Engineer and Manufacture for HVAC Accessories

Chinafore began its journey in 2000 and established its first factory and engineering team in 2010. Today, the company integrates sheet metal fabrication, aluminum ducting, electronics manufacturing and plastics processing.

Its portfolio spans air distribution, ventilation, condensate management and AC installation solutions, supported by OEM, ODM, product development and engineering services. Chinafore is also advancing a manufacturing base in Rayong, Thailand, to strengthen its international supply chain and localized production.

FOUR CORE PRODUCT CATEGORIES

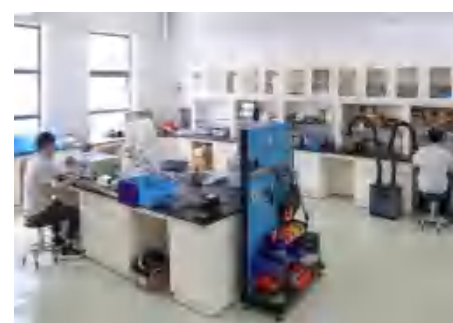

- Air Distribution
- Ventilation Fans
- Condensate Management
- AC Installation Accessories

AUTOMATED SHEET METAL FABRICATION

ELECTRONICS QUALITY CONTROL

PRODUCT DEVELOPMENT & TESTING
