

WE DRESS UP IDEAS Using technology

We are a company specialized in the production of customised flexible packaging. With a certified and a safe packaging, we dress what is most dear to our customers: their products.

We do this professionally, quickly and sustainably using digital printing, renewable energy and lots of creativity.

WE DRESS THE IDEAS

With a tailored suit

Graphics, colours, materials and finishes are the elements that we sew together every day to create unique flexible packaging. At Packstyle we transform the need to contain into a communicative occasion: thanks to customization every customer can show his product and his corporate identity.

A background image showing a pair of hands holding several coffee bags. The bags are primarily green and white, with the word 'CAFFE' printed in large, bold, black letters. The 'Packstyle' logo is visible on the bags. The image is overlaid with a semi-transparent dark green filter.

WE DRESS THE IDEAS **To make each product unmistakable**

- **Customised:** to suit your needs
- **Distinctive:** to tell the corporate identity

WHY CHOOSE US

We are flexible as our packs

For small and large companies

The micro-runs make our service always accessible, regardless of the size of the company: you can order even just 50 pouches.

For one or more graphics

Thanks to the multi-graphic service our customers can print more graphics within the same order, saving time and resources.

For more or less fast deliveries

We have three types of shipping, to suit your needs. The fastest guarantees the departure of the goods after just 6 days.

WHY CHOOSE US

Customisation is super-accessible

Digital technology frees printing from the limitations of cylinders and clichés, guaranteeing an incredibly fast and accessible service even for small and very small companies. With small investments, we offer professional packaging that goes beyond anonymous packaging and annoying labels, but represents and communicates brands.

- **Micro-runs from 50 pieces**
- **Self-configuration and customisation**
- **Graphic services, for production, editing, file control**
- **Option to print several graphics in one order**
- **Fast, very fast or very fast delivery (15, 7, 4 days)**

WHY CHOOSE US

flexible packaging On Demand

Only what you need: this is what we print at Packstyle, avoiding excess and waste! Empty flexible packaging is very compact and, after digital printing, arrives quickly at its destination, using fewer resources.

- Reduction of stocks and inventories
- More space in your warehouse
- Lower transport costs
- Very fast printing, from 4 days

WHY CHOOSE US

Simplifying marketing operations

Testing the ground for a new product, creating prototypes, testing combinations of colours and materials... marketing operations often require testing, and very small runs are a good help to try things out without waste, with more ease.

- Creating samples and performing market tests
- Develop limited editions and capsule collections
- Diversify graphics, putting many variants in one order
- Playing with patterns by placing them on several pouches, making them similar

WHY CHOOSE US **REUSE, RECOVER, RENEW**

We invest exclusively in flexible packaging because it uses much less plastic and therefore a much lower CO2 impact than the most commonly used solutions with a reduction of pollution at all stages of production.

