rime Group proudly acknowledges the historic groundbreaking ceremony conducted on October 17, 2023, to inaugurate the rime Kelvin Factory in JAFZA, Dubai. This milestone event symbolizes a significant achievement as the expansive facility, spanning 57,000 square meters, positions itself as the third-largest manufacturing unit within JAFZA, Dubai. With an unwavering commitment to innovation and unparalleled excellence, rime Group cements its status as an industry powerhouse, prepared to revolutionize the HVAC and refrigeration sector through the establishment of this state-of-the-art facility.

rime Kelvin Factory, located in JAFZA, Dubai will serve as a pivotal hub for the manufacturing and assembly of essential cooling and refrigeration products. These encompass a wide range of products, such as condensing units, refrigerant doors, and condensing coils. With a relentless focus on uncompromising quality and unwavering dedication to innovation, the factory is poised to consistently deliver reliable, durable, and superior products across various industries.
