Nourishing pet food businesses,
from recipe to success

About us

Who we are:

We are a cutting-edge contract manufacturer of pet food, specialising in wet foods, proudly based in New Zealand. Our high speed, high volume facility utilizes the latest pet food production techniques, resulting in a modern approach to pet nutrition.

Why us:

As an government accredited pet food manufacturer, we operate our factory with full adherence to rigorous risk management procedures, ensuring the safety and quality of our products. Our HACCP certification, approved by MPI New Zealand, further demonstrates our commitment to the highest standards in pet food production.

Where we are:

Our facility is situated in the heart of New Zealand’s South Island, surrounded by abundant natural resources and a steady supply of protein.

Our products

Product Textures:

A variety of textures is key to a lick the bowl clean result! We lead the New Zealand industry in developing textures and flavours that our furry friends will crave.

Product Flavours:

Innovation is at the heart of our products. We are always exploring new and functional flavours, ideally from our own back yard: venison, green lipped mussel, manuka honey, kiwifruit, abalone, etc.

Product Packaging:

Our cans come in three different sizes: 85, 170, 390 gram fills, in retail-ready tray and wrap shippers

Our complete service

Product development:

Our expert nutrition team can create a custom recipe tailored to your needs, or choose from our wide range of market-ready recipes. Let us guide you through the formulation process to bring your vision to life.

Ingredient selection:

We'll assist you in selecting the best New Zealand-sourced proteins and functional ingredients, ensuring palatability and nutritional excellence.

Manufacturing:

Our manufacturing process incorporates the latest automation technology, ensuring optimal efficiency to meet even the highest customer demands. This commitment to efficiency is balanced with our unwavering dedication to quality, demonstrated through our rigorous testing and certified production processes.

Brand and packaging development :

Our design team will work with you to create a unique brand identity, eye-catching packaging, and clear messaging. We'll handle printing and product registration, streamlining the process and allowing you to focus on other aspects of your business.

Market access:

Our go-to-market support service assists with product registration, market compliance, and regulatory requirements in your target markets. Our knowledgeable team ensures a smooth and hassle-free entry process for you.