WHY CHOOSE US

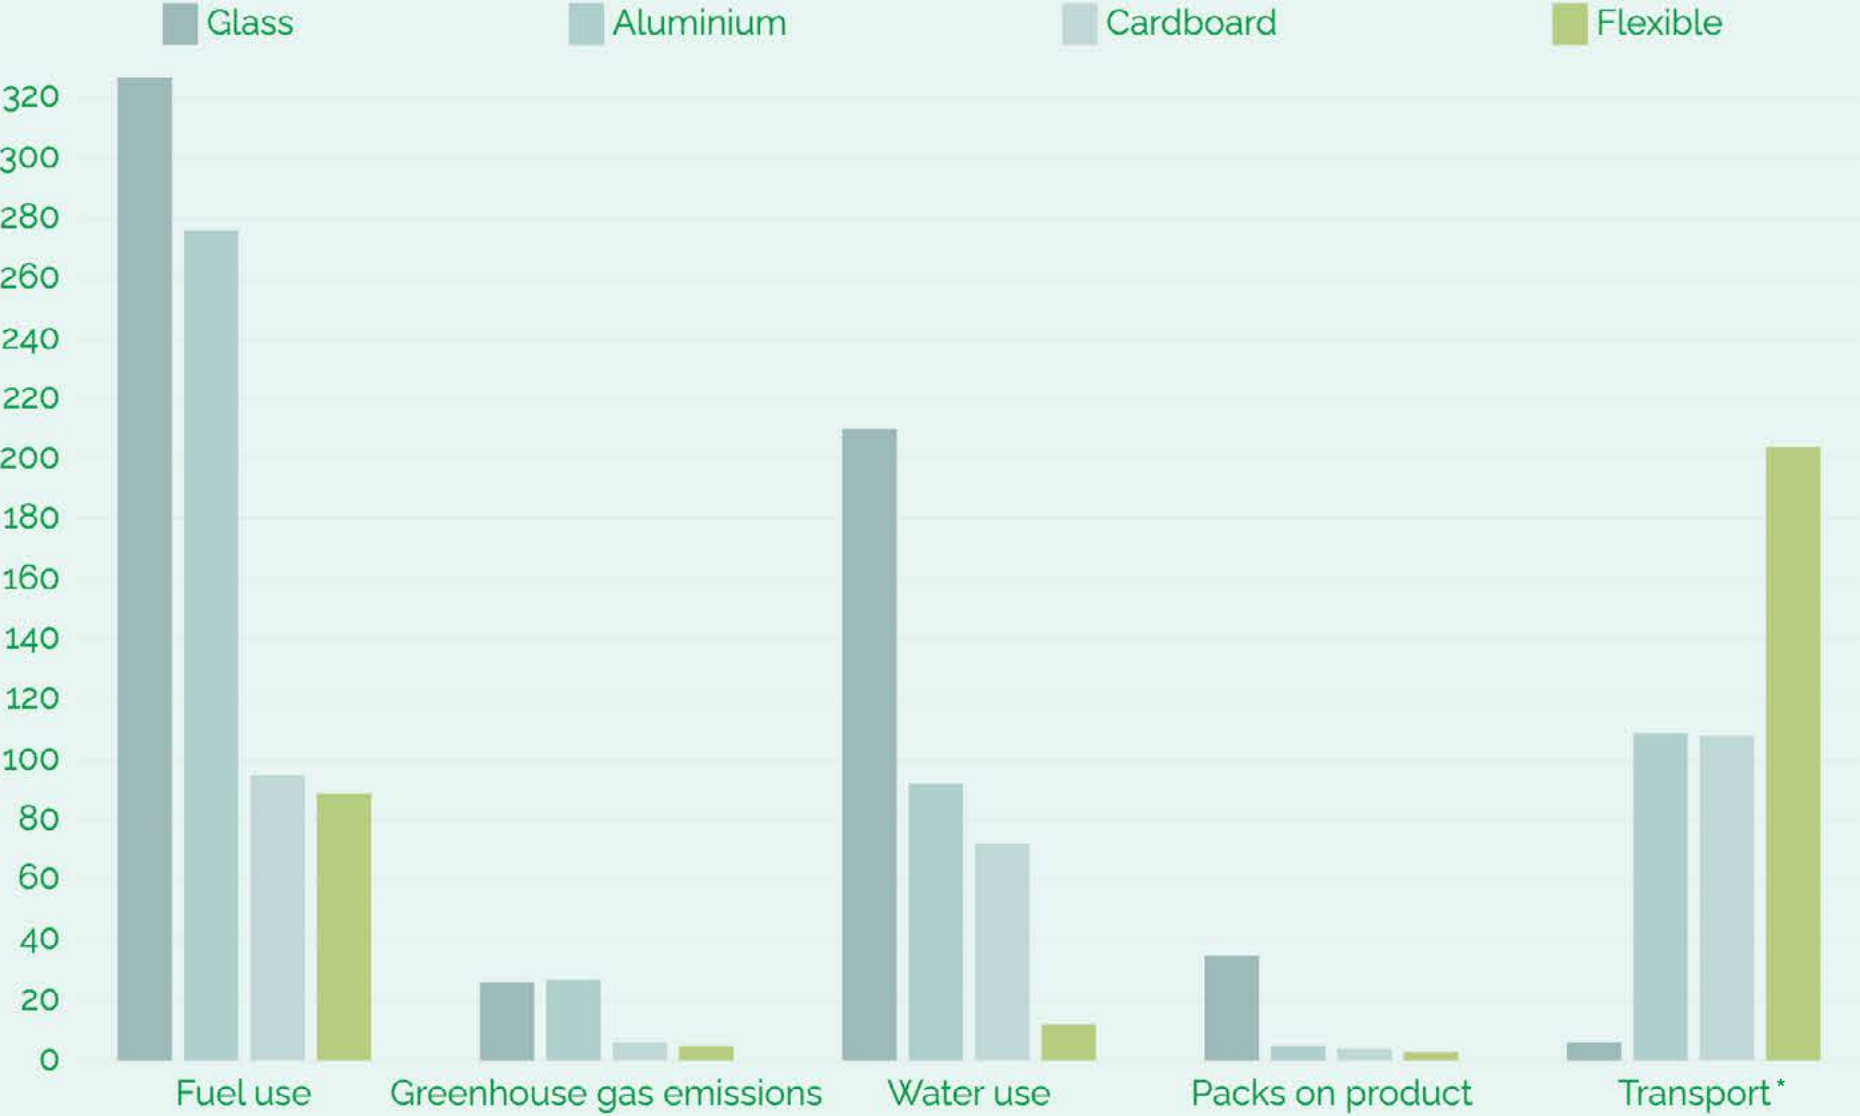

A lightweight footprint for a step towards sustainability

Our aim is to move towards a more sustainable and environmentally friendly way of consuming while maintaining an environmental footprint as light as the packaging we produce: we use totally renewable energy and Aticelca® and FSC® certified paper. In addition, to ensure a safe and healthy environment for employees and users, we use solventless technology and have achieved ISO certifications in environmental management, quality and safety.

WHAT ARE WE UP TO?

Formats

On the shelf or in the display case, standing or hanging, our pouches are designed to fit any exhibition space.

