Your Expert Team in Packaging

Welcome to Beutler Packaging

Beutler Packaging GmbH is a family-run business in its 5th generation, operating in Iserlohn since 1896. As a packaging manufacturer, we plan with precision, deliver creative ideas with enthusiasm, and implement your individual wishes with great commitment and high-quality standards.

Sustainability is just as important to us as ecological awareness in production and social responsibility for our employees and society. The recognition and appreciation we receive for our approach and developments make us proud and show that we are on the right path. We value long-term, partnership-based relationships with our customers and suppliers. That's what defines us – beyond standard. We are happy to share exciting developments and progress with you.

Your Beutler Family

Services

Captivating Know-how

Idea / Consulting

There are countless ways to package a product – we will find the ideal solution for you. We offer customized individual services or can handle your project as a full-service solution: from conception, procurement, and production to assembly, distribution, and logistics.

Development

Our designers and CAD engineers develop creative solutions tailored to your needs. We create packaging from solid board, corrugated board, as well as single-material or mixed-material packaging that protects and showcases your product in the best possible way.

Design

We are happy to design your packaging according to your wishes, ensuring it perfectly matches your product and brand. Whether it's special colors, custom shapes, or a unique design – we turn your ideas into reality.

Printing

Offset printing is perfect for product packaging and advent calendars. Razor-sharp images, vibrant colors, and cost-effective production on our König & Bauer Rapida 106-5+L ensure outstanding quality.

In addition, we offer various finishing options such as gloss varnish, matte varnish or blister varnish, which give your packaging a distinctive touch.

Laminating

The laminating machine is a highly advanced, versatile machine used to bond cardboard with corrugated board, creating a stable packaging solution.

Die-Cutting

Our BOBST Visioncut 106 is a state-of-the-art die-cutting machine known for its innovative technology and precision.

We die-cut materials ranging from 170 g/m² to 900 g/m², as well as laminated sheets of E-flute corrugated board.

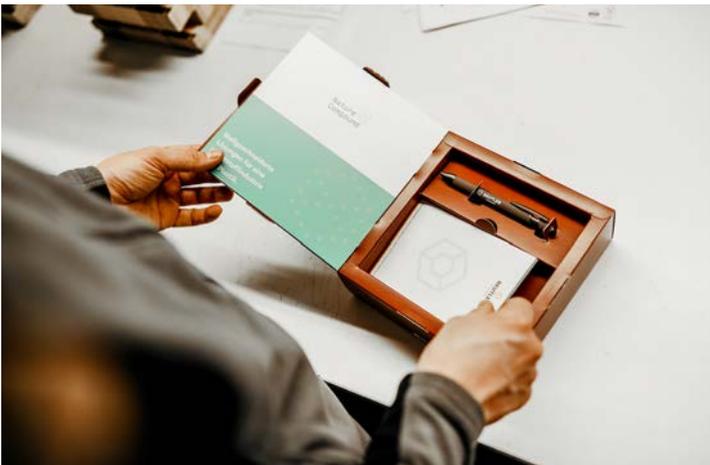

Die-Cutting & Finishing on the Heidelberg Press

Our three Heidelberg presses are particularly suitable for die-cutting small to medium-sized runs and formats. Custom finishing options, such as blind embossing and foil stamping, are also available.

Glueing

We produce longitudinal seam, fold-bottom, 4-point packaging, and 6-point mailing envelope glueing using our two BOBST glueing machines.

Finishing & Assembly

Smaller runs and packaging that cannot be machine-glued are processed in-house with great care by hand.

Especially for exclusive and high-quality print productions, manual finishing and inspection are the guarantee for perfect quality!

Advent Calendars

Custom solutions for the B2B sector

Would you like to have advent calendars printed and filled with your products? Are you looking for ways to showcase your products, product samples, or promotional items in a cardboard calendar during the advent season?

From food products to non-food items, we create high-quality advent calendars with fillings of your choice! For the production of our advent calendars, we have access to a wide range of materials. From eco-friendly FSC-certified cardboard to recycled cardboard, we make – almost – anything possible!

Standard Advent Calendars

No tooling costs for inlays & folding boxes

Our standard advent calendars can be produced without additional tooling costs for inlays and folding boxes. This means you not only save money but also have the flexibility to customize your design according to your preferences. Starting from 500 pieces.

Die-Cut Advent Calendars

Our die-cut advent calendars offer a unique way to present your promotional message. The die-cutting gives the front page a custom shape, which is not only aesthetically pleasing but also grabs the attention of your target group. We produce advent calendars with custom shapes in small runs starting from 500 pieces.

3D Custom Shapes

Our 3D advent calendars are as unique as your ideas. Whether stars, towers, cars, trucks, or completely unconventional designs – we can bring nearly any shape to life. There are no limits to your creativity! Perfect as a gift or a original surprise for your customers.

Image, Quote, or Promotional Advent Calendars

Our flat advent calendars without fillings offer endless design possibilities. Whether with funny quotes, inspiring images, or as a voucher advent calendar – design 24 doors full of surprises and personality.

Pet Food Advent Calendars

Would you like to launch your own advent calendar for pets and have a clear vision of how to make the upcoming holiday season extra special for pet owners and their furry friends? Perfect, because when manufacturing our advent calendars, we fully adopt to you and your products.

Countdown Calendars

Our range includes more than just the typical Christmas countdown calendars. From 4 to 30 doors, we create countdown calendars for all kinds of occasions, such as Easter, Ramadan, sporting events, or travel. In a nutshell: A countdown calendar is a creative way to build excitement for a special event!

