

# Rumer **ABOUT** sejna soba Yellow Conference Room

- A family-owned company based in Slovenia, founded in 1994 in Šentjernej by Radko Luzar
- A **technical innovator** specialized and focused on **research, development and production**
- **Investing** a substantial part of the revenue into optimization and knowledge
- **Complete automatized production** lines for **small, medium and large** series
- **Respect** customer company **culture** and **values**
- More than 100 highly **motivated** employees
- Flexible and high responsive

## **FOCUS**

Holistic approach to electronics manufacturing

High quality electronics manufacturing services and R&D

Complete solutions which set us to be reliable end-to-end partner

**PASSIONATE TEAM**

# 1995

Cooperation with KEIL  
Elektronik GmbH

# 1994

Founded by Radko Luzar

# 2007

ISO 9001

# 2021

ISO 14001  
Environmental management

# 2021

Moving to new business  
premises

# 2016

ISO 13485 for medical  
devices

# 2016

Partnership IBM

# 2005

Partnership with  
ARM Ltd

# 2002

Moving to new business  
premises

# QUALITY CERTIFICATIONS

**ISO 9001:2015**

**ISO 14001:2015**

**ISO 13485:2016**

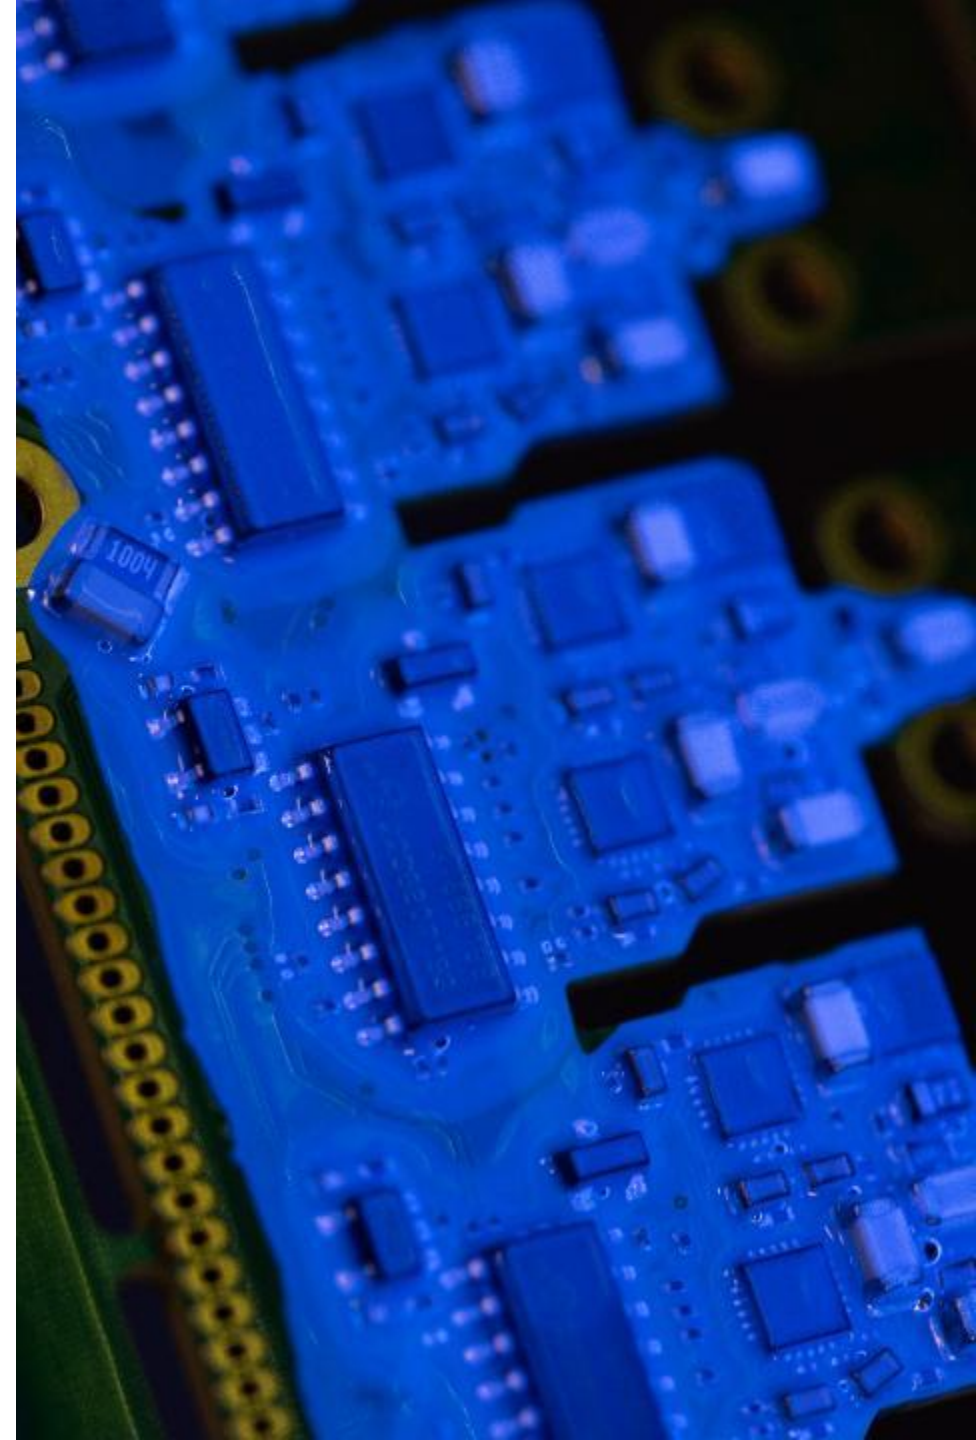

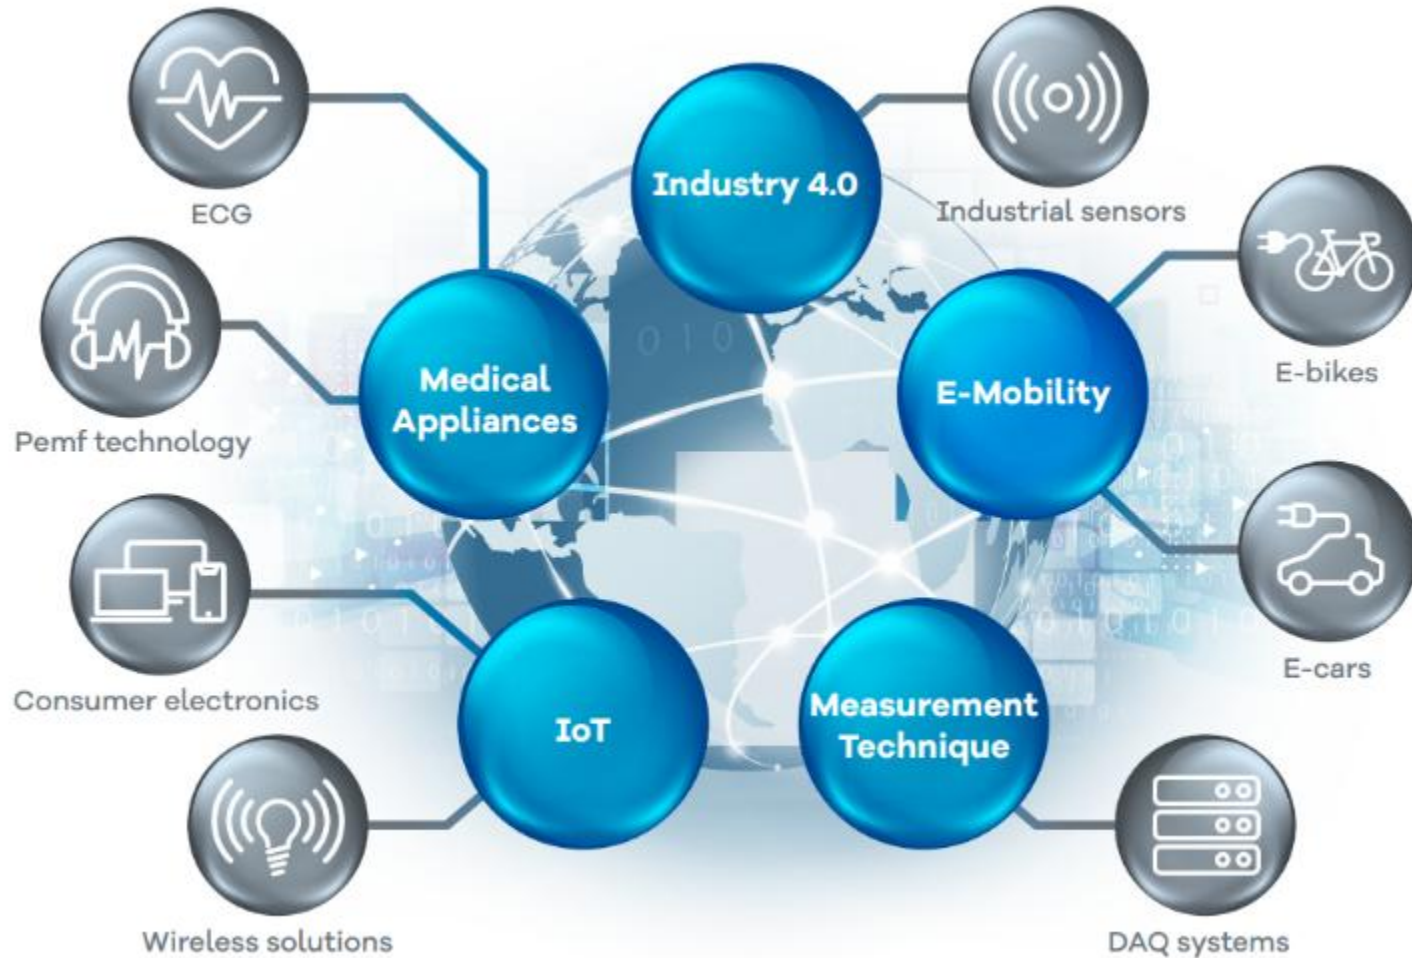

**IPC-A-610**

Production and other premises are ESD protected and inspected regularly.

# Active industry sectors

# HIGH-TECH PROCESS

1.

RESEARCH AND  
DEVELOPMENT  
(R&D SERVICES)

2.

RAPID  
PROTOTYPING

3.

Production transfer

# END-TO-END PARTNER

Your products are covered by  
us from beginning to the end.

