

ABOUT THE COMPANY

Trendy Herstellungs- und Vertriebsgesellschaft mbH is a renowned German specialist and premium manufacturer in the field of modern construction chemicals, paving joint systems and outdoor system solutions. This owner-managed family business is built on a long tradition of craftsmanship, which has been purposefully combined with state-of-the-art technology and innovative research.

Since its official foundation in 2007, the company has been dedicated to the development, production and worldwide distribution of high-quality, durable materials. With the aim of revolutionising genuine craftsmanship through technological leadership, trendy has firmly established itself as a key player in the specialist building materials trade as well as amongst garden and landscape contractors (GaLaBau). The company's core values – such as high-tech, environmental responsibility and reliable partnership – are reflected in every product within its growing range.

STRATEGIC RANGE EXPANSION & SYSTEM SOLUTIONS

What began as a visionary specialisation in innovative synthetic resins, paving joint sands and mortars for outdoor use has developed into a comprehensive, professional range of systems. In order to offer customers holistic, perfectly coordinated solutions from a single source, the portfolio has been significantly expanded:

- Comprehensive Trass system solution (trendyCEM)
- Porcelain stoneware and ceramic tiles
- High-performance adhesives & underlay systems
- Professional paving joint systems (1K & 2K)
- Eco-friendly innovations

TRENDY TEAM LOOKS FORWARD TO WELCOMING YOU.
