Cyber Security Is Our Passion

Cyber security is a challenge – and also our passion. Day to day, we do everything to ensure our clients' security. With our 360° expertise, as well as innovative services and solutions, we set the benchmark. Over 350 security experts across six locations ensure comprehensive protection around the clock for our clients in Switzerland, Germany and Austria. Years of experience, a broad portfolio of solutions, recognised certifications and attestations as well as qualified employees, form the foundation for maximum security, professionalism, and reliability. As an independent company, we are able to react quickly and flexibly to changes in clients' needs.

Our vision of making the world digitally more secure day by day is at the heart of all our actions and motivates us to go above and beyond to ensure our clients' security. In doing so, we embody the values of passion, trust, client satisfaction, expertise and innovation, which shape our work and spur us on to deliver the best performance at all times.

Trust in Our Expertise

Cyber security is a matter of trust. More than 1,000 clients from a wide range of industries have confidence in our longstanding expertise. These include well-known industrial enterprises,

banks, insurance companies, energy service providers, trading firms, service providers, public authorities and hospitals.

360° Cyber Security

Cyber security is an essential aspect of today's digital world. At InfoGuard, we're synonymous with reliable, innovative services and solutions that protect your security and trust. Our 360° expertise ranges from Cyber Defence Services and SOC/MDR Services to Incident Response, Managed Security & Network Solutions, Penetration Testing & Red Teaming, as well as Security Consulting Services and Cloud Security. Offering cloud, hybrid and on-premise services, we provide the degree of flexibility that meets your individual requirements. A holistic approach, highly specialised employees, efficient processes and state-of-the-art technologies ensure your security in a complex digital world – today and in the future.

360° Cyber Security

- Extended Detection & Response (XDR)
 - Endpoint Detection & Response (EDR)
 - Identity Detection & Response (IDR)
 - Network Detection & Response (NDR)
 - Cloud Detection & Response (CDR)
 - Security Information & Event Management (SIEM)
- Managed Detection & Response (MDR)

Comprehensive Incident Response & Forensics

- Compromise Assessment
 - Threat Hunting
 - Cyber Threat Intelligence (CTI)
 - Cyber Deception
- Hunting & Intelligence
- Security Operations

- Managed XDR & SIEM
- Vulnerability Management
- Digital Risk Exposure Services

Cyber Defence

In the dynamic, ever-changing world of cyber threats, cyber defence is critical for the rapid detection and combatting of potential threats. All services are provided from the ISO 27001-certified and ISAE 3000 Type 2-audited Cyber Defence Center (CDC) in Switzerland, as well as from Germany - with 24/7 operations and continuous on-site staffing..

Incident Response (IR)

Successful cyber attacks can never be completely ruled out. In the event of an emergency, our Computer Security Incident Response Team (CSIRT) is on hand immediately to stop the attackers and minimise the damage. We support companies at every stage and ensure that they can resume operations as quickly as possible.

Incident Response & Recovery

- Crisis Management & Coaching
- Large Scale Investigations
- Business Recovery Support
- Authorities Exchange
- Threat Actor Negotiation
- Crisis Communication & Public Relations
- Payment Assistance
- Legal Support
- Continuous Intervention Risk Assessment

Forensics

- Large Scale Forensics
- Network, Computer & Memory Forensics
- OT & IoT Forensics
- Cloud Forensics
- Mobile Forensics
- E-Mail Forensics
- Malware Reverse Engineering
- Expert & 2nd Opinion for IR Cases

Crisis & Incident Response Readiness

- IR Readiness Assessment
- IR & Recovery Plan
- IR Tabletop Simulation

Managed Security & Network

Cyber security can only succeed with a stable, reliable foundation. To this end, we develop IT security architectures based on state-of-the-art network and security solutions. Through comprehensive Professional Services and 24/7 Managed Services, we also ensure the continuous protection of digital infrastructures and the highest availability.

- Endpoint Protection Platform (EPP & EDR)
- Asset & Compliance Management
- File Encryption
- Mobile Device Management (MDM)

Endpoint Security

Identity & Access Management

- Privileged Access Management (PAM)
- Multi Factor | Risk-Based Authentication
- Permission Governance
- IAM | CIAM | EIAM

24/7 Managed & Support Services

- Security- & Network-Infrastructure-as-a-Service
- SASE-as-a-Service
- SCION Internet-as-a-Service
- Vulnerability- & Risk-Management-Platform-as-a-Service
- Breach-Attack-Simulation-as-a-Service
- EPP- & EDR-as-a-Service
- WAF-as-a-Service
- SIEM-as-a Service

Enterprise Networking & Security

- Next Generation Firewalling
- Micro Segmentation
- LAN | WLAN | ADC | NAC
- WDM & High Speed Encryption
- Secure Access Service Edge (SASE)
- Hybrid Cloud | Multi Cloud
- Web & E-Mail Security
- WAF | Reverse-Proxy
- SCION Internet
- IPAM | DNS & DHCP | DNSSEC
- OT & IoT Security

Detection & Automation

- Extended Detection & Response (XDR)
- Endpoint Detection & Response (EDR)
- Network Detection & Response (NDR)
- Cloud Detection & Response (CDR)
- Security Information & Event Management (SIEM)
- Security Orchestration Automation & Response (SOAR)
- Network Automation
- Cyber Threat Intelligence (CTI)
- Vulnerability Management

Professional Services

- Architecture & Design
- Zero Trust
- Security & Network Engineering
- Configuration Review
- Hardening Service