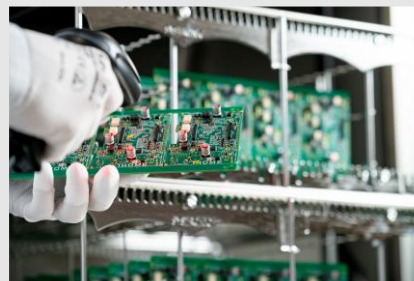

# PRODUCTION FACILITIES

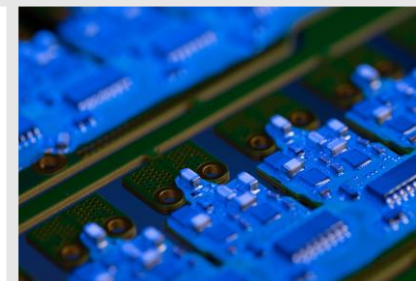

**EQUIPPING PRODUCTION SPACES / Y2025**

**GOOD  
MATERIAL  
MANAGEMENT**

**MACHINE  
WASHING**

**CONFORMAL  
COATING**

**AOI**

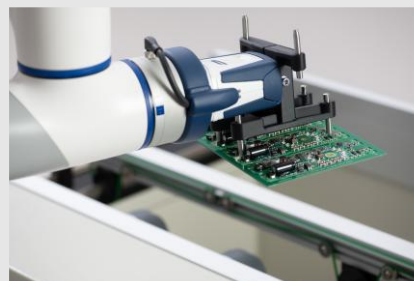

**HIGH  
QUALITY**

**X-RAY**

**BGA  
REWORK**

**AUTOMATION OF  
THE PROCESS**

**TESTING**

**PROGRAMMING**

**ULTRASONIC  
WELDING**

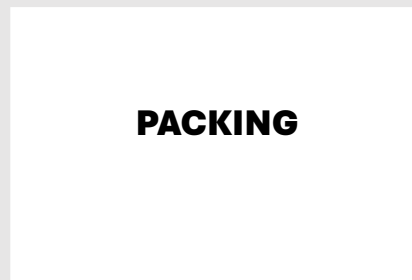

**LASER  
ENGRAVING**

