40% decreased manual review time

"SEON radically improved our fraud prevention efficiency, helping us reduce manual reviews by 40%. The automation saves us time and effort that we can now dedicate to improving and updating our current procedures, policies and rules."

Vladislav Notesvsky, Head of KYC

soft2bet

Proactive Fraud Defense

Secure every interaction from onboarding to transactions without introducing additional friction to your customers' experience.

Full Control & Flexibility

Customize risk settings, build tailored rules and seamlessly automate or review decisions to fit your business' needs.

Lightning-Fast Integration

Go live in days with plug-and-play APIs and real-time detection, all backed by a team of dedicated fraud experts.
