

Kaniva Brand Story

Our brand starts with “Passion” for pets. KANIVA® was founded in 2020 with the vision to strive and educate customers about pet’s well-being to envision the day where all animal owners treat their pets as if they were their Children.

From day one, we have dedicated ourselves to continuously improving our products that match our consumer’s needs. We craftily selected every single ingredient to ensure that KANIVA® is produced as a complete and balanced pet food. Created with a determination to satisfy your pets unique needs.

Our mission is to provide highest quality products that can solve everyday problems that may cause disruption between humans and our beloved pets.

Your pet’s safety is our priority, that is why we pay very close attention to every manufacturing process. We also have an internal lab that tests the quality of every LOT before distribution to ensure that it is completely safe for your pets.

Today, we have expanded our distribution channel across Thailand and exported to more than 10 countries during the past 2 years. For our future plan, we will continue our mission to research and develop products to meet our local demand as well as global demand.
