

XI'AN CHINASTAR M&C LIMITED

Xi'an Chinastar M&C Ltd was founded in 1996 in the high-tech zone of Xi'an, China, a world-famous ancient city. Chinastar has always adhered to the corporate culture of "abiding by the principle of integrity, shaping a professional brand, and pursuing long-term excellence". After nearly 30 years of continuous efforts, it has become a well-known professional manufacturer of various intelligent sensors and a comprehensive solution provider of Internet of Things (smart city/intelligent manufacturing) in China and even in the world.

Chinastar adheres to the innovation culture of "Innovation, not to be afraid of being big, not to be small, not to be small", and constantly improves its core competitiveness. Chinastar has obtained 119 patents (including 19 domestic inventions and 1 U.S. invention patent), 9 software copyrights, 15 Chinese trademarks, 1 U.S. trademark and 1 European trademark. Now it is a specialized, special and new small and medium-sized enterprise in Shaanxi Province, an advantageous enterprise of intellectual property in Shaanxi Province, a national advantageous enterprise of intellectual property, the main enterprise of the Internet of Things industrial chain chain in Shaanxi Province and the main enterprise of the Internet of Things industrial chain chain chain in Xi'an City, and the fourth batch of the national pilot demonstration enterprise of intelligent health care for the elderly; and it has taken the lead in the formation of Xi'an City IoT ubiquitous engineering innovation consortium, and Xi'an City Intelligent Pressure and Inertial Sensors Engineering Technology Research Center. It has won the first prize of

Science and Technology of Shaanxi Province, the Industrial Excellence of Shaanxi Province, the third prize of China Electronics Society, the Excellent Product Award of Internet of Things of Shaanxi Province and the Preferred Internet of Things Solution of the Ministry of Industry and Information Technology, and other honors. Chinastar has passed ISO quality, environment, occupational health and safety system, international IECEx explosion-proof system certification and European ATEX explosion-proof system certification, intellectual property management system certification. Many products have passed UL, CE, RoHS, REACH, GB3836, IECEx/ATEX explosion-proof electrical products and other domestic and international certifications. The sales market covers more than 80 countries and regions around the world, and the export ratio reaches 50%. Chinastar adheres to the global vision, constantly focuses on customer needs, provides customers with high-quality products, services and solutions, and assists customers in realizing sustainable growth.

Chinastar adheres to a global vision of professionalism and internationalization. At the golden opportunity for the development of the Internet of Things in the next ten years, "Chinastar Measurement and Control" will work hard to become the world's leading manufacturer of large-scale industrial pressure/temperature/inertial sensors; strive to become a large-scale smart sensor/intelligent terminal in China Supplier and an excellent supplier of global smart sensors/smart terminals; looking forward to becoming a leading integrated solution provider of China's Internet of Things/smart city/smart manufacturing technology, providing global customers with more better and more reliable smart sensor terminals and satisfying customers The comprehensive solution required,China Mobile IoT Alliance Executive Committee Intelligent Sensors Expert,Member of China Refrigeration And Air-Conditioning Industry Association.