- **Doypack pouches:** Versatile, wide and original. They stand on their own and are suitable to be displayed on the shelf.
- **Flat pouches:** Light, flexible and easy to carry. They avoid wasting space and are perfect for hanging on the shelf.
- **Reels:** Customisable, resistant, practical. Ideal for companies with their own packing and filling system.

REELS

WHAT DO WE DO?

Customer needs with the right formats

We analyse the market and listen to customer requirements to offer a wide range of formats. However, when needs exceed the limits of our standard sizes, we can handle them by printing custom-made reels, adaptable to any requirement and any packaging system.

Doypacks and flat pouches

From 50 pieces

In 14 formats

Perfect for filling

Reels

From 2 kg

Adaptable to non-standard formats

Perfect for automatic packaging systems

WHAT WE ARE UP TO?

Materials

We have designed them to be high-performing, respecting every requirement: our materials have the fabric to dress your products.

The background of the entire image shows several bags of biscotti. One bag in the foreground is clearly visible, featuring the text 'AMARO PISTACCHIO & ARANCIA' in green and orange. It also has a circular logo with 'Gaudi' and some handwritten-style text. The biscotti themselves are visible through a clear window on the bag. The image is used to illustrate different packaging finishes.

WHAT ARE WE UP TO?

Finishes

Small details can make the difference in defining the style of a pouch and of your company: for this we provide premium character finish.

Glossy
Soft Touch
Matt

WHAT ARE WE UP TO?

Windows of all shapes and sizes

Products of bright colors or with original shapes can become beautiful patterns to show and promote, so we allow our customers to create for their film pouches transparent windows of all sorts and sizes.

WHAT ARE WE UP TO?

Accessories

For easy storage and care of the pouches and their contents we can equip your bags with practical accessories.

Hole

A close-up photograph of a person's hands pouring a green, granular substance from a metal scoop into a white, folded paper pouch. The person is wearing a silver ring on their left ring finger and a yellow string bracelet on their right wrist. In the foreground, a white scale with a label that reads "no 119" is visible. The background is blurred, showing more of the person's hands and the workspace.

MANY SHAPES ENDLESS APPLICATIONS

Our pouches are ready to keep any type of product

- **Supplements:** not to lose the most important properties
- **Coffee:** to preserve the aroma for a long time
- **Tea, herbal teas and spices:** for long-lasting fragrances
- **Hemp:** to preserve the most precious benefits
- **Food:** to protect every taste
- **Petfood:** to satisfy even the most demanding palates
- **Cosmetics:** to protect every formulation

MANY SHAPES ENDLESS APPLICATIONS

Supplements

From single-portion to jumbo formats, Packstyle materials, in just a few millimetres of thickness, provide a high level of protection for supplements and their fine properties. They are the ideal solution for reducing the amount of material and fighting overpackaging without compromising on optimal preservation.

MANY SHAPES ENDLESS APPLICATIONS

Coffee

The flexible packaging holds beans and powder in a protective and respectful embrace. The delicacy of coffee finds in our pouches the ideal setting to preserve the fragrance and aroma of each blend. This is also recognised by IEI, which has approved the quality of our pouches made of aluminum, aluminum paper and metallised recyclable material.

