

# WE ARE LIGHTFORCE

Whether camping in the wilderness, hunting a predator, pulling an all-nighter or off-roading through rough terrain, we are there to light the way. Based in Australia, Lightforce equipment is tested in one of the harshest environments in the world – a place filled with adventure and opportunity.

Lightforce started its journey in the 1980s when Dr. Ray Dennis identified a need in the market and thus designed a portable, lightweight light. Since then, we've built our global presence by serving those who value performance, innovation and design.

## WORK AND PLAY FROM DUSK TILL DAWN

DRIVING LIGHT CATALOGUE

► DRIVING LIGHTS

## BEAST

The ultimate LED driving light by Lightforce leaves others in the dark with BEAST's unique 3-mode operation. You, the driver, can change from spot beam, flood beam, and then to BEAST mode all within the comfort of your vehicle. Tame the night with BEAST and dominate the dark.

BEAM DISTANCE / WIDTH: SPOT (pair) **1 LUX @ 1497m / 60m** | FLOOD (pair) **1 LUX @ 778m / 140m** | BEAST (pair) **1 LUX @ 1375m / 140m** | WATTAGE: **149W LED**

## GENESIS

The Genesis LED packs 37 LumiLEDs LEDs into a comparatively compact frame for a driving light that pushes the limits of LED technology. Backed by 140W of power, a pair of Genesis LEDs reach out to produce usable light at over one kilometre and conquer the most demanding lighting needs.

BEAM DISTANCE (PER PAIR): **1 LUX @ 1119m** | WATTAGE: **140W**

## STRIKER

Australian designed and manufactured Striker LEDs have a stylish rectangular form factor for a cool look on any 4x4, SUV or ute. Features include 5000K colour temperature to minimise glare, superior shielding to reduce radio interference and IP68 / IP69K ingress protection. Each Professional Edition twin pack now includes a complete DIY Easy-fit Installation Kit with a Lightforce single switch 8 pin adaptor.

BEAM DISTANCE: **1 LUX @ 750m** | WATTAGE: **60W**

## HTX2

Can't decide between LED or HID? Get the HTX2 and experience the best of both. This powerful driving light has a 50W HID bulb surrounded by 80W of LEDs for unmatched performance and versatility. Independently switched three-mode operation provides complete control of short, mid-range and long-distance viewing. Who says you can't have it all? Also available in 24V with Xtreme Top Stay Bracket.

BEAM DISTANCE: **1 LUX @ 1656m** | WATTAGE: **50W HID + 80W LED**

## VENOM

Like the Genesis LED, the Venom LED breaks the rules of what LED driving lights can accomplish. The 150mm frame allows the Venom LED to fit locations and vehicles that can't accommodate a bigger light, while the 75W power rating packs an impressive punch.

BEAM DISTANCE: **1 LUX @ 912m** | WATTAGE: **75W**

## VIPER LIGHT BARS SINGLE/DUAL ROW

VIPER Light Bars offer 25% more performance than previous models. All VIPER Light Bars come with loom, end mounts and slide mounts. Improved features include marine grade powder coat finish, reduced radio interference technology and more. Single row bars are available in 6 - 50", dual row bars are available in 10 - 50" and amber lens bars are available in a range of sizes depending on your geographical location.

BEAM DISTANCE: **1 LUX @ 562m** for a 20" Single Row Bar | WATTAGE: **100W**

► UTILITY LIGHTS & HANDHELD LIGHTS

## ROK 9 / 10 / 20 / 40 UTILITY LIGHTS

ROK LED Utility Lights are diverse and adaptable, ideal for a wide range of applications including heavy equipment, mining, off-road vehicles and ATVs. Incredibly compact and guaranteed for 3 years. Models include ROK9 surface mounted light and ROK10, 20 and 40 watt. Different beam patterns such as flood, spot and ultra-flood models are available.

WATTAGE: **9W, 10W, 20W & 40W**

## HID / HALOGEN HANDHELD LIGHTS

The Lightforce range of halogen and HID handhelds are tested in the harshest environments. Ideally suited to the professional or recreational user, these lights offer superior performance and distance. Reflector sizes include 170mm and 240mm. Focusable beam patterns offer complete control of your beam type. HID technology offers a whiter and brighter light with incredible distance. All modular filter compatible and Australian made. (Enforcer Halogen model is available as a variable power / dimmer option.)

Find out more about the complete range of handhelds at [lightforce.com](http://lightforce.com)

► DRIVING LIGHTS

## STRIKER / BLITZ HALOGEN

Striker and Blitz are the heavy hitters in the Lightforce range with outstanding performance and suitability for installation in tight locations. The Striker and Blitz models feature high output 100W Xenophot bulbs and a supremely efficient polycarbonate reflector system. They outperform and outlast bulky glass and metal competitors. Available in 12V and 24V.

BEAM DISTANCE (PER PAIR): **1 LUX @ 875m / 994m** | WATTAGE: **100W**
