

RAW MATERIALS FOR ANIMAL FEED

because quality starts from ingredients

Company

B&F Italia works from several years in the animal feed industry, providing animal & vegetable products. Thanks to its long lasting partnership with the top brand Italian and European industries, B&F is nowadays a benchmark for companies which require the best ingredients for their specific formulas.

Research and development of new products are the key elements for a dynamic company as B&F Italia is, which has always selected the ingredients through a meticulous control of the production chain – with whom B&F Italia closely works.

The benefits to work with a distributor...

“B&F Italia is proud to have a wide and extended catalogue which ranges from the most common products to the most special and exotic ones”

B&F Italia has established a forthcoming cooperation with its suppliers and customers, has developed customized products that satisfies the common need to expand, innovate and increase one's business. Thanks to this business model, the key factor of its company's success, B&F Italia is proud to have a wide and extended catalogue which ranges from the most common products to the most special and exotic ones.

ONE SUPPLIER, MANY PRODUCTS

Working with B&F Italia means choosing a flexible partner, able to supply different raw materials in one delivery.

JUST IN TIME SERVICES

A developed logistics division allows B&F Italia to operate throughout Europe thanks to a wide-spread, fast and efficient transport network

- Full loads, intermodal logistic and groupage;
- Tailor-made packaging (BigBags, Bulk – Walking Floor/Silo truck, 25 kg bags)

QUALITY CENTERED

B&F Italia is committed to assure the suitability and safety of its products, through strict analyses by well-known accredited and independent laboratories.

...and also a producer

B&F Italia is more than a trader: in order to satisfy special or rare animal proteins requests, the company directly handles the production, purchasing by-products from slaughterhouses and relying the processing on trusted and qualified partners.

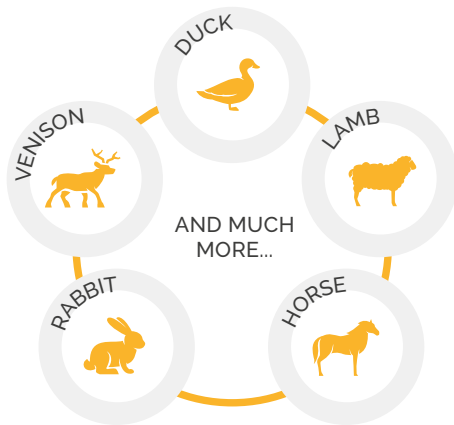

Pet-food

This is the core business of B&F Italia. A well-established cooperative bond between customers & suppliers contributes to the development of a complete products range, suitable to produce both Standard and Super Premium recipes.

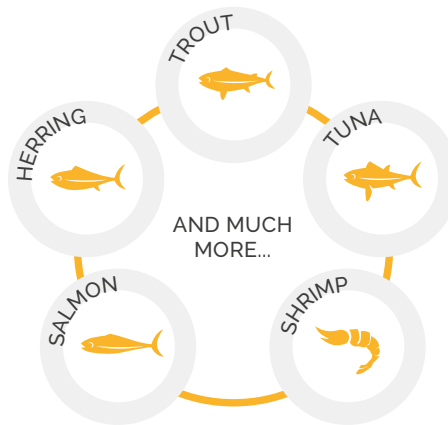

B&F Italia pays attention to the product's origin, working directly with slaughterhouses: this allows to verify on-site the application of the EU legislation requirements, deeply master the processing method and guarantee the full traceability as well.

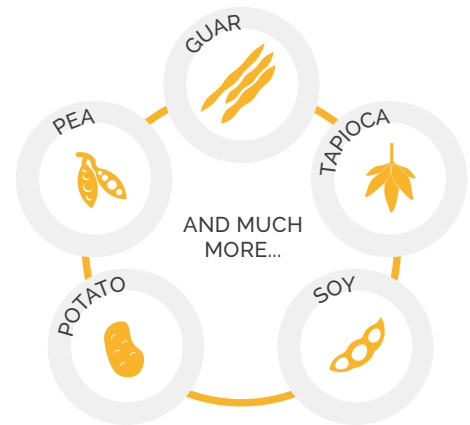

RAW MATERIALS FOR THE DRY PET-FOOD...

MEAT MEALS

FISH MEALS

VEGETABLE PRODUCTS

... AND FOR THE WET PETFOOD

B&F Italia selects directly from slaughterhouses the best ingredients for the wet petfood, guaranteeing the freshness and nutritional proprieties.

- Venison and Wild Boar trimmings
- Lamb Hearts and lungs
- Salmon MDM
- ... and much more

Livestock

B&F Italia is always willing to develop new products and partnerships, as the outcome for its philosophy is dynamism and flexibility.

The patient and painstaking selection of raw materials has created a specific product line for livestock, frequently and strictly controlled for a complete screening of all critical parameters (healthy feed).

- Fish meals
- Poultry meal
- Blood meal
- Vegetable products

Aquaculture

B&F Italia successfully deals in the European aquaculture market with fish meals, fish oils and vegetable products, sources of proteins and starches.

- Fish meal 64 & 68%
- Oils from fish, tuna and salmon - rich in Omega 3
- Shrimp and krill meals
- Vegetable products
- Poultry meals

B&F Italia analyses each batch to ensure ruminant free and customized products, according to the required quality standards.