MANY SHAPES ENDLESS APPLICATIONS

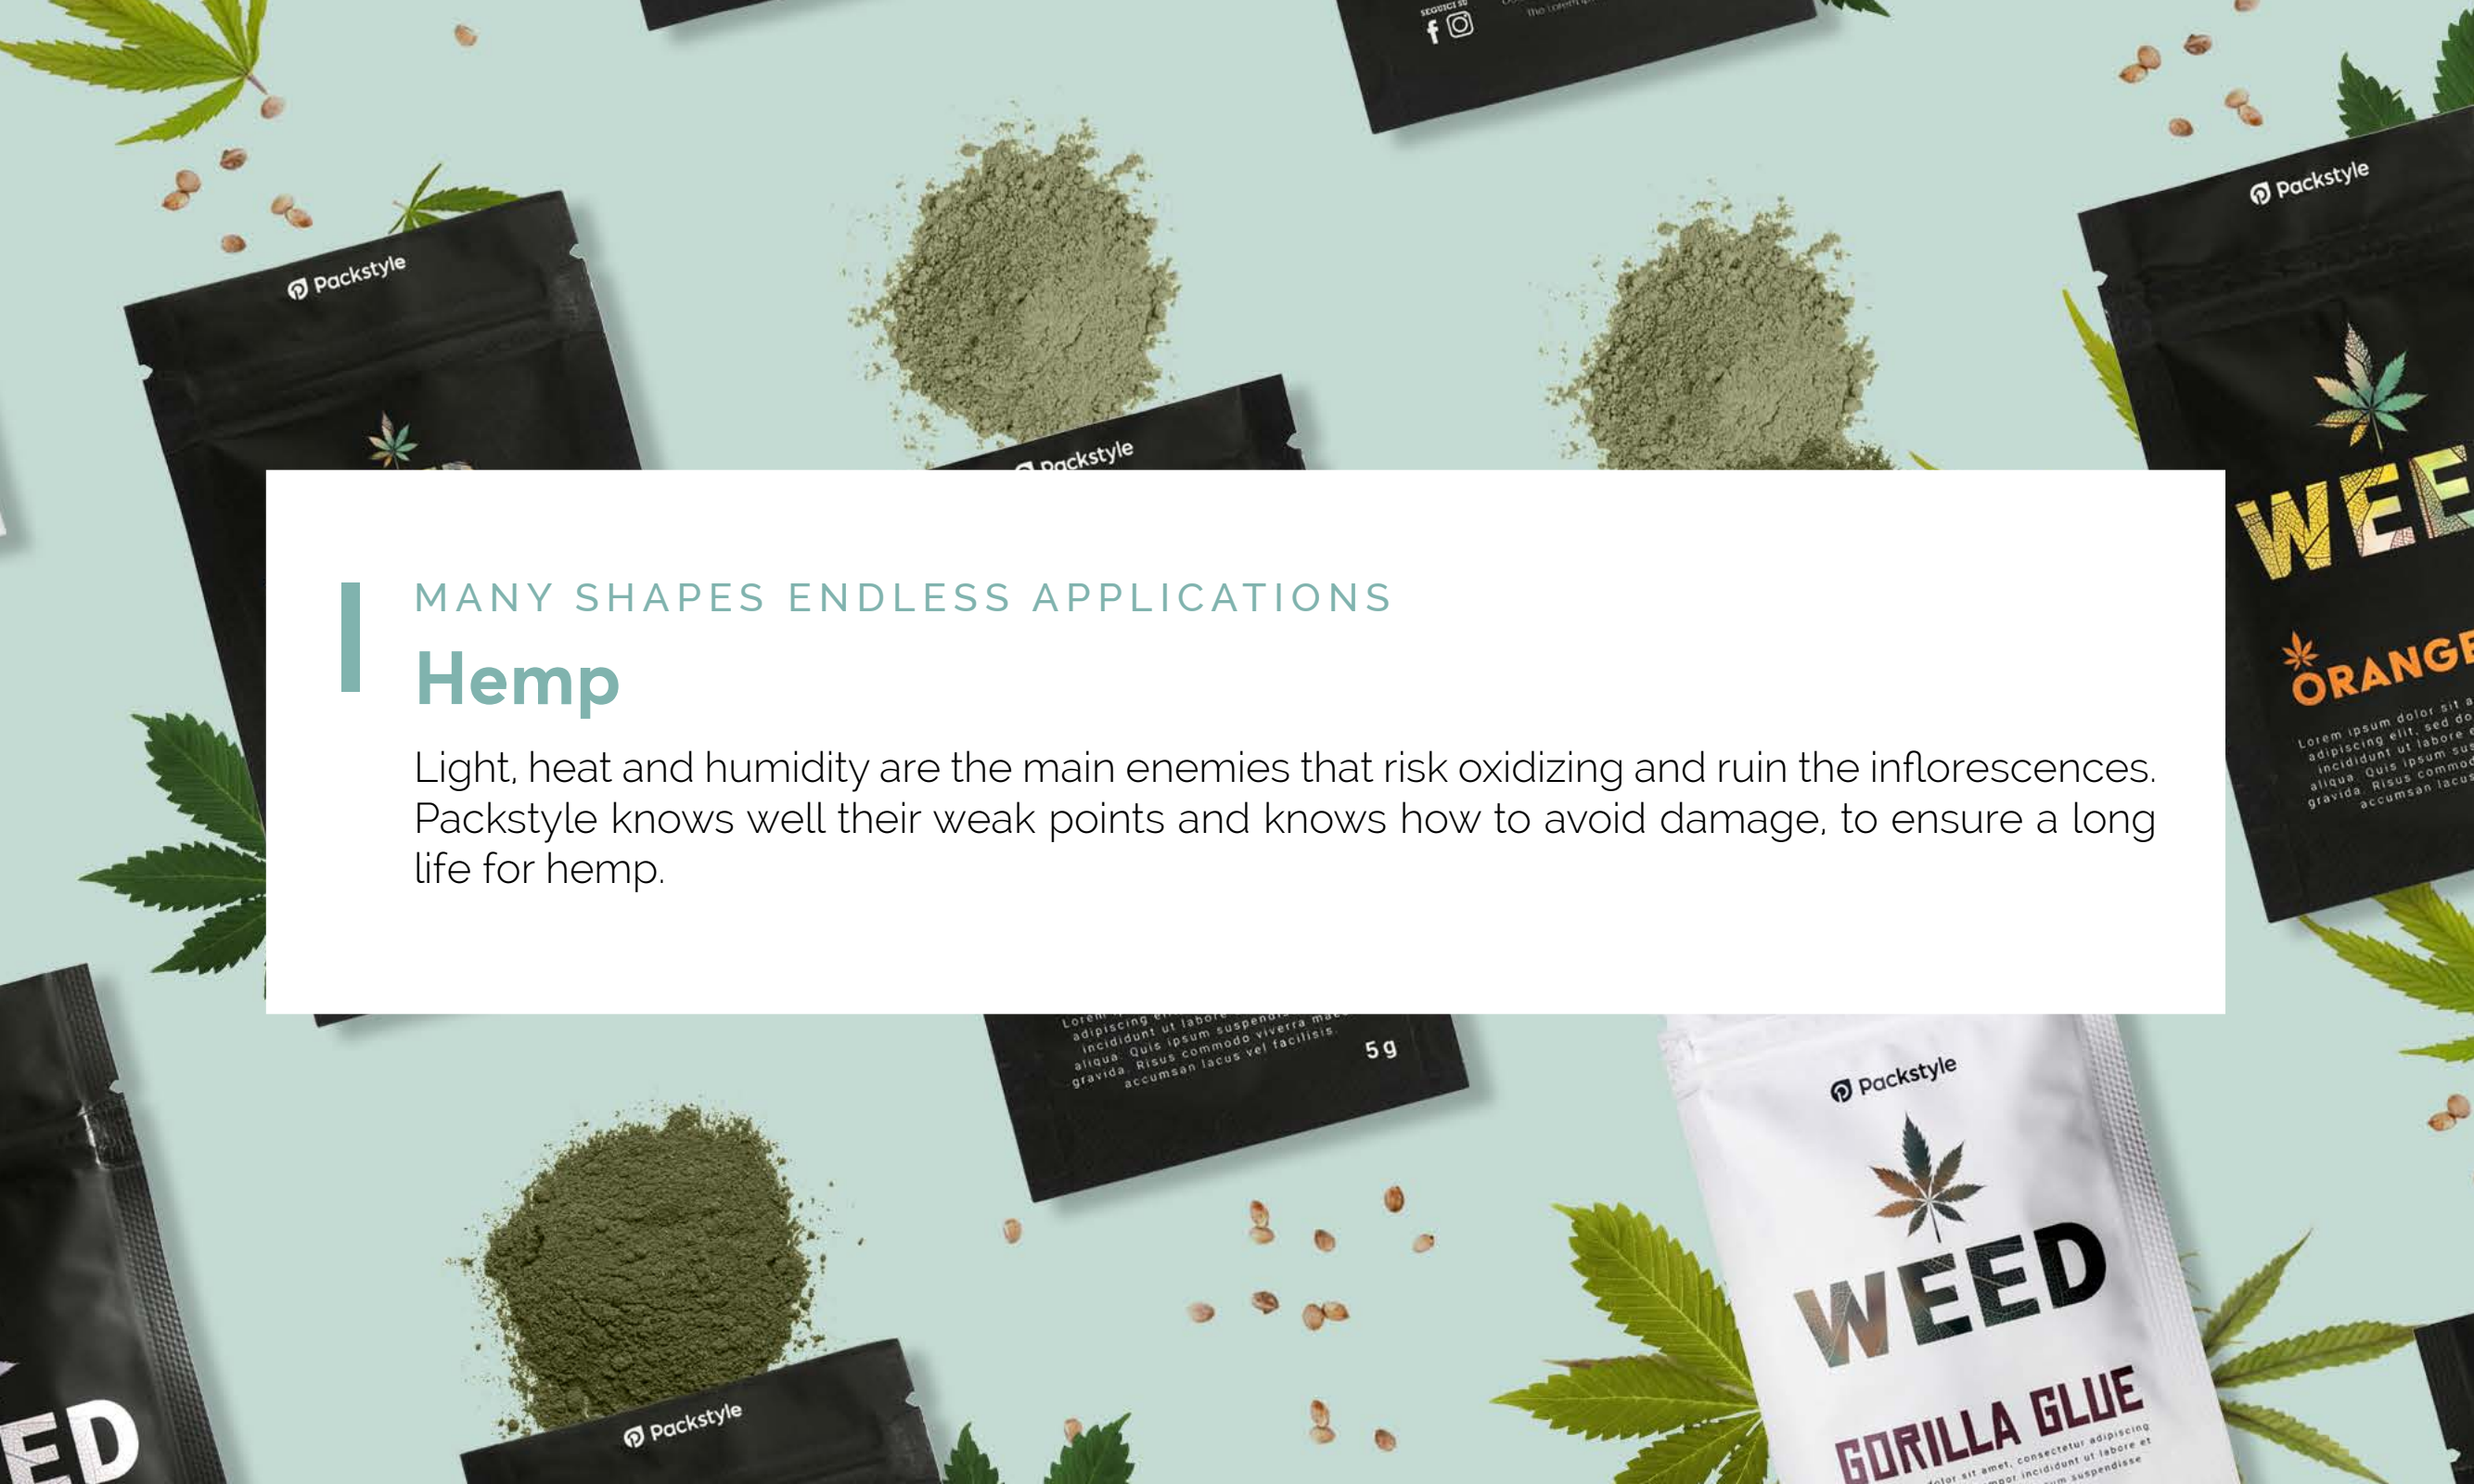

Tea, herbal teas and spices

Their ability to release aromas and fragrances depends on their delicate storage: tea, herbal teas and spices need to be protected from light and moisture. Packstyle pouches know how to protect the pieces of herbs and roots they contain, preventing deterioration and oxidation.

