Premier Tech is all about people

About how we make things happen together, driven by a powerful desire and steadfast commitment to make a difference.

Working with us is different

Our team gathers every day with one goal in mind: to create an experience like no other for our clients and suppliers. At PT, we want to offer something more. Through our passion, energy, expertise and commitment, we strive to have a meaningful impact on people's lives— the kind that leaves a lasting impression.

We give it everything we've got, every day. We're always looking to improve and we're genuinely passionate about what we do.

We have the freedom and ambition to develop bold new solutions. Where others see problems, we see possibilities. Innovation drives our momentum. Together, we can do anything.

At Premier Tech, People and Technologies connect in lasting, transformative ways, giving life to products and services that help feed, protect and improve our world.

We are always looking for new ways to make a difference in the lives of people, businesses, and communities.

PT Systems and Automation

We enhance efficiency for manufacturing facilities.

As part of our commitment to meeting our clients' highest expectations, we help you improve your productivity, while ensuring the safety of your people.

We integrate innovative and high-value systems leveraging the full potential of robotics. As world leaders in the manufacture of packaging and processing equipment, we are well known for our legacy brands.

And because every industry has its own requirements, we specialize in equipment and client solutions for nutrition, agriculture, organic, and industrial products.

Innovation, Research and Development are key values at Premier Tech, allowing us to design new products and achieve many technological advances.

We build lasting relationships

You – Our customer

We do everything we can to better understand your needs, business realities and your project.

New concept development

We are not afraid of challenges or to push our boundaries to help you be successful in your market sector.

Team dedication

Your project has its committed team which means you always speak to someone who knows the latest developments.

Testing & validation

We valorize your input and if challenges arise, we invite you to take part in the technical discussions to find the best solution.

WE CARE guarantee

At PT, we care. Not just about each other, but about everyone who crosses our path. Our open, transparent culture motivates us to build genuine partner relationships. That's how we make a difference as a company. Because for us, people matter.

Our passionate and dedicated team members are proud to offer you our WE CARE GUARANTEE. This guarantee and code of conduct mirror our belief that you are the reason we exist, and that we must commit to helping your business be successful.

Our customer satisfaction rate has been consistently above 90% for the past several years.

DRIVER

Comprised of six principles, it reflects our philosophy that we must meet and exceed your expectations – every single time. These six principals together form the acronym DRIVER, with each letter representing the attitude and behaviors that bring the Premier Tech Experience to life.

Deliver;

be trustworthy and deliver what you promise

Respond;

be proactive and inform those involved

Impress;

be focused on delivering an impressive experience

Value;

be appreciative and value all stakeholders

Ease;

be attentive; ease and enhance the experience you offer

Respect;

be courteous and respectful under all circumstances

We create solutions for the **agriculture** industry

In 2017, we acquired Prairie Engineering, a leader in the industry of agricultural processing. We both shared a common approach: to enrich the lives of our clients and to make each client's experience as seamless as possible.

Our dedicated team in agriculture has a true passion for the industry; born and bred seedsmen, always ready to get their hands dirty to resolve your issues.

From corn to soybean, grass seeds to rice or even pulses to almonds, we understand your business and the challenges you face.

With our unique knowledge of seed and grain quality issues, we design facilities as well as processing and conditioning lines with your reality in mind. We also design equipment, such as net weigh scales, baggers, palletizers and stretch wrappers, to help automate bag packaging lines for specific seeds and crops.

