

## SELL A SOLUTION!

Help your customers grow their bond with their pup by using these tips to provide simple solutions to common issues customers face with their furry friends.

### Biting During Play?

**A:** It's all fun and games until Lassie gets excited and chomps on your hand. Protect your hands with these tug toys designed to give you guys some space while building your connection.

Skamp®

Bumi®

Snorkl®

### Distraction From Being Alone?

**A:** Your snuggle bug needs a full-time friend, but it's interfering with your grocery run. Present your pup with a tasty-filled puzzle toy to help absence make the heart grow fonder... not more stressed out.

Tux®

Qwizl®

Toppl®

### Teething Puppy?

**A:** Growing teeth is no picnic, and that pain and discomfort can lead to destructive behavior. Redirecting their chomping from your fingers to a gentle chew toy can ease their suffering and reduce the pain of teething.

Drifty®

Skamp®

Sailz®

### Eating too Fast?

**A:** You blink, and then whoosh – dinner is inhaled! Slow down the speedy crunches by tossing their food in a slow feeder. Make the challenge even harder by freezing, or combining two Toppl's together!

Toppl®

Feast Mat™

### Senior Dog?

**A:** Grey snout, dapper dogs still want to play, but usually less often and in shorter, gentler sessions. For an elderly dog, try fetching a toy thrown just a few feet or engaging with a treat toy that they won't have to chase after.

Qwizl®

Zwig®

Snorkl®

### Super Chewer?

**A:** When Chew-baccas need to sink their teeth into something, make sure it's not the chair leg! Zogoflex® chew toys are perfect for those pups that like to eat, sleep, and gnaw.

Rumpus®

Jive®

Hurley®

### Lots of Energy?

**A:** Can't stop, won't stop! These bouncy, spirited pups will offer a well-loved Skamp® or Zisc® to anyone whose throwing arm they haven't already exhausted...complete strangers included.

Solutions to  
Each Dog's  
Unique Needs!*

## WHY DOGS NEED **PLAY**

Play remains one of the most powerful ways to forge that all important pet-parent bond. Play creates an element of routine that dogs find comforting, but it also offers plenty of physical and mental stimulation.

Enrichment is a powerful tool in a number of situations... Bored dogs causing destruction, anxious dogs learning to be independent, active dogs that need somewhere to focus their energy, reactive dogs that need a hand acclimating to stressful situations, and so much more!

### INCREASE THE CHALLENGE

+ the fun!

Fill with your favorite liquids and spreadables, plug with a **Toppl Stopper**, and freeze to make the fun go on and on and on!

The only thing better than one treat toy is TWO treat toys. Combine them together for extra mental stimulation!

## WHY DOGS NEED **CHEW**

For canines of every age, chewing enrichment toys are the ultimate de-stressor. Chewing releases dopamine, a calming, feel-good neurotransmitter. Made from an extremely durable material called Zogoflex®, these toys keep both table legs and dogs safe!
