# NIGHT VISION CLIP-ON

**LUNAR** is a compact nightvision clip-on which is perfect solutions for every scope, even static ones. The device has a dual IR (850nm and 940nm) and various features such as starting zoom or adjustable illumination angle.

## SPECIFICATION

Lens:	14.5 mm	FOV:	22.5 x 12.5 x 25.8
Magnification:	X1.5	Digital zoom:	X3.5 (leap in 0.5)
Diopter range:	5 D	Sensor resolution:	1920x1080 p
Frequency:	60 Hz	OLED resolution:	1024x768 p
Memory:	max. 128 GB microSD	Video resolution:	1920x1080 p
Type of IR:	850 nm 940 nm	Power supply:	3,7 V - 18650 cell without protection
Dimensions:	105x115x80 mm	Weight (w/battery):	420 g
Protection class:	IPX7	Operating temperatures:	-20 - 55+ °C

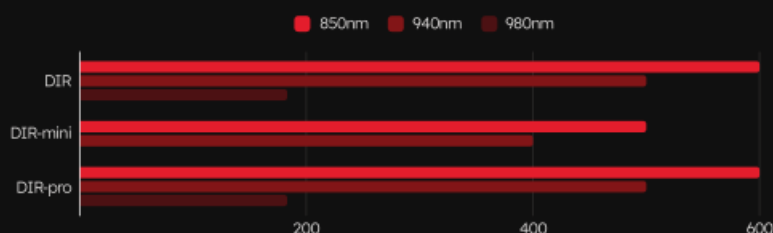

# ACCESSORIES

# IR ILLUMINATORS

## NOXAR DIR (standard, mini, pro)

Our illuminators meet all customer requirements: **standard** for those who care about range, the **mini** for those who appreciate the compact design of the set, or the **pro** having a 850nm, 940nm, 980nm and white diode. Each model of **DIR** has a potentiometer and a LED indicating the status of the device.

### DIR

850nm | 940nm | 980nm

### DIR-mini

850nm | 940nm

### DIR-pro

4-in-1 (850/940/980/white)

## IR MOUNTS

**NOXAR**  
ARM

Picatinny rail mount with adjustable illumination angle. Quick installation with a clamp.

**Diameter:** 25mm

**Mounting:** on Picatinny rail

**NOXAR**  
ARM-45

Picatinny rail diagonal mount with adjustable illumination angle. Quick installation with a clamp.

**Diameter:** 25mm

**Mounting:** on Picatinny rail

**NOXAR**  
ATM

Scope tube mount with adjustable illumination angle.

**Diameter:** 25mm

**Mounting:** tube 30mm

**NOXAR**  
PR

Additional Picatinny Rail for tube.

**Mounting:** tube 30mm

# GLASS SCOPES

## MAGNAR SERIES

### MAGNAR-mini

**MAGNAR-mini** is an additional mini-scope that turns the NV clip-on into a full-fledged, self-contained targeting set. Moreover it's fully compatible with NOXAR LUNAR and most of other nightvision clip-ons.

All you have to do is attach MAGNAR like a standard adapter. From now your clip-on becomes a night vision observation monocular.

#### MAIN FEATURES

**MAGNIFICATION:** 4.0X

**LENGTH:** 114 mm

**WEIGHT:** 200 g

**COMPATIBILITY:** most of clip-ons

## MAGNAR SERIES

### MAGNAR 3-18x56

### MAGNAR 1-6x24

The **MAGNAR** series is dedicated to glass scopes that provide users with many improvements such as parallax regulation, colored illuminated crosshair dots or a lever for easier focus adjustment. Furthermore, it offers excellent sharp image at the edges of the object under observation with true colors, and high recoil resistance.
