**Wide range
of standard
products**

Development and production of customised desiccant solutions

- ISO-certified
- GMP-compliant
- in accordance with FDA regulations

MINI DRYY® SACHET | MINI DRYY® STRIP

For inclusion in pharmaceutical and nutraceutical packaging

- High adsorption capacity
- Safe product ingredients
- Large selection of standard grammages (0.5 to 14g), customised products on request

Granulate materials

Silica gel

(saturation indicator optional) for dehumidification

Molecular sieve

Dehumidification even at very low ambient humidity

Activated carbon + silica gel

Dehumidification and adsorption of odours

Customised mixtures on request

Desiccant bags manufactured per piece (Mini Dryy® Sachet) or on spools (Mini Dryy® Strip)

Bag materials

- Tyvek
- PE-coated non-woven
- Aihua paper

Other paper or film based bag materials on request

Sealing types

Visible Lap Seal

Fin Seal

Print mark

Punch hole

Separation markers

(only Mini Dryy® Strip)

Cap Dryy®

- Desiccant capsules for embedding in the lid of bottle-shaped containers
- Also suitable for adding directly to the product in the packaging itself
- Fast moisture adsorption, alternative to conventional desiccant bags
- Tear-resistant casing
- Silica gel as drying agent (saturation indicator optional), molecular sieve on request
- Standard grammages 0.5 - 30g (customised products on request)

Can Dryy®

- Desiccant canisters / cylinders for adding to packaged tablets, coated tablets or capsules
- Suitable for automated insertion into containers at high speed
- Laser engraving on the canisters / cylinders, does not contain any ink
- Filled with silica gel by default (molecular sieve, activated carbon or mixtures on request)
- Standard grammages 0.5 - 3g (customised products on request)

Tab Dryy®

- Molecular sieve-based desiccant tablets
- Two variants available, with and without paper wrapping
- Achieves high adsorption capacity at low humidity, can limit humidity in medical packaging and devices to below 10% RH
- Available in various shapes, diameters, lengths and thicknesses
- Also available as a silica gel + activated carbon tablet on request

PHARMA & FOOD

A selection of our customers

Rely on the desiccant specialists!

Expertise

Desiccants and dehumidifiers have been our speciality since 1999. We serve international customers from the pharmaceutical industry since 2013. Our experienced team solves problems and finds innovative approaches, taking customer-specific requirements into account.

Speed

Short distances and corresponding flexibility in the coordination and realisation of projects are advantages of our medium-sized company. We act and react quickly to all customer concerns.

Own production

At our site in Lüttau, Schleswig-Holstein, we develop and produce customised, highly active solutions for dehumidification. Customer support is provided from our German headquarters - if required, we can also visit you on site.

Strong network

With production partners in the USA and China, we can serve a wide range of customer needs. We deliver reliably with all the necessary certificates.
