

Tasty treats for dogs and cats

The Fatory is specialized in the development and production of different kinds of animal nutrition suitable for dogs and cats, sold under private label. We produce animal nutrition products such as sheep fat treats, salmon oil and dog food toppings. Our products are available in a large range of different shapes and sizes and are sold under private label throughout Europe.

Sheep fat treats

Our sheep fat treats are 100% natural products without any added chemicals and adds a healthy supplement to the daily diet of dogs. Our treats are suitable for all dog breeds, for both puppies and adult dogs. Our treats have a positive influence on the gut flora, support and enhance the immune system and have a positive effect on skin and coat.

Salmon oil

Salmon oil is the perfect product to add the essential fatty acids omega-3 and omega-6 to the daily meal of pets. Salmon oil improves digestion, keeps blood pressure and cholesterol in check, offers extra support to joint functions, strengthens a pet's overall resistance, and adds to the improvement of a healthy skin and shiny coat. Our salmon oil is cold-pressed from sustainably caught salmon and the pure concentrated oil has not been mixed with other oils.

Dog food toppings

We offer a variety of toppings to pour over the meal of pets. Some, like our liquid sheep fat, focuses on adding specific support and improvement to for example; joints, digestion, skin and coat; by adding ingredients like probiotics, CBD oil, chondroitin and other health-beneficial supplements. Others, such as our gravy topping, focuses on taste enhancement, specially made for all those fussy eaters.

Our factory

Our production lines allow us to produce efficiently on a large scale under private label.

Sheep fat production line

This automated line enables us to produce our treats in different shapes, sizes and in a wide range of flavours. We have our own ingredients, but are always open to interesting ideas to add something different and turn our treat, into your treat.

Liquid production line

Our line allows us to fill bottles in all kinds of different shapes and sizes, with many different liquid products, hermetically seal bottles, and label your own sticker on the bottle.

Packaging

All our products are packaged at our factory under private label. You can also count on us to take care of all package materials. This way we keep everything under one roof, from beginning to end!

Innovation and development

The Factory is always thinking about new flavours and getting excited about new products, and we are looking forward to discuss the possibilities with you. But we are always excited to hear your own ideas as well!

We have the experience, equipment and knowledge to make our own ideas, but also your ideas, a reality. So if you have a great idea do not hesitate to contact us!

Benefits only

If you are looking for a professional and trustworthy partner to make your product come to life, look no further. We keep everything, from beginning to end, under one roof to assure that your products are always handled with care, and delivered with constant quality.
