SOIL & KITCHEN GARDEN

We need to take good care of our earth. But that does not mean we cannot use it while we take care of it. We have designed and produced tillers since the company was founded – it is part of the company’ s DNA. Remember to check the large range of accessories on page 3, which includes wheels, ploughs and rakes for selected tillers – that is SMART KEEPING.

GASOLINE TILLER BLADES!
(NORMAL ABRASION
NOT COVERED)

Product description	Gasoline tiller
Engine	MDK156F/P, 4-stroke
Net power	1.6 kW
Displacement	98 cc
Starter	Recoil
Gears	1 forward
Blade speed	133 rpm (F)
Working width	27-40-60 cm
Working depth	25 cm
Loading qty - 20GP/40GP/40HC with pallets	132 pcs / 318pcs / 448pcs

The machine has been designed as multi-machines, which function all year around.

SWEEPERS
ARE PERFECT FOR
**ALL YEAR
CLEANING**
- SUMMER AND WINTER!

PATHS & PAVED SURFACES

It is not just about looking tidy. In fact it is necessary to clear areas of snow, salt, leaves and other rubbish – for your own safety and for the safety of other people. Handy Sweepers are almost synonymous with winter. When the snow falls and drifts, and a sweeper is not enough, we also provide some of the strongest snow blowers on the market.

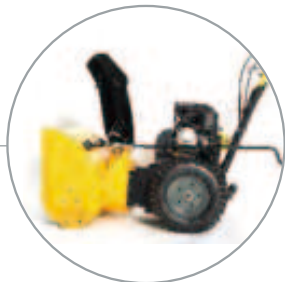

- SWEEPERS**
- Powerful coupling handle activates the brushes
 - Reinforced metal handle provides optimal durability
 - Big snow tyres give a perfect grip in snowy conditions
 - Sweeping width of 60 or 70 cm depending on model
 - Option for turning the brush 22° to right or left

LAWN

Grass is greener when it is watered, and more attractive when you cut it with our lawn mower.

This is our new line of lawn mowers dedicated for mulching cutting – all with front wheel drive.

All parts are of extra high quality: Strong cables, thick cutting deck, double ball bearings in all the wheels and different choices of powerful engines.

Accessories

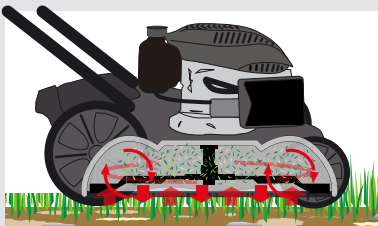

Protection Cover

Oil Change Kit

FEATURES

MULCHING
Mulching is ideal for ornamental lawns. With the mulching guard fitted in the lawn mower, the grass is cut into very tiny pieces, which disappear between the blades of grass and rot down to provide natural fertiliser for the grass. When the grass is dry, mulching often requires regular and more frequent mowing – once or twice a week to work optimally.

Front Wheel Drive For Easier Maneuvering - With Gt Trans - Mission And Belt From Optibelt

Deck Pressed Out Of One Piece Of Metal Without Any Welding. Thickness Is 2.5 Mm

Antivibration System With Rubber Suspension Under Engine (optional)

8" Wheels With Double Ball Bearings. Grass Scraper On Wheels (optional)

Water Inlet For Easy Cleaning Of Deck

Central Height Adjustment, 5 Positions 25-75 Mm

Garden Grass trimmer

- Large 14” wheels with bearings
- Forward brush head makes trimming job easier
- Around the tress , the path along the wall, the path edges.

Model No	GGT108-04	GGT108-03

About us

Qingdao Moreland Co., Ltd. is specialized in production of tillers , sweepers, grass maintaining machines and accessories since 2009. Based in Qingdao China, we offer professional various products right from development to final delivery to customers. Qingdao Moreland is very high efficient and we put big attention to quality control of components and finished products. We are devoted to manufacturing the best machines and providing the best after-sales service. Our QC system is strictly carried according to ISO9001 and our products 100% fulfill regulation of CE and EU5

Our Company Strategy

- Flexible R&D team with individual developing workshop
- OEM rule/famous European brand authorized /Moreland brand authorized
- Sole agent policy according to the area
- Very strong and in time after sales service
- For good policy and seting up after sales service parts stock.
