FIDOVET GELATO | Some Technical Key Points - 1

1. Same gelato formula for human but suitable for dogs!
2. **100%** Natural and highly palatable! “6 years” of Testing process
3. We use fructose and not sugar in a low q.ty
4. Fructose doesn't provide the glyceimic peak immediately but it is very slow during the day! Safe for the dog.
5. Same for the lactose which is in a low q.ty (20%) and it doesn't provide any negative effect.
6. International **Patented formula!**
7. **No artificial** preservatives or additives or aroma

FIDOVET GELATO | Some Technical Key Points - 2

1. Freeze-dried fruits instead of Aroma! Real Taste!!!
2. We use «Vitamin E» as a strong natural Antioxidant!
3. Sodium Chloride: the lower the freezing point of the water and therefore the colder saltwater/ice solution becomes generating Gelato quicker.
4. Cornstarch: it serves as a stabilizer and keeps the liquid ingredients in the Gelato from moving around and forming just chunks of ice instead of a creamy, easy to scoop dessert.

FidOvet Italian Gelato | Easy to prepare

1. Choose the Flavor

2. Open it

3. Add water up to mark 3

4. Shake for 30 secs

5. Put in the Freezer for 3 hrs