MANY SHAPES ENDLESS APPLICATIONS

Hemp

Light, heat and humidity are the main enemies that risk oxidizing and ruin the inflorescences. Packstyle knows well their weak points and knows how to avoid damage, to ensure a long life for hemp.

MANY SHAPES ENDLESS APPLICATIONS

Food

Flexible packaging preserves the goodness of all kinds of food by protecting it with gas and light barriers that prevent oxidation and spoilage of food. All our materials are suitable for food contact and meet regulatory requirements for food compliance.

MANY SHAPES ENDLESS APPLICATIONS

Petfood

Since it is practical and convenient, packaged pet food has become the habit of many pet owners. To protect it in the best way we have created bags that protect petfood from light, humidity and oxidation.

MANY SHAPES ENDLESS APPLICATIONS

Cosmetics

Whether eye-catching or sophisticated, cosmetic products express their quality through distinctive designs. In our packaging, the graphic customisation that is used to position the product goes hand in hand with the protective safety of the materials and the convenience of the accessories: pouches for soaps and liquid cosmetics can be equipped with the practical dispensing spout.

A TEAM AT THE SERVICE OF YOUR PACKAGING

A professional style: our graphic services

We know that not all companies have a team of graphic designers in-house, so we put the experience of ours at their disposal. We offer a range of services
We offer a range of graphic services that make customisation an opportunity and not an obstacle to creating professional-looking packaging:

1. **Graphic creation:** creation of a design from scratch
2. **Graphic editing:** editing, adapting and modifying existing graphics
3. **Graphic file verification:** professional checking of uploaded graphics

research / future / sustainability / together

RESEARCH IN THE SERVICE OF SUSTAINABILITY

We and our customers are ready for the future

Supported by certification bodies and our employees, we undertake experiments, tests and research to ensure that we deliver on our sustainability promises. We conduct these tests hoping to chart new paths for the future of packaging and hoping that protective performance and sustainability will always grow hand in hand.

Thus, together with our customers, we are committed to building a better future, for the preservation of products, the fight against food waste, and the safeguard of the planet.

