Feeding according to your dog's biorhythm

Does your dog also know almost the exact time for his or her meal?
Your dog's „inner clock“ is based on the biorhythm, just like for humans.

Our specially designed concept of nutrition aligns suitable composition of meals with the feeding times. Together with veterinarians and feed experts we have adapted our recipes to the biorhythm of our beloved companions.

The ChronoBalance-Team

What was initially the idea of a single person - to design a better nutrition for dogs - has developed into the passion of a young and motivated team.

100 ml bottle 1 PU = 6 pcs.

Nutrition supplements

Green-lipped mussel powder

Thanks to its high content of glycosaminoglycans and omega-3 fatty acids, it's beneficial for your dog's joints, positively impacting the musculoskeletal system.

Spirulina powder

Spirulina, a blue-green algae, is packed with vitamins, minerals, and antioxidants. It supports the immune system function, boosts energy levels, and fosters healthy skin and coat. Treat your dog to the gift of optimal health with spirulina powder!

Chlorella powder

Looking for a way to boost your furry friend's health and wellness? Look no further than chlorella powder! This green algae supplement is packed with nutrients that support immune system function, digestion and skinhealth, making it an excellent addition to your dog's daily nutrition.

Cistus powder

It is derived from the cistus plant, which is rich in essential oils, polyphenols, and other compounds that possess antioxidant and anti-inflammatory properties. Supports the immune system, aids gastrointestinal health, and prevents dental plaque.
