HOVMAND

LIFT AND MOVE. SAFE AND EASY

IMPACT

ALUMINIUM AND STEEL

Our most flexible lifting series, which is extremely resilient, but at the same time surprisingly lightweight and easy to use.

LIFTING CAPACITY

Up to 200 kg

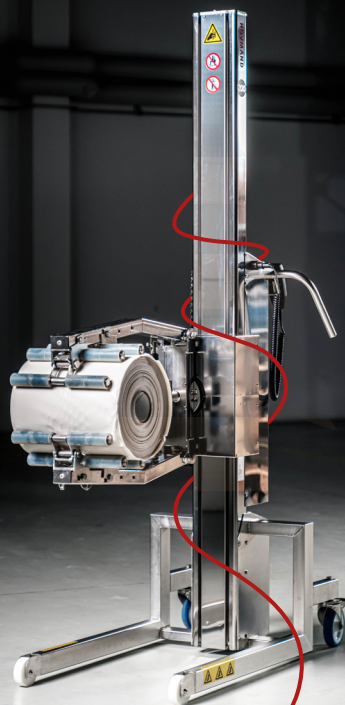

LIFTING HEIGHT

Up to 2250 mm

APPLICATIONS

Our Impact series has a large selection of lifters manufactured of aluminium and steel.

The Impact lifter is a perfect match for many industries because it is effortless to change tools – so you can lift and move almost anything.

INOX

100% STAINLESS

All parts are stainless, and this makes the lifter perfect for those who work in pharma or the food industry, where the requirements are often extra high.

LIFTING CAPACITY

Up to 300 kg

LIFTING HEIGHT

Up to 2250 mm

APPLICATIONS

Our Inox series builds on GMP (good manufacturing practice) standards to prevent contamination and ensure guaranteed reproducible product quality.