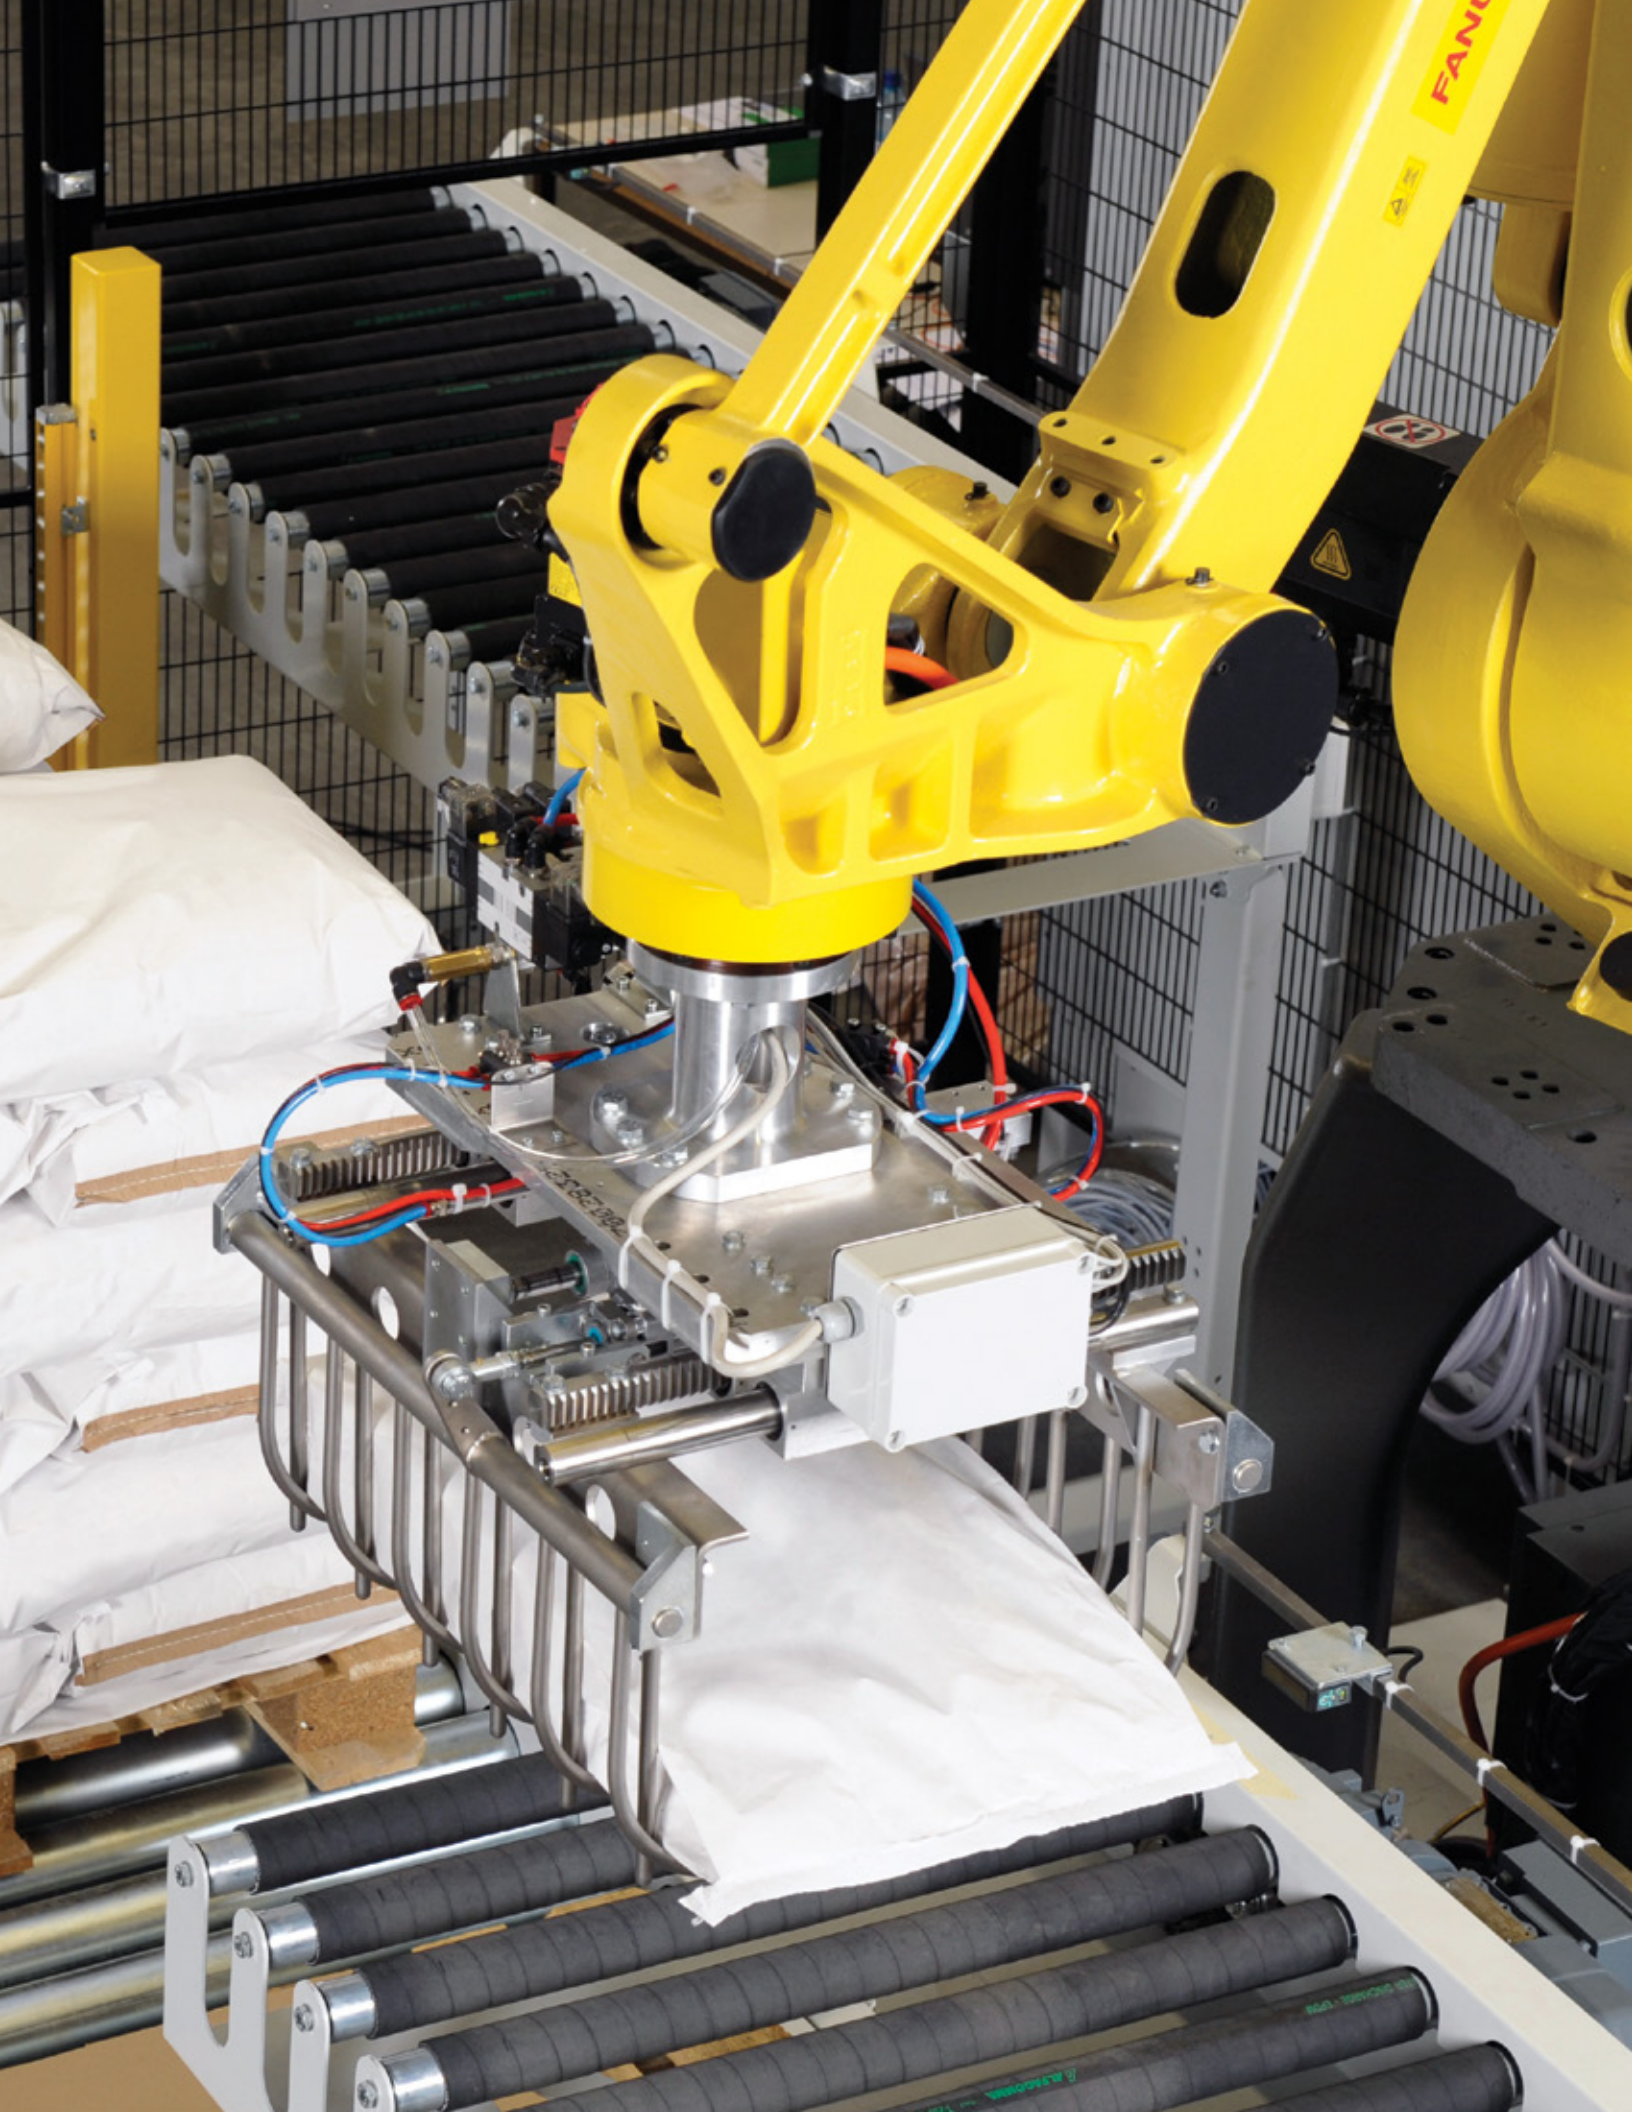

Our goal is to help you provide the highest quality seeds and grains to your customer in the most effective way.

Market segments

- Seeds
- Grains
- Nuts
- Hulls

Equipment and services

- Engineering, procurement and construction
- Weighing
- Bagging
- Palletizing
- Pallet wrapping

We create solutions for the industrial sector

Over the years, we acquired several internationally renowned companies such as Chronos Richardson, vonGAL and STONEPAK to enrich our portfolio.

To automate your business, we offer complete lines equipped with weighing and feeding systems, bag fillers, balers, valve packers, palletizers, case packers, stretch wrappers, and stretch hooders.

We also offer solutions to automate bagging and packaging operations for specific industrial products such as chemicals, insulation, and minerals.

We design and build projects, but our first and main objective is to build successes with you and for you.

Market segments

Insulation

Building materials

Bulk specialties (non-food and non-organic)

Intralogistics

Hardware & industrial

Health & personal care

Bagging

Case packing

