Produced in the UK, with low minimum order quantities to get you started, contact us today...

### White Label

## It's as easy as 1, 2, 3...

### 1. Choose your product

Stage one of the white label process is to choose a product from our extensive range of pet grooming products. Nexus Pet Brands Europe have over 30 years experience in the pet grooming industry so you have peace of mind that whatever product you choose, it will be backed with years of research and quality control.

### 2. Choose your label

Once you have decided on the product you would like to take to market, then the next stage is to decide the look of your label. We have many different designs to start your design from such as modern, traditional and everything in-between.

### 3. Add your brand name

The final stage of the process before we can put your product into production is to add your branding. You may have your own logo with specific colours which can be added or you may just want one of our designers to add a sympathetic font to your label, the choice is yours!

Together, we can take your brand to the next level