**BOX BUILD  
ASSEMBLY**

**PACKING**

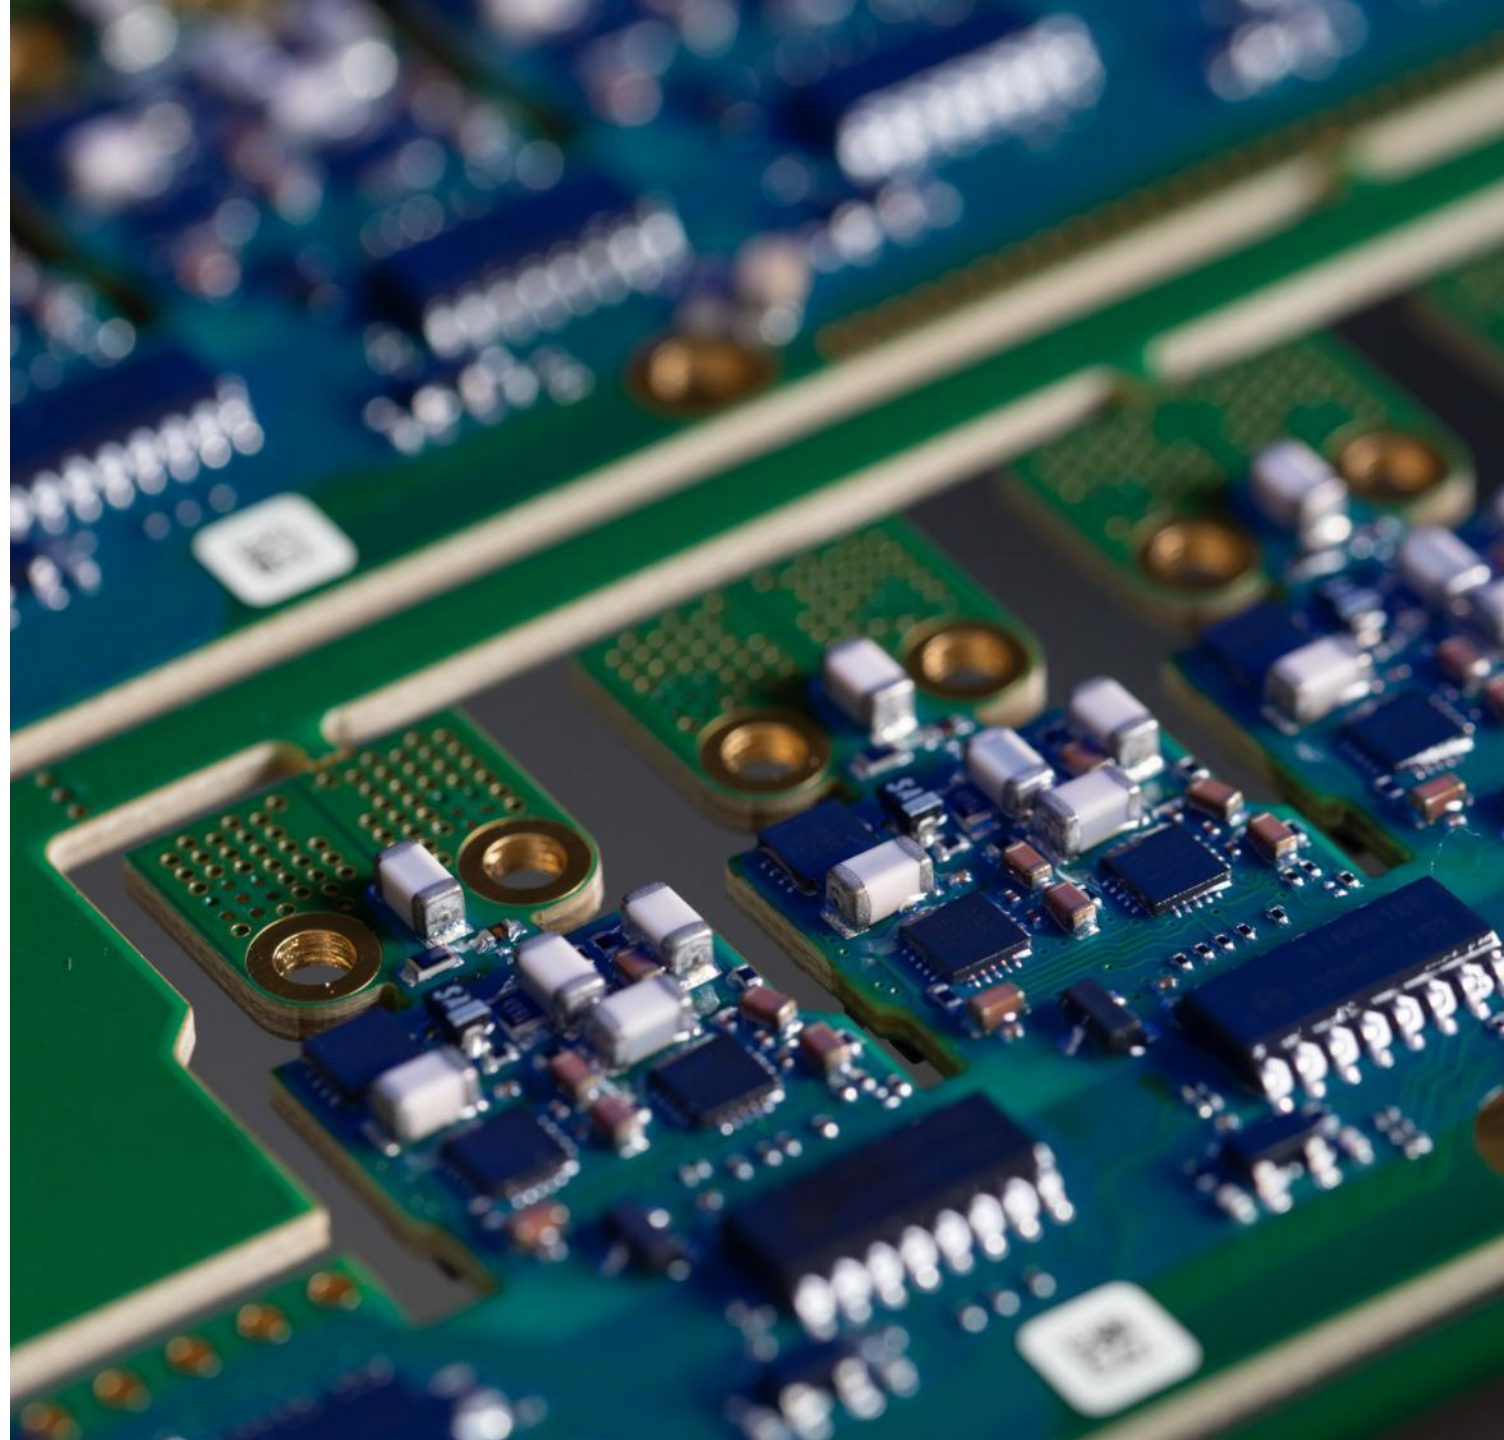

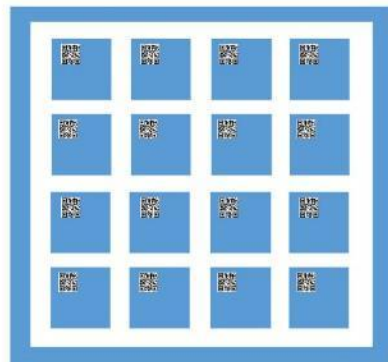

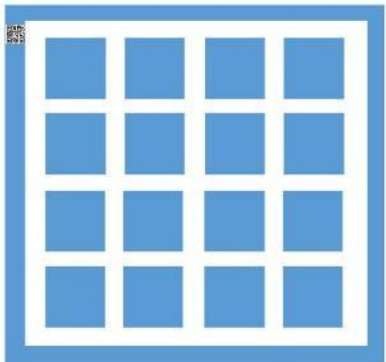

**3D PRINTING**

# TRACEABILITY

Documentation of the processes and sustainable reporting

## Traceability

- on batch
- on the panel
- on the PCB
- of process

# MATERIAL HANDLING

- MSL
- Storage under appropriate conditions
- Preparation of material for the production
- X-Ray component counting
