

SUPRAVIS

FOR **40**
ALMOST years
WE HAVE BEEN
CREATING
TRUST
WORTHY
PACKAGING

TRUSTWORTHY PACKAGING

We are a leading European manufacturer offering a comprehensive range of barrier and high barrier packaging of flexible films for the food industry, in particular used in the processing of **meat, fish** and **milk**.

Our products are also used to protect medical products as well as in the technical sector (e.g. in the electronics or automotive segments).

Products delivered by **Supravis** are in compliance with Polish and European legislation, quality requirements and food safety guidelines for packaging materials intended to come into contact with food.

AFTER-SALES SERVICE

Our team of highly qualified specialists will help to improve the packing process at the Customer's plant. After thoroughly analyzing the packing system and packing machines used at the plant, our experienced experts will determine possible errors and propose most optimal solutions to improve running of the packing process.

GRAPHIC DESIGN

We also offer graphic designs for packaging. We have a professional design office, where a team of experienced and creative designers helps to adapt graphic designs to preferences of our Customers and to optimize quality and price of a finished product.
