

KEPT INDUSTRY CO., LTD.

**Dear Sirs
Thanks for your time!**

**We are a professional hardware company,
and we'd like to supply all of best service to you**

**Kewen Sun
Sale Director of Intelliware**

KEPT INDUSTRY Co., Ltd. with registered trademark “Intelliware”, is a professional supplier of architectural hardware in international market.

Over the past 30 years, we mainly focused on O.E.M. for Door Locks, Lock Cylinders, Handle, Hinges, and relative fittings for the door and window industry.

Nowadays, we also have outstanding O.D.M. capabilities for our customer in traditional hardware, and also mechanical parts for smart locks, that meets the requirement of standards such as EN12209, EN1303, EN1906, EN1935, DIN18252, SKG, KITEMARK and etc.

Our market covers all over the world, such as Europe, North America, The Middle East, Asia and etc.

Brand Story

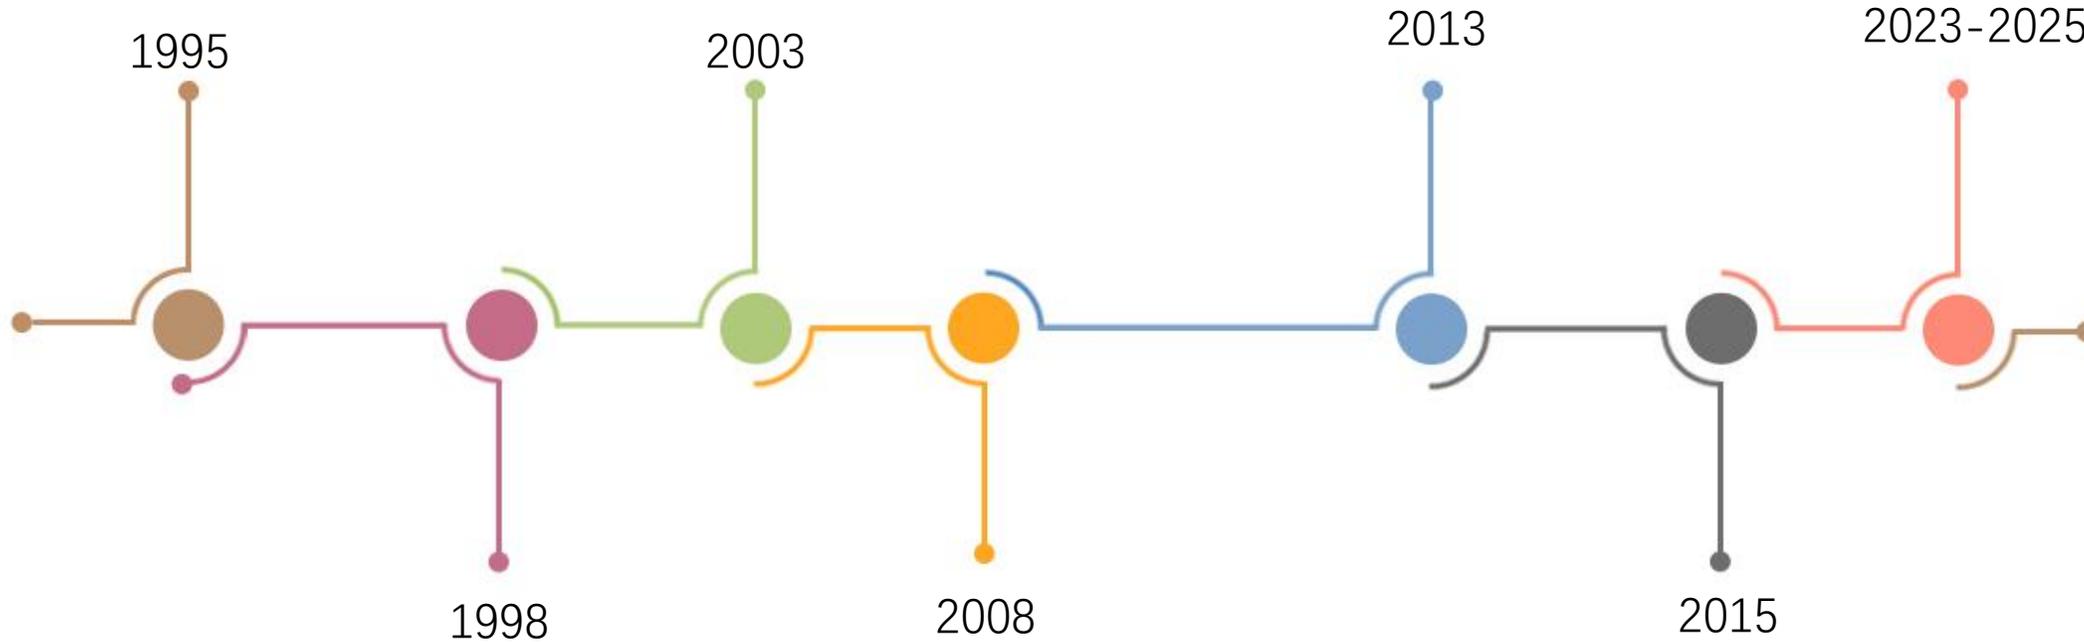

Previously, we were a state-owned company named "China Wuxi Hardware and Tools Group Co. Ltd", Which had 2 lock factories, 2 hardware factories and 3 hand tool factories. In the 1990s, we already began export products, mainly to Asian countries.

