

# OUT OF THE BOX

KARLKNAUER 

Our packaging  
completes your product.

# YOUR BRAND PERFECTLY PACKAGED

One idea ahead

Our folding boxes can be fitted with a special inner lining on request – for optimum protection against moisture, light, oxygen and the loss of aromas.

Whether cosmetics, food, industry or consumer goods – every sector has its own requirements for packaging. This is precisely where Karl Knauer comes in with customized packaging solutions that go far beyond the standard. Our aim is to perfectly harmonize function, form and brand impact.

Thanks to decades of experience, we know what is important – be it product protection, logistics or at the point of sale. Our development teams work closely with our customers to realize intelligent packaging concepts that are not only aesthetically convincing, but also meet the highest technical and ecological standards.

From sustainable materials and smart designs to eye-catching printing and finishing techniques – we deliver solutions that make your products stand out and strengthen your brand. With industry know-how, innovative strength and a clear eye for what is feasible, we implement your requirements precisely – individually, efficiently and future-proof.

In the beverage sector, we provide eye-catching promotions and secure carriers, while in the pharmaceutical industry we ensure hygienic, precisely assembled packaging with the highest quality standards. For e-commerce, we develop sophisticated shipping solutions, that perfectly combine protection, branding and customer experience.

# MORE PRESENCE FOR YOUR PRODUCT

## Packaging makes the difference

We develop and produce impressive packaging solutions with almost unlimited possibilities: classic folding boxes, complex cardboard packaging or high-quality product packaging – plus finishes for that certain something. From discreet to spectacular. And of course always individually tailored to the needs of our customers.

Every industry has specific requirements. Our specialized teams convince with comprehensive industry know-how, the right packaging, services and ideas for your market. We look forward to hearing about your packaging project.

### Your advantages:

#### In-depth industry expertise

Synergy effects and specialist knowledge in many sectors

#### Packaging management

Complete from consultation to delivery

#### Certifications

# CO-PACKING IN THE BEST HANDS

## Individual solutions

We take care of all contract packaging services, from packing the goods to order picking. Whether packing, repacking or adding – thanks to our many years of experience in the food and non-food sector, we always have the perfect and individual packaging solution for you.

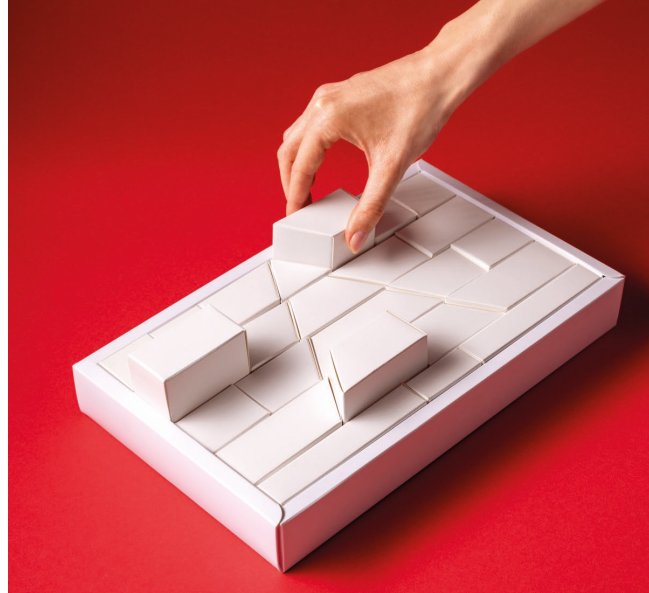

### Our services:

#### Integrated packaging development

Individual packaging solutions for your requirements and wishes. The basis for this comes from our in-house product development and innovation departments.

#### Packaging

By machine or by hand. This includes repackaging, recombining, cleaning, correcting, shrink-wrapping, labeling, marking and bundling products. It also includes erecting and combining multi-part packaging.

#### Incoming goods and quality control

We carry out random checks on quantities and when the products are delivered. Defined outer cartons are opened and their contents checked for quality and quantities.

#### Temporary storage of goods

Our high-bay warehouse allows product-specific storage and meets special requirements – for example for Advent calendars with temperature-sensitive chocolate.

#### Shipping processing

On request, we can take care of shipping, including the entire process. We deliver e.g. on pallets to your warehouse or as individual packages to your customers – worldwide.

#### Project management

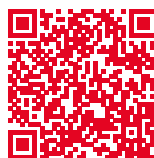

We accompany you through the entire process chain – from consulting to the development and production of the appropriate packaging solution, packaging and storage of the goods through to delivery.

#### Customer-specific interface connection

Always up to date: With many configuration options. For example, as inventory management incl. best-before date or inventory posting at goods receipt.

# MECHANICAL ENGINEERING FROM THE INDUSTRY SPECIALIST

## Individual solutions

We take care of all contract packaging services, from packing the goods to order picking. Whether packing, repacking or adding – thanks to our many years of experience in the food and non-food sector, we always have the perfect and individual packaging solution for you.

### What makes packaging machines from Karl Knauer stand out?

Impressive advantages: Low energy consumption; cost-effective, modular system parts; spatial flexibility thanks to space-saving, mobile packaging machines in your design; planning and integration into your production layout; user-friendly, simple operation; maximum precision for professional and safe packaging.

### Flexibility as a quality factor

Maximum flexibility, dynamism and reliability in the material and production flow: modern packaging machines have to cope with the increasing number of variants of individualized and personalized packaging. The modular Karl Knauer system for the packaging industry shortens time-to-market and increases system availability – with less complexity and efficient engineering.

# WELL INFORMED!

Subscribe to the newsletter  
and never miss any news in the  
world of from KARL KNAUER:  
[karlknauer.com/newsletter](http://karlknauer.com/newsletter)

We are Karl Knauer KG – specialists in Packaging, Promotional Products, Gift Packaging and Mechanical Engineering with over 80 years of experience. Our head office is located in Biberach (Baden), supplemented by a subsidiary company in Pniewy, Poland.

Every day, we develop individual packaging solutions that give our customers a real market advantage throughout Europe. What drives us: Responsibility, innovative strength and sustainable thinking.

For us, sustainability is not a trend, but an attitude. We have always been environmentally conscious – as a family-run company with clear values. Our world is cardboard, corrugated board and paper – natural materials from which we create functional, high-quality and sustainable solutions.

From the use of certified raw materials to energy-efficient production processes: Protecting the environment is at the heart of everything we do.

With creative ideas and a genuine pioneering spirit, we develop packaging that not only strengthens brands, but also makes our future greener.
