# 01 | INTRO: WELCOME TO CBA

## WHY ARE WE HERE

We live in a time where cyberattacks, new regulations, and economic pressures define everyday life.

For us at CBA, this means: security is not a luxury, but the foundation for trust, stability, and growth.

We founded CBA not only to protect companies from risks, but also to future-proof them. We firmly believe that **cybersecurity and business management go hand in hand** – sustainable success can only be achieved with clear strategies, structures, and resilience.

## OUR VISION

Making companies safe, compliant and future-proof  
– **so that security becomes a growth driver.**

*Sergey Komarov*  
Managing Director  
Cybersecurity

*Jürgen Sauer*  
Managing Director  
Business Advisory