In 2000, we began to expand business in the European & U.S. market. Meanwhile, during the wave of state-owned enterprise transforming into private enterprises in China, it finally successfully transformed into a private group integrating production company and sales company in 2003.

Continuously enhance product quality and service level, emphasizing compliance with EN standards. The proportion of industrial customers has gradually surpassed that of the DIY field.

With the continuous advancement of technology, we are now able to strive for even higher levels of products in field of door lock, lock cylinder, handle, hinges, and smart lock.

Business has expanded to the Middle East market and developed a variety of lock sets for the Arabic region market

Our sales company has been renamed as "KEPT INDUSTRY CO.,LTD." with registered trademark "Intelliware". We had also invested in a R&D factory named "Hailida Metal Product Co.,Ltd" which focuses on ODM services and provides customers with design and small-batch customized production. The product include special locks and customized metal accessories.

Intelliware participated in the establishment of a local Chamber of Commerce, which named "Wuxi United Chamber of Cross-Border E-commerce", currently has over 200 members, and Intelliware served as the secretary-general during the first session. This initiative successfully assisted enterprises in smoothly transitioning to the international e-commerce sector.

ABOUT OUR BUSINESS

Our Market

THE MAIN MARKET

Over the past 20 years, we have seized large amounts of market share around the world, developing our clients in Europe, America, Russia, Africa, Asia, etc.

ABOUT OUR BUSINESS

Advantage

Why Choose Us

Excellent quality, competitive price and thoughtful service are the core factors of our enterprise development.

ABOUT OUR BUSINESS

Main Products: Lock Cylinder

The lock cylinder plant adopted fully automated equipment. The lock cylinder body and inner parts are produced by integrated machines, which minimizes cumulative tolerance in the production process to the greatest extent.

The factory has obtained ISO9001 certification and has 70 experienced employees. It has significant advantages in terms of size accuracy, product quality control, and employee awareness.

The product quality reached requirement of EN1303 , DIN 18252, SKG-2 star / 3 star, and BSI KITEMARK.

The production capability is around 3 million pieces per year.

ABOUT OUR BUSINESS

Main Products: Hinges

ABOUT OUR BUSINESS

Hinge Factory

Intelliware®

The Hinge factory mainly undertakes the production of door and window hinges.

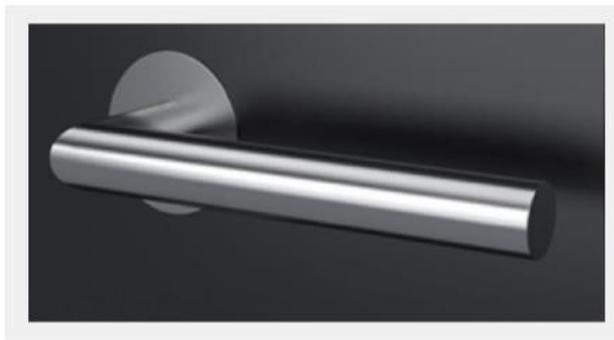

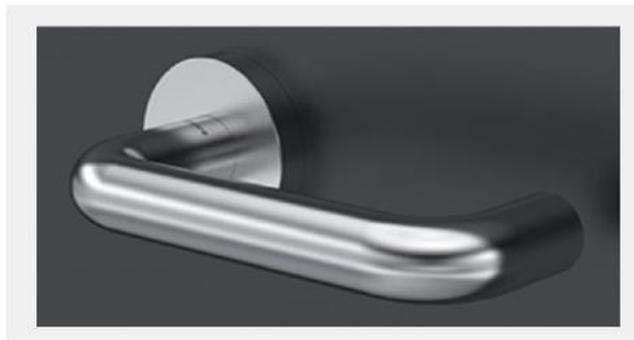

Equipped with hundreds of automated machines, the production process starts from the steel cold rolling step at raw material stage, and continues through stamping, polishing, assembly and etc, achieving both high efficiency and stable quality.

Nowadays, factory have more than 260 employees and annual delivery is around 1,000 containers which is around 80,000,000 pieces of hinges per year.

ABOUT OUR BUSINESS

Main Products: Handles

The handle factories have two facilities.

One of facility specializes in manufacturing **stainless steel handles**. It currently has more than 150 employees and is equipped with stamping, laser cutting, CNC machining, various types of welding, assembly, polishing machines and etc., as well as a full range of testing equipment.

Second workshop specializes in the production of **aluminum alloy handles**, with about 20 employees. Since die-casting and anodizing are coordinated by supply chain manufacturers, there are more than 100 staff members in the entire supply chain, which equipped with complete equipment, including die-casting and gravity casting equipment, CNC machining, drilling, polishing, anodizing, powder coating, assembly, etc.

The annual capacity of door handles reaches more than 2.5 million pairs.

ABOUT OUR BUSINESS

Main Products: Door Locks

The lock body factory has now become an enterprise under a large lock body manufacturing group.

The group currently has more than 300 employees, has good engineering technology team, adopts hundreds of machines, including CNC Center for Tooling, heavy duty progressive stamping machines, die casting machines and automatic assembly and packing machines. The progressive stamping machines ensures high efficiency and also strict quality of lock products.

The annual production capacity can reach about 10 million pieces, including mechanical locks and electric locks provides OEM/ODM services to many world-famous hardware companies.

Thank You!