Palletizing

Pallet wrapping

We create solutions for the nutrition industry

We have been developing innovative solutions for the nutrition industry for decades and we make sure our equipment are designed to fulfill the reality of the market. We are not afraid to adapt the project to your needs and constraints.

Every type of product, from powders to flakes and pellets, is perfectly handled by our equipment to remove any potential hazards thus ensuring the safety of your facility.

We offer equipment to help automate bagging and packaging operations for producers of food products such as flour, beverages, meat and dairy food.

Our complete lines can be equipped with net weigh scales, baggers, case packers, robotic and conventional palletizers, stretch wrappers and stretch hooders.

Our solutions are here to help your business stay up-to-date with the fast and ever-changing trends and requirements of the industry.

Pallet wrapping

We create solutions for the organic industry

The foundation of Premier Tech lies on organic material and our passion for peat's valorization along with the conception of top quality growing media.

We started out creating equipment to fulfill the needs for automation of our sister company, so you can rest assured we only want the very best for both our clients and ourselves.

We strive to develop and improve equipment to help automate flexible packaging lines for organic materials such as bark, peat moss, compost, and mulch.

We also provide processing and peat moss fields equipment such as harrows, vacuum harvesters, mixing lines, screening systems, and balers.

We put our years of knowledge of the organic industry at your disposal to create the ideal solutions for your business.

Market segments

Fiber crops

Wood & paper products

Growing media

Solid fuel

We create solutions for our clients

Premier Tech Client Solutions takes a personalized approach to lifecycle management, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a partner by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest Overall Equipment Effectiveness (OEE) and maximize your Return on Investment (ROI) by providing you with the most valuable lifecycle services in the industry.

We aim to serve our clients in an exemplary way with a world class customer experience.
