Since 1988, as Umur Printing, we continuously aim to be the best in our sector with our cutting edge technology, customer oriented approach and management principles.

We offer high quality service and wide range of products to our local and global customers all around Turkey and export more than +50 countries in 5 continents; through 130.000 m² area of manufacturing and converting facilities located in Dudullu OIZ, Gebze OIZ, 230 machines and 650 employees.

Umur Printing always positions itself as a global leader in the production of sustainable paper products.

THERMAL ROLLS

We care for the nature and human health by using paper excluding BPA and BPS.

Umur, one of the biggest thermal paper converter in Europe, is the solution partner to its customers since 2001. We continue to care for the nature and human health by serving our customers with the latest technology.

Small differences make big impacts.

We work for a healthier life and cleaner world. We adopt sustainability as a principle and we constantly review and improve our environmental management system.

We use recycled and decomposed paper that doesn't contain BPA and BPS.

With the FSC and PEFC certificate, we ensure the protection of forests for future generations.
