

CJ Manufactory s.r.o. – Quality, Precision, and Innovation in the Development of Firearms and Accessories for Competitive Shooting

CJ Manufactory s.r.o., founded in 2019, is the result of the extensive experience of Josef Černík, a competitive shooter and expert in the field of sports shooting, who previously contributed to the development of long firearms as a product manager. His passion for competitive shooting and profound technical knowledge led to the establishment of the company, aiming to provide high-quality and innovative products for shooters of all levels.

CJ Manufactory s.r.o. focuses on two main areas of activity:

1. Consulting and Supplies for Firearms Manufacturers

Our company provides design and product consulting services to firearms manufacturers. We also offer the supply of precision parts that meet high standards of quality and technical requirements.

2. Production of In-House Branded Products for End Customers

The second area involves the production and distribution of our own products under the CJ Manufactory brand, designed for end customers. Our products include firearms and accessories for competitive shooting, engineered for maximum performance and user comfort.

Our product range includes:

- Tuning springs and firearm trigger mechanism parts
- Custom machined tuning parts, such as triggers, charging handles, and sights
- Wooden, composite, and aluminum stocks

CJ Manufactory s.r.o. guarantees a high-quality, precise, and innovative approach to the development of competitive firearms and accessories. For more information, visit our website at www.cjmf.cz.
