

“Half a Century of Experience”

AKIM METAL SUSTAINS INDUSTRY LEADERSHIP WITH HALF A CENTURY OF EXPERIENCE

Akim Metal, based in Istanbul and a branch in Romania, stands as a leading company in metal processing and metal injection with a rich history spanning 50 years, serving in providing superior quality solutions to clients in the white goods, automotive, defense industry, LED lighting, aviation, and industrial servo motor sectors, Akim Metal operates within modern facilities covering an area of 28,000m² under the roof of A Group. The company places customer satisfaction at the forefront, strictly adhering to principles of quality, cost-effectiveness, and timely delivery. SMB and FERMADA branded products produced in the R&D center have been successfully offered in both local and international markets since 2014.

Akim Metal operates with an understanding of sustainable growth and attaches great importance to environmentally friendly products and processes. The company, which holds IATF 16949, ISO 14001 and ISO 9001 quality certificates, strengthens its commitment to quality and reliability. Adopting the principles of environmental awareness and social responsibility, Akim Metal continues to work towards the goal of leaving a better world to future generations.

Akim Metal, with its deep-rooted history, continuously focuses on innovation to maintain its leading position in the sector and add value to its customers. With the vision of maintaining its leadership in the metalworking sector, the company reiterates its commitment to provide customers with the best quality standards and to continue its journey of continuous improvement.
