

MISPET

Dedicated Support for Healthy
Living and Longevity of Our
Beloved Pets

About Us

As a team that believes humans, animals, and nature form a unified whole, we embarked on this journey not merely as a profit-driven company but as a movement of love embracing all the colors of life.

Under the umbrella of Mispet, we decided to create products for our "Furry Friends" using plant-based and ethical resources, ensuring that our production processes do not harm nature. Each of our support products is made not only with healthy ingredients but also with love and care. Additionally, we aim to donate a portion of our revenue to shelter and feeding projects for stray animals.

Paw Friends has quickly become a symbol not only for animal lovers but also for environmentally conscious individuals. Our philosophy, encapsulated in the motto featured on our product packaging, "Every paw writes a story of love, and we are part of that story," defines who we are.

Today, every product we create to support the healthy growth of our furry friends shines a light on the future of both animals and humanity. Because every journey that begins with love transforms into a tale of friendship that embraces the rights of all living beings.

Join us in being part of this story with our brand. Because friendship grows when shared.

officinalis

Designed for cats and dogs to help control stress and behavioral disorders, promote balanced behavior a product. Alleviate restlessness in situations that cause anxiety and stress, such as nervous or aggressive behaviors, travel, and veterinary visits.

CALMING MALT PASTE

*Reduce stress,
promote peace!*

Directions For Use

For adult cats and dogs, administer 4 cm (2 g) daily.

The daily amount can be doubled if necessary. Apply directly from the tube, mix with food, or place on the paw where the cat or dog can lick it off. They may also lick it directly from the tube or your finger.

The shelf life is 2 years from the production date.

MISPET

ANTIHAIRBALL MALT PASTE

*Say Goodbye to
Hairballs!*

Directions For Use

Directions For Use: For adult cats, use 1.5 g (3 cm). For kittens, use 0.5 g (1 cm). If used to support hairball prevention, administer 2-3 times a week. For active hairball problems, use daily. Place on the front of paws, where the cat can lick it off.

The shelf life is 2 years from the production date.

MOS
(Mannan
Oligosaccharides)

BETA GLUCAN

It supports the need for fiber that cats need to remove the hair and other indigestible components they swallow while cleaning themselves from the body. Thus, it supports the intestinal and digestive system while helping to eliminate hairballs accumulated in the digestive system.

D-Mannose

Vitamin C

Cranberry Extract

The cranberry it contains helps reduce the sensitivity of acute or chronic urinary tract infections and prevents bacteria from adhering to the mucous membranes of the urinary system. It helps support and maintain the normal function of the urinary tract of cats and dogs. Vitamin C helps to provide effective protection in the nephrons against acute renal failure. It is supportive in preventing urinary stone formation by increasing the acidity of urine and balancing its pH.

URINARY MALT PASTE

For Urinary Health!

Directions For Use

Per 5 kg of body weight, use 1 cm (0,5 g).
It can be applied directly from the tube, placed on the paw, or mixed with food.

The shelf life is 2 years from the production date.
