ENGINEERING

**FROM CONCEPT TO PRODUCTION,
WE OVERSEE EVERY STAGE
WITH EXPERTISE AND VISION.**

An integrated approach that combines engineering, simulation, and prototyping to speed up development and deliver tangible results.

- PRODUCT DEVELOPMENT
- PROCESS INDUSTRIALIZATION
- OFFLINE SIMULATIONS
- DIGITAL MODELING
- PROTOTYPING

AUTOMATION

ADVANCED SOLUTIONS FOR INDUSTRIAL AUTOMATION.

We design and build high-performance handling and assembly lines, seamlessly integrated with cutting-edge welding processes. Thanks to our proprietary, in-house—developed products, we offer tailor-made technologies that ensure efficiency, quality, and innovation.

- MATERIAL HANDLING
AND ASSEMBLY LINES
- WELDING LINES AND PROCESSES
- GE PROPRIETARY PRODUCTS

DIGITAL INNOVATION AND AUTOMATION FOR YOUR BUSINESS.

We offer a comprehensive portfolio of integrated technological solutions, designed to transform industrial processes and enhance operational efficiency, with a strong focus on sustainability and production continuity.

- SERVICE & MAINTENANCE
- AI-POWERED PREDICTIVE MAINTENANCE

**WHERE EXPERIENCE
MEETS EVOLUTION.**

**ITALIAN
FEELING**

**FOR OVER FORTY YEARS,
WE'VE TURNED EXPERTISE
INTO CUTTING-EDGE
PRODUCTION SOLUTIONS.**

From automotive to biotechnology,
through logistics and other strategic sectors,
we design tailor-made integrated systems,
combining engineering, automation, and vision.
