

How Setyl helps organizations gain full visibility and control over their IT assets, licenses, usage and spend

Organizations across industries explain why they choose [Setyl](#) as their IT asset and license management (ITAM) solution, and how they benefit.

RIO gained full transparency over its IT assets and licenses with Setyl

RIO, part of the Volkswagen Group, uses Setyl to maintain a complete and accurate register of IT assets, licenses, users and spend — enabling its IT, Finance and HR teams to operate more efficiently and cut wasted IT spend.

“What would I tell other companies about Setyl? I would say, just buy it. The platform works well, and the functionalities are exactly what we need.”

— Alexander Schuster, IT Administrator at RIO

Nourish streamlined its IT and compliance management with Setyl

As the software company doubled in size, Nourish turned to Setyl to more effectively manage its IT assets, applications and compliance, and gain complete oversight.

“When we doubled in size overnight, it became immediately apparent that spreadsheets couldn’t keep up.”

— Adam Gleed, Head of Information Security at Nourish

“There's a real comfort in knowing that the information I'm seeing is accurate and reliable. I don't have to check spreadsheets or look through cupboards anymore. It gives me peace of mind knowing everything is in one place and it's up to date.”

— Nathan Briggs, ICT Manager at Nourish

Ebury simplified and scaled its IT asset management with Setyl

Setyl has become an integral part of fintech company Ebury's IT management, helping the IT team manage assets across 36 offices in 24 countries and simplify their operations as the company grows.

"What I love about Setyl is the ease with which it allows the team to manage thousands of devices and assets across our global estate of offices and remote locations [...] The oversight we now have has been a real eye-opener and has improved our daily operations and overall service to our end users."

— Darrone Vaughan, Director of IT Services at Ebury

Flagstone uses Setyl as its centralized IT asset register

Flagstone upgraded from using a spreadsheet for asset tracking to managing their full asset lifecycle and documentation with Setyl. Thanks to the intuitive interface and integrations into their tech stack, the team can now easily access all IT data in one place.

"I can recommend Setyl with confidence. They are focused on providing an easy-to-use platform not only to track company assets, but also to manage the complete asset lifecycle for both purchased and leased assets, and beyond."

— Hakan Yeter, Senior IT Support Analyst at Flagstone

Banked :

Banked reduced SaaS spend by 25% and stays audit-ready with Setyl

Fintech company Banked initially implemented Setyl to streamline its IT asset management, ensuring compliance with its banking partners' strict security audits. But it was its subsequent adoption of Setyl's software management capabilities that also led to substantial cost savings.

"It's been fantastic to gain this visibility over all our IT assets, SaaS applications and people in one place. I now have peace of mind knowing that the information is readily available whenever needed, including for compliance and audit purposes."

— Jamal Issouquaein, IT Engineer at Banked
