R研发 RESEARCH & DEVELOPMENT

公司重视技术研发，现有专职研发人员十一名，长期从事模具设计和开发，韩国资深模具专家多名。针对翅片模具的设计，结合国内外先进模具的设计理念，融入自身的优势和独创性。已开发出适用于各个领域的翅片模具。

We focus on researching and developing. 11 engineers and several Korean experts have been performing in tooling designing and developing for many years. Combined with the updated and advanced ideas, fin dies have been used in many fields related under our advantages and creativities.

- 定期对所有供应商供货能力，质量能力，知名度，信誉度，生产经营合法性进行考核，验证。
- 原材料严格采用瑞典、日本、奥地利、德国等国际知名品牌。
- 标准件严格采用日本知名品牌。
- 严格按《进货检验规程》验收采购物资，并记录验证结果。
- A complete system for the evaluation to suppliers regularly. Including supply ability, quality, popularity, reputation and legality of business.
- Raw material purchasing from Sweden, Japan, Austria, Germany, etc.
- Standard parts from Japan.
- Acceptance according to the *Rule for Sourcing Checking* and make a record.

翅片模具

公司每年完成高品质的翅片模具六十余台，满足不同客户的不同需求。针对翅片模具规格繁多，片型多变的特征，以提高客户的经济效益为准则，设计出高效率的模具。

FIN DIE

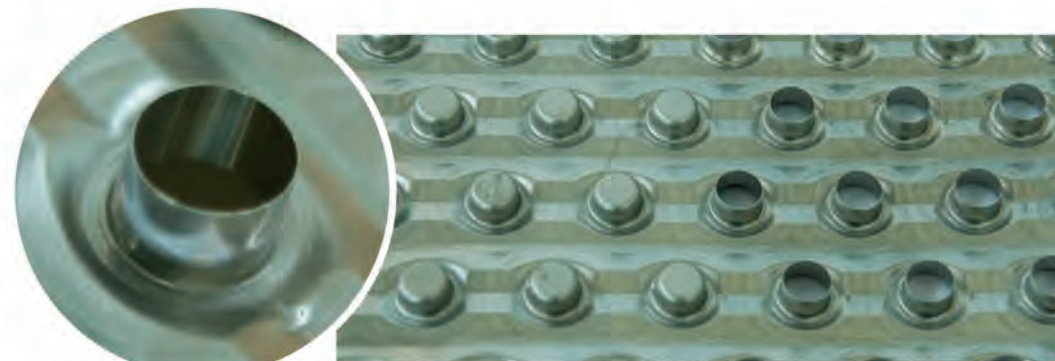

Manufacture more than 60 high quality fin dies annually. Various specifications and fin shapes are the main characteristics of fin dies, so that making efficient dies to satisfy the economic benefit for customers is our goal.
