

GASCO ROLLS OUT ITS RANGE  
FOR YOUR ANIMALS

+33.5.62.66.36.36 - [contact@gasco.fr](mailto:contact@gasco.fr)   [gasco.fr](https://www.gasco.fr)

The development of **responsible agriculture** and the development of a **relationship with the farmers in our Gers region** are the foundations on which we are building our collective ambition.

At Gasco, **most of the raw materials come from our cereal cooperative, Gersycoop**. We grow the cereals, harvest them, process them and package them in our own home, in the Gers! Our delivery trucks run on 100% French rapeseed! We are entirely self-sufficient which allows us to calmly meet the needs of your pets, farm and garden animals.

**As a pioneer in organic pet food**, Gasco has teamed up with several local players to expand its range of products and offer a very wide choice of certified quality natural food and care products.

It is in this spirit of excellence and responsibility that Gasco offers **products that are certified by Biopartenaire**, an independent label that echoes its cooperative roots. Committed to agriculture that respects both animals and the land, Gasco has also chosen the **Bleu-Blanc-Cœur** label for Nutrisi to guarantee better food and protect the environment.
