## COMPANY INTRODUCTION

Established in 2006, YAKEDA GROUP is a professional manufacturer specializing in the design and production of military, tactical, and outdoor equipment. With over 18 years of experience, YAKEDA has developed into a global tactical manufacturing network, providing ODM solutions that integrate creative design, engineering, and large-scale production for leading brands and professional users worldwide.

YAKEDA operates multiple production bases across Asia, supported by an integrated supply chain for sewing, molding, and material testing. To better serve global clients, we have established regional warehouses in the United States (YAKEDA USA – California Warehouse) and Poland Warehouse to ensure faster delivery, flexible inventory management, and responsive after-sales support for our North American and European partners.

Over the years, YAKEDA has gained extensive experience in government procurement projects and defense tenders, providing reliable tactical solutions to military, law enforcement, and security agencies worldwide.

Our long-term participation in government contracts reflects YAKEDA's commitment to quality, compliance, and on-time delivery.

Guided by the philosophy of "Quality First, Customer First," YAKEDA continues to innovate in materials, ergonomics, and tactical functionality, ensuring every product meets the demands of professionals in the field.

YAKEDA — Global Tactical Manufacturing Excellence.

- Over **20** years experience
- Over **2000** employees
- Over **USD150,0000** output value per month
- Over **50** container shipment per month
