**Sustainable
labeling solutions
from Logopak.**

Minimise your footprint. Maximise your efficiency.

Our solutions are designed to make your labeling processes more efficient, safer and, above all, more environmentally friendly. For example, with sustainable products such as our linerless labels, our eco-friendly e-applicators and, last but not least, our durable machines.

Green-Deal-ready: From 2024, compliance with the EU Corporate Sustainability Reporting Directive (CSRD) will be mandatory – we support you with our solutions to document your processes transparently and achieve the goals of the European Green Deal.

Logopak is your partner for a better future: with the perfect system of excellent hardware, innovative software and TOP services.

- + Linerless labeling
- + Environmentally friendly e-applicators
- + Durable machines

Your benefits

- > No liner material, no waste
- > Good readability and durability thanks to the siliconized surface
- > Low storage and material costs
- > Fewer roll changes, increased availability
- > Fewer CO₂ emissions – reduced footprint
- > Economically efficient and future-proof investment

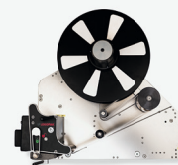

Efficiency meets sustainability.

Our sustainable solutions

Sustainable labels

Linerless Labeling

Environmentally friendly, linerless labels

No waste material; fewer stops for roll changes; good readability and durability thanks to the siliconized surface

Secondary labeling

410 Linerless

Fully automated labeling system with linerless labels

Environmentally friendly, linerless labeling

410 Green Applicator

Applicator without compressed air

Complete elimination of compressed air ensures CO₂ reduction and lower operating costs

Tertiary labeling

850 P3 e Hybrid Series

Hybrid pallet labeling

Efficient, flexible and sustainable: from die-cut to linerless labels and back again – and entirely without compressed air

920 PSCK Series

Pallet cord labeling without PE film

2 in 1: Load securing and labelling of pallets and up to 30 % more labels per roll
