

**Service and Engineering**

Innovative, efficient and professional

**High-quality, comprehensive solutions**  
in the field of production equipment maintenance,  
servicing and engineering

**Service and Engineering**

## FROM IDEA TO IMPLEMENTATION: COMPREHENSIVE SOLUTIONS FOR INDUSTRIAL EXCELLENCE

Using our experience, professionalism, and state-of-the-art technologies, we optimise production processes, increase efficiency, and extend the lifespan of equipment. Our solutions are based on an all-encompassing approach.

### **Industrial automation and robotisation**

We increase productivity and reduce costs

### **Manufacture of casting tools for all types of casting**

We provide a comprehensive service, from 3D-modelling and casting simulation to manufacture of tools

### **Comprehensive restoration of casting furnaces**

We provide energy-efficient solutions

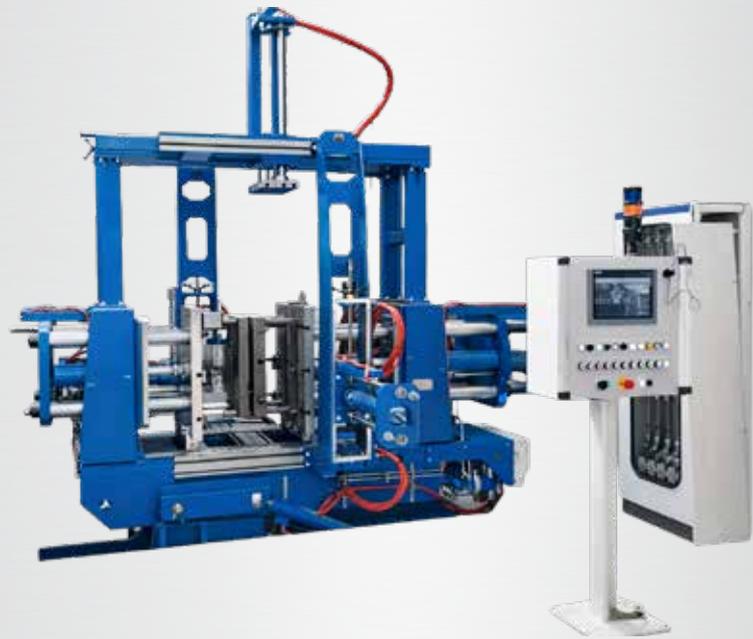

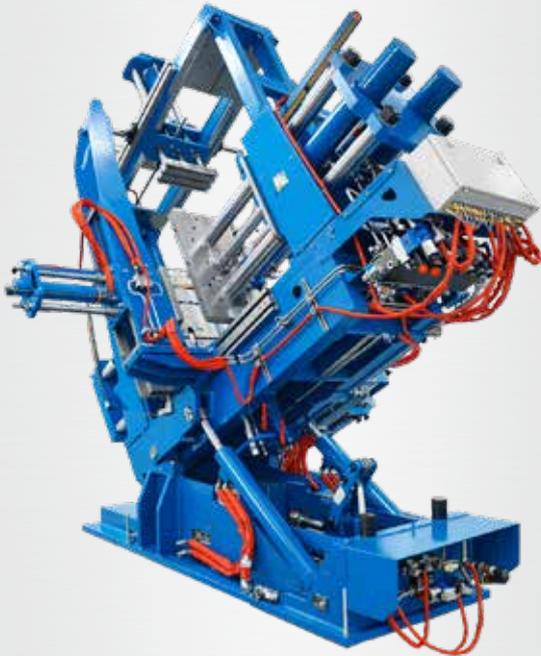

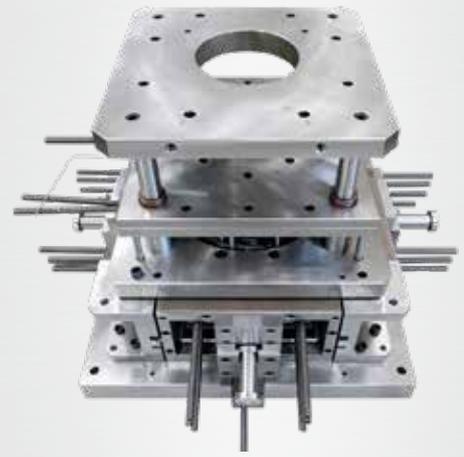

### **General renovations and machine maintenance**

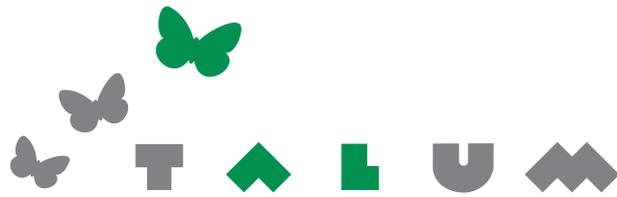

We extend the lifespan of machines and increase their reliability

### **Machine construction**

We develop advanced mechanical components

Innovations that shape  
the future of the industry.

Service and Engineering

## WHY OPT FOR TALUM SERVICE AND ENGINEERING?

### **Innovative and tailored solutions**

Our services are based on state-of-the-art technological support, 3D-modelling, and risk analysis, ensuring an optimal operation of systems

### **Reliability and professionalism**

With many years of experience in our industry, we ensure a high-quality implementation which extends the lifespan of equipment and reduces its maintenance costs.

### **Increased efficiency**

Our engineering approaches optimise production processes, reduce energy consumption, and increase productivity.

### **Industry 4.0 in practice**

The integration of robotisation and automation enables a smart, precise, and competitive production.

**Through advanced automation, we ensure precision, reliability and competitiveness of our industrial processes, allowing our partners to benefit from long-term growth and development.**