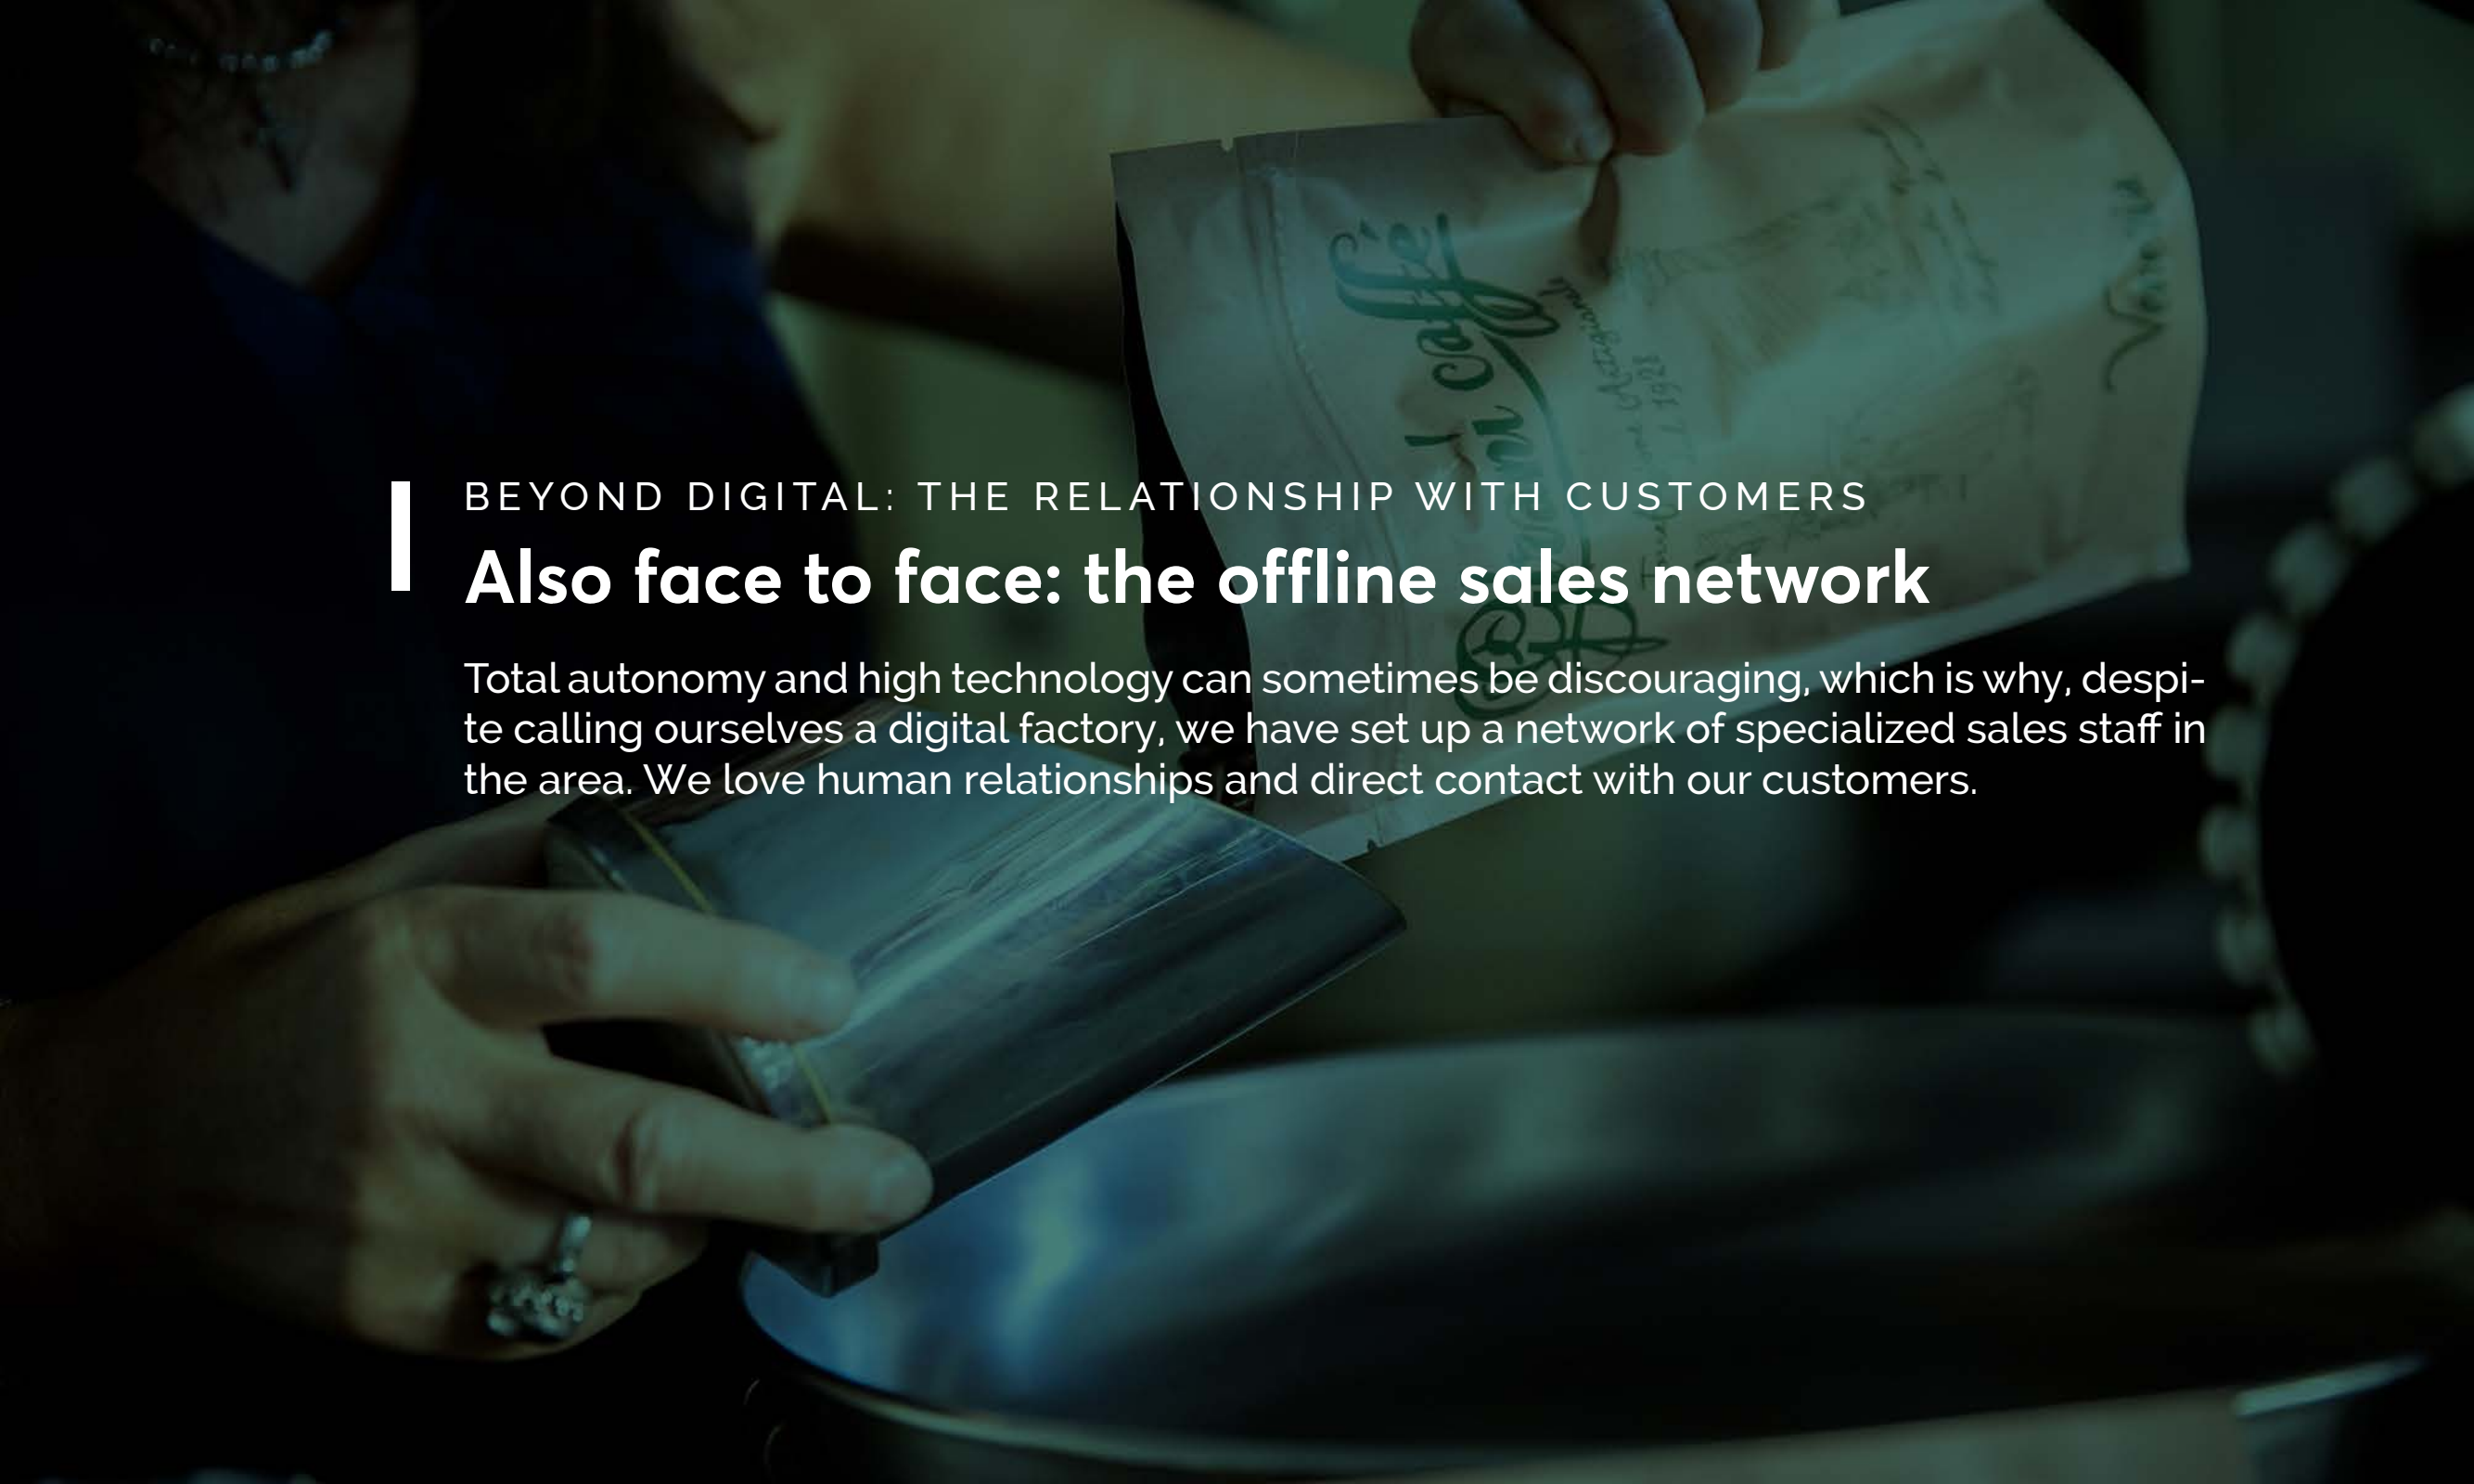

A woman with brown hair is smiling and holding a green tea pouch. The pouch has the text 'Fili a Corte del Tè' printed on it. The background is a blurred shop interior with shelves of various products.

BEYOND DIGITAL: THE RELATIONSHIP WITH CUSTOMERS

We love meeting new projects and working with the people who created them.

We have perfected a configurator with which anyone can create their own personalised packaging, designing their own pouches and uploading their own graphics. But we never leave anyone on their own: you can request quick support from our technical specialists in the contact section of the website, via chat, email or call.

A close-up, dimly lit photograph of a person's hands. One hand is holding a white bag of coffee with green cursive text that includes 'Coffee' and '1928'. The other hand is holding a metal coffee filter over a dark container. The scene is set in a kitchen or cafe environment.

BEYOND DIGITAL: THE RELATIONSHIP WITH CUSTOMERS

Also face to face: the offline sales network

Total autonomy and high technology can sometimes be discouraging, which is why, despite calling ourselves a digital factory, we have set up a network of specialized sales staff in the area. We love human relationships and direct contact with our customers.

A TEAM TO SERVE YOUR PACKAGING

A unique team for unique packaging

The customisation of our customers' packaging is in the hands of a team that has personality to spare! The boys and girls who make up the team are young, heterogeneous and lively. Thanks to their teamwork, the most creative projects come to life, becoming pouches... yours!
