

Transpatec: the almost invisible insect screen.

After years of research, Neher has developed a multi-award-winning insect screen mesh: Transpatec. It has decisive advantages over conventional meshes:

- Brilliant view
- 140 % more air permeability
- Weatherproof, durable and tear-resistant
- Environmentally friendly and clean thanks to the innovative anti-soiling coating
- 100 % Made in Germany

Transpatec[®]

Insect screens from Neher – the right choice.

For over 50 years, Neher has been the market leader for custom-made insect screen solutions in German-speaking countries. We offer environmentally friendly products for your windows and doors, which are manufactured with millimeter precision to provide you with the best possible protection.

Neher insect screens.

SIMPLY LIVE BETTER.

With Germany's No. 1 for insect protection.

reddot design award
winner 2011

Neher fabric types: Convincing diversity and high effectiveness.

- **Polltec:** Proven protection for pollen allergy sufferers
- **Stabilotec:** For pets and doors subject to heavy use
- **Feinmasch-Transpatec:** Protection against tiny mosquitoes
- **Stainless steel mesh:** Particularly robust and easy to clean
- **Fibre glass fabric:** The classic choice

Life can be so beautiful. Enjoy it.

How pleasant when light and air flow into our homes through open windows and doors. And uninvited guests such as mosquitoes, wasps, flies or spiders stay outside.

With Neher insect screens, you can improve your quality of life and put an end to annoying insect hunting.

You tell us what you need.
And we have the right solution.

You can get a first impression of how our insect screen solutions work on the Neher video channel. Simply scan the QR code.

Insect screens for windows.

Every installation situation is slightly different. With over 250 variants, we have the right solution for you. Whether you need a stentering frame, a hinged frame, a swing window, or a roller screen - you will get the right product.

Fulfills high demands: swing doors.

A combination of comfort and design. Neher swing doors open gently in both directions, even when you have no hands free, and close automatically – an advantage not to be underestimated, especially with children.

Insect screens for doors.

The supreme discipline in insect protection. Doors with minimal space requirements that function reliably for years –even under heavy use. You can choose between hinged frames for doors, swing doors, sliding systems, pleated blinds, or motorized roller screens.

Innovative: our motorized roller screen.

Insect roller screen at the touch of a button. Like the manual Neher roller screens, the Neher motorized roller screen disappears into the housing when not in use. Conveniently controlled via wall switch, remote control, or integrated into your home automation systems.
