

# STRETCH HOOD HM80 – NEW generation of hood tech.

- ▶ **Most reliable film opening system on the market.**
  - ▶ Mechanical opening system (no vacuum), not sensitive for crosswinds, sticky film and variation in film quality.
- ▶ **Tubular PE Stretch hood film without gusset**
  - ▶ Min. 30% less film change - Less film stock
  - ▶ No stretch in gusset
  - ▶ Print all around the film, means logo on all 4 side on the pallet
- ▶ **Compact**
  - ▶ Lowest machine on the market, total height 3750mm at 2000mm high pallets
  - ▶ Min. transport height down to 500mm.
- ▶ **Servo drives**
  - ▶ Main motors are servo and servo controlled
  - ▶ AC motors are servo controlled
  - ▶ High accuracy, low wear and noiseless operation.
- ▶ **Low investment and low maintenance costs.**
  - ▶ Reduced moving parts compared to conventional stretch hood.
- ▶ **All service at floor level.**
- ▶ **Easy installation**
- ▶ **User-friendly and intuitive HMI**
