

Press Release

Nancy, August 1, 2024

LE LORRAIN will be present at CHILLVENTA 2024!

Discover our gas and flame solutions dedicated to refrigeration and air conditioning

*LE LORRAIN, an expert in the manufacturing of gas pressure regulation and flame welding equipment since 1946, is proud to announce its participation in CHILLVENTA 2024. This essential event for professionals in refrigeration, air conditioning, ventilation, and heat pumps will take place from October 8 to 10 in Nuremberg, Germany. **Visit us at Hall 7A, Stand 350.***

Essential Solutions for Industry Experts

- ✓ Detect leaks with precision and confidence.
- ✓ Carry out quick purges safely.

KITCLIM 55 Bar : This kit is designed for maintenance and control operations on air conditioning and refrigeration circuits. It includes an L2C2 Type C regulator for nitrogen, a 1500 mm connection hose, and a shut-off valve, offering a complete and practical solution for safe and precise interventions.

OX/Propane Brazing Equipment : Ideal for oxy-propane brazing operations, this equipment includes LB 21 regulators, an SO welding torch with several nozzles, and hoses with backflow preventers. It is perfect for tasks that require precision and flexibility.

A Must-Attend Event for Quality Exchanges

We invite you to discover our products in action at our booth. Our demonstrations will showcase the robustness and efficiency of our solutions, while our team of experts will be available to answer all your questions and help you find the best solutions for your professional needs.

A Commitment to Quality Made in France

For over 75 years, LE LORRAIN has been committed to providing high-quality products made in France. Our technical expertise and constant attention to customer satisfaction allow us to meet the demands of the most rigorous industrial sectors.

We look forward to seeing many of you at CHILLVENTA 2024 to share our expertise and passion for gas and flame.

About HAMPIAUX

LE LORRAIN, FRENCH EXPERT IN GAS AND FLAME

Manufacturer since 1946

Founded in 1946 by Mr. HAMPIAUX and his son, HAMPIAUX, which owns the LE LORRAIN brand, leverages its technical and technological expertise to provide a wide range of flame welding equipment. These tools serve both heavy industries such as steel and metallurgy and precision trades such as jewelry and craftsmanship.

The company fully manages the production and quality chain, from the machining of parts to the assembly, unit testing, and finally, the shipment of LE LORRAIN products.

A Range of Services and Dedicated Experts

LE LORRAIN stands out in the industry not only as an exceptional French manufacturer but also as a collaborative partner. Its teams, made up of true experts in gas and flame, work daily to bring significant added value to its clients' activities. LE LORRAIN offers a comprehensive and unique range of tailored services, including a specialized design office, advanced technical support (including for gas networks), preventive visits, a training academy, calibration benches, and a responsive and efficient after-sales service.

Moreover, our commitment to excellence is reinforced by obtaining the Qualiopi certification, which attests to the quality of our training programs.

We are also proud to be recognized with the "Entreprise du Patrimoine Vivant" (Living Heritage Company) label, a testament to our artisanal and industrial expertise.

Products Exported to Over 60 Countries

Today, LE LORRAIN products are exported to over 60 countries across five continents.

Une équipe performante et une production dans le respect des normes

A member of the Union of Metalworking Industries of Meurthe-et-Moselle (UIMM), the Welding Standards Commission (CNS), and ISO 9001:2015 certified by SGS.