Advent Calendar Inlays

The perfect inlay for your advent calendar

We offer various options to find the perfect inlay for your advent calendar. In addition to traditional thermoformed parts made of A-PET, we also offer sustainable alternatives made from NatureForm Papyrus film, fiber form, and corrugated board.

NatureForm Papyrus Foil

- biobased from renewable raw materials
- approved for direct contact with food (EU 10/2011)
- free from BPA & PFAS
- finished thermoformed parts available in various standard sizes
- customized special designs possible
- industrially compostable

Cardboard Inlay

- plastic-free, 100 % recyclable
- individually customizable
- ideal for combining various product sizes
- cost-effective production

Moulded Pulp Inlay

- 100 % recyclable and compostable
- shape-stable and impact-resistant for maximum product protection
- individually customizable, also suitable for large and heavy products

PET Inlay

- at least 60 % recycled content
- many standards available in the range
- highly transparent
- cost-effective

Parchment Cover for Inlays

- 100 % recyclable
- protection against external influences
- keeps your product in place
- sustainable alternative to adhesive tape
- food-safe and tasteless
- grease and moisture protection

Your Product – Perfectly Presented

Custom packaging from Beutler Packaging

Folding Box

Discover the versatility and functionality of our folding cartons, which form the core of almost every packaging solution. As the foundation for a variety of packaging options, folding cartons are not only cost-effective but also fully machine processable.

We are specialists in packaging solutions that are perfectly tailored to your needs.

Blister Card

Blister packaging not only presents your product in the best visual way but also protects it from theft and external influences.

The connection between the blister and the card is crucial for the quality of the packaging. As a manufacturer with many years of experience, we offer a wide variety of blister cards suitable for your product.

E-Commerce Packaging

Discover our high-quality, robust shipping boxes, that make your brand visible during transportation and take the unboxing experience to a new level.

Choosing the right shipping box is crucial for smooth delivery.

Our hinged-lid boxes and individual shipping packaging are made especially for you and offer an exclusive combination of brilliant offset printing and subsequent lamination on hardwearing corrugated board.

Folding Packaging

We are experts in extraordinary folding packaging that help you and your brand stand out with remarkable shapes, construction, and texture.

Our packaging variant enhances your product and becomes the eye-catcher in any presentation.

Whether made from solid board or laminated E-flute corrugated board, white or brown, printed or unprinted – choose from countless options for your packaging, Beyond standard.

Product Bundle

Our product bundles go beyond the standard offering and offer fully customized packaging for your unique brand experience. Product bundles are not just packaging; they are a strategic tool to increase your sales and strengthen customer loyalty.

By leveraging product bundles in cross-selling, you can not only increase sales but also market your entire product portfolio more effectively. It's a proven method for driving revenue growth.

Counter Display

Counter displays are ideal for a wide range of products and industries. They are designed to present your products in a compact and optimal way. Set a visual highlight at the point of sale and encourage impulse purchases.

With various shapes and constructions, we put your products in the spotlight. Benefit from our know-how/expertise and creativity.

Carrier Packaging

They are the portable version of classic packaging and are ideal for set packaging. The practical handle enhances the take-away effect at the point of sale.

Our cardboard carrier packaging are extremely versatile packaging solutions, which are used by our customers across various industries and for a wide range of products.

3D Mailing

A creatively designed 3D mailing can convey your message in a memorable and original way.

Inspire your employees, prospects, and customers with a unique direct mailing made of cardboard.

The unboxing experience of such a 3D mailing increases the visibility of your brand and ensures you capture the recipient's attention.

Quality Commitment & Sustainability in Focus

Environmentally conscious & climate-neutral production

Our aim is to bring products to the market that not only offer excellent quality but also stand out due to resource-efficient manufacturing materials. Over 95% of the materials generated in our production process are sent to recycling. Furthermore, we produce exclusively with green electricity.

We have been certified according to ISO DIN 9001 for many years. This is the foundation for an optimal production process. Workplaces designed using the 5S method simplify on-site work. The FSC® certification in the packaging sector represents our commitment to sustainability and responsible forestry. Packaging bearing the FSC® logo is made from wood and paper materials sourced from sustainably managed forests.

Let's take a responsible and sustainable path together!

Sustainable Packaging Solutions

All of our packaging contains a high percentage of solid board. After use and proper disposal in paper recycling, the cardboard is reused, creating a nearly closed material loop.

Made in Germany

Our priority is to reduce emissions as much as possible during production and delivery. Therefore, we ensure short delivery routes and manufacture our packaging entirely at our location in Iserlohn.

Refined Packaging

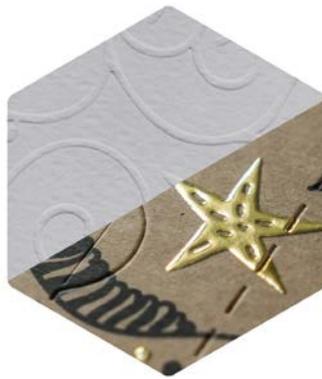

We bring new brilliance to your packaging

Our finishing options set new standards in terms of aesthetics and quality. From precise embossing that gives your design a tactile elegance, up to glossy coatings that reflect light perfectly – we offer a wide range of options to transform your packaging into a true experience, both visually and tactilely.

Our expertise extends across a variety of materials, from paper and cardboard to sophisticated special coatings. We understand that every product is unique, which is why we offer customized finishing solutions that strengthen your brand identity and capture the attention of your target audience at the highest level.
