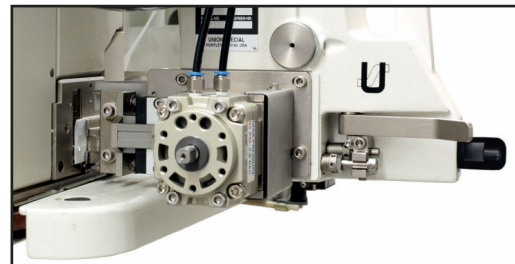

BCE311KA12-1M
Improved „Economy“ automatic bag closing machine for seaming and placing a self-adhesive crepe tape over the sewn closure.

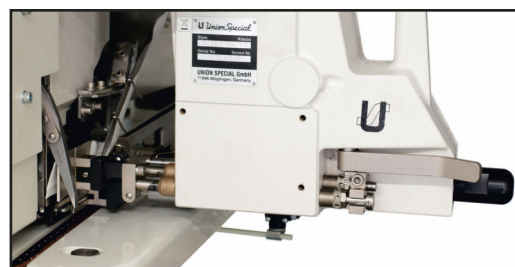

Electro-pneumatically operated jump out knife.
For machine styles:
BC211P15/P16
BCE311P15/P16

Electro-pneumatically operated guillotine.
For machine styles:
BC211U/UA25, BC211U/UA26, BC211PD26
BCE311UA25, BCE311U/UA26

Electro-pneumatically operated fast guillotine.
For machine styles:
BC211U/UA23, BC211U/UA24
BCE311UA23, BCE311UA24

Electro-pneumatically operated tape cutter.
For machine styles:
BCE311KA11/KA12

80800LGN
Heavy duty standard bag closing machine suspended on a top lock spring balancer for closing all kind of bags.

80800CN
Heavy duty standard bag closing machine for closing all kind of bags.

4000
Single thread, suspended on a top lock spring balancer, portable sewing machine for closing bags, sacks and pouches.

2200
Single thread or two thread portable sewing machine with special top and bottom feed for closing all kind of bags.

2200L,LA
