AUTONOMOUS LINE MARKING ROBOT

The SWOZI *auto* is the right choice for anyone who values precision and convenience when marking sports fields. With its own drive of up to 7 km/h, it autonomously marks the entire field in a short time.

4 IN 1 MACHINE – FOR MAXIMUM CONVENIENCE

The SWOZI *auto* can be easily adapted to all requirements. 4 operating modes in one machine. Whether you want to mark autonomously, manually with or without GPS support or with a ride-on attachment. With the SWOZI *auto*, all options are open to you.

ONE MAN SHOW

1 field – 1 person – 20 minutes.
Without strings, without measuring tapes.

BATTERY CHANGING SYSTEM

Eliminates recharging times and enables uninterrupted marking.

SAVE TIME & PAINT

Save up to 75% of time with GPS technology and reduce paint consumption.

ACCURATE LINES

Quality with highest accuracy.

MAXIMUM FLEXIBILITY

Can be switched from autonomous to semi-autonomous or manual.

TEMPLATES

Over 100 field templates to choose from.

SWOZI *auto* – PURE COMFORT.

SPECIAL FEATURES

The **handlebar** allows you to mark manually and makes transport easier. It is height-adjustable and can also be removed completely.

The **extra-large rear wheels with pneumatic tyres** ensure stability and smooth running.

The **GPS-assisted spray arm** replaces cords and measuring tapes and delivers excellent line quality.

The **spray head** can be adjusted to different line widths without tools. The swivelling baffle plates allow marking right up to the goalposts.

The tablet with **emergency stop button** allows you to make an emergency stop at any time.

Spray lance with stainless steel suction filter enables flawless paint flow.

The storage area offers space for up to 2 x 10l canisters of **paint**. No matter which paint manufacturer.

Two robust **GPS antennas** ensure highly accurate positioning in the cm range.

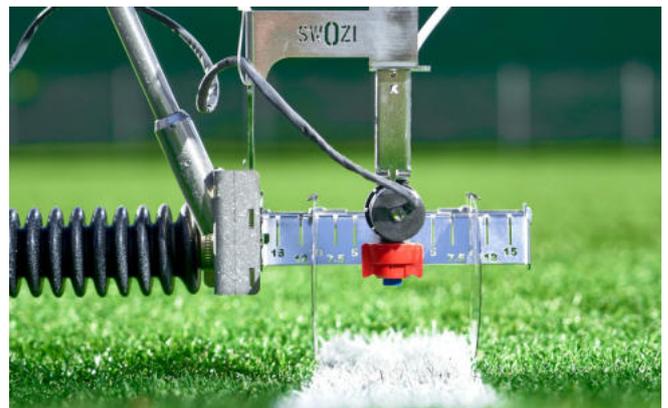

The SWOZI *auto* is equipped with two long-life **24V/25Ah batteries** as standard.

Pump with valve: the integrated rinsing mode makes cleaning very easy.

The SWOZI *auto* has a **free-swinging front wheel**, for easy navigation.

SWOZI STATE-OF-THE-ART GPS TECHNOLOGY PAIRED WITH SWISS PRECISION

SPECIFICATIONS	
Operating mode	GPS-assisted or manually operated
Frame	Aluminium powdered
Wheels	Large rear wheels, free swinging front wheel
Drive	Autonomous, semi-autonomous or manual
Steering bar	Height adjustable, removable
Marking paint	1-2 paint canisters on storage board
Battery	2 batteries (24V/25Ah)
Battery life	1 day
Display battery life	Yes
GPS	Yes, two single antennas
Network RTK	Yes, GPS subscription required
SWOZI RTK base	Yes (optional)
Spray arm	Yes
Laser Tracker	No
Sports field templates	over 100

SWOZI is a sports technology company with an extensive background in machine automation. We design, develop and manufacture the most versatile marking system for sports fields. Our pioneering solutions are based on state-of-the-art GPS and robotic technology to simplify turf workflows and comply with the sports code with 100% accuracy. Driven by our passion for sport and high accuracy, we create advanced line marking solutions made in Switzerland that significantly improve efficiency.
