

WE ARE YOUR SPECIALIST
FOR PACKAGING SOLUTIONS!

03

*"We are here to create
packaging solutions"*

Bernhard Carpentier & Christian Carpentier –
CEOs of Carpentier Packaging GmbH

One garage, one employee - those were our beginnings in 1996. Today, we can look back on a development of which we are proud. Nevertheless, as a family business, we have remained down to earth. While we have established ourselves as a technical leader and global player in the field of folding carton packaging machines, our focus has always been on working together with our customers in a spirit of partnership and trust. Another important aspect is individuality. From project start-up to commissioning, we work closely with our customers to develop a tailor-made solution - something our customers, including many well-known national and international ones, appreciate.

Thanks to modern machinery, our own laser cutting center and the expansion of our production capacities, we have developed over the years into a full-range supplier of folding carton packaging systems, from filling the carton to final packaging in trays or cartons. We are also regarded as the world market leader for fish stick packaging systems.

We can rely on around 50 highly motivated and experienced employees. Our team has many years of experience in the industry and consists of electrical and mechanical engineers, draftsmen, skilled workers, toolmakers and fitters.

We look forward to getting to know you and developing an individual solution for your packaging together with you.

Our milestone

2021

Completion of the second construction phase and relocation of the entire company to Schornsheim

2019

Construction of the first building complex in Schornsheim, takeover of CC-Maschinenbau GmbH by Carpentier Packaging GmbH and in this course appointment of Christian Carpentier as Managing Director

2014-2019

Christian Carpentier completes his studies in mechanical engineering and founds his own company, CC-Maschinenbau GmbH

2011

The company is renamed to today's Carpentier Packaging GmbH

2009

Development and implementation of the first high-performance car-toner for fish sticks (Multifishliner)

FROM GARAGE COMPANY TO WORLD MARKET LEADER

2006

Christian Carpentier begins his apprenticeship in his parents' business

2002

Hall extension in Wörrstadt

1998

Start of construction of the company building in Wörrstadt and move to the new buildings

1996

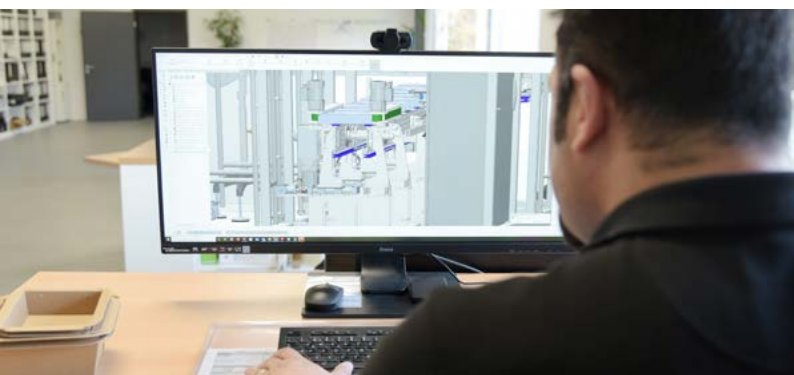

Foundation as a sole proprietorship in the garage by Bernhard Carpentier

WE ARE HERE FOR YOU!

We are not only innovative, but also accompany you reliably. And without gaps. It is part of our self-image that we are there for you from the first contact to commissioning. And, of course, also when your machine is integrated into your operation and, for example, maintenance intervals need to be observed.

DISTRIBUTION

- ▲ Processes your individual request
- ▲ Creates a first concept
- ▲ Works closely with our design department

WORKSHOP

- ▲ Manufacturing of individual parts of the machine (turning, milling and welding)
- ▲ Own laser cutting center
- ▲ Assembly of the individual parts for the completion of your machine

MECHANICAL ENGINEERING

- ▲ Develops individual solutions according to your requirements
- ▲ Produces a 2D drawing in the first step
- ▲ Creates a 3D drawing for you after receiving your order
- ▲ Works closely with our electrical department

ON-SITE SERVICE

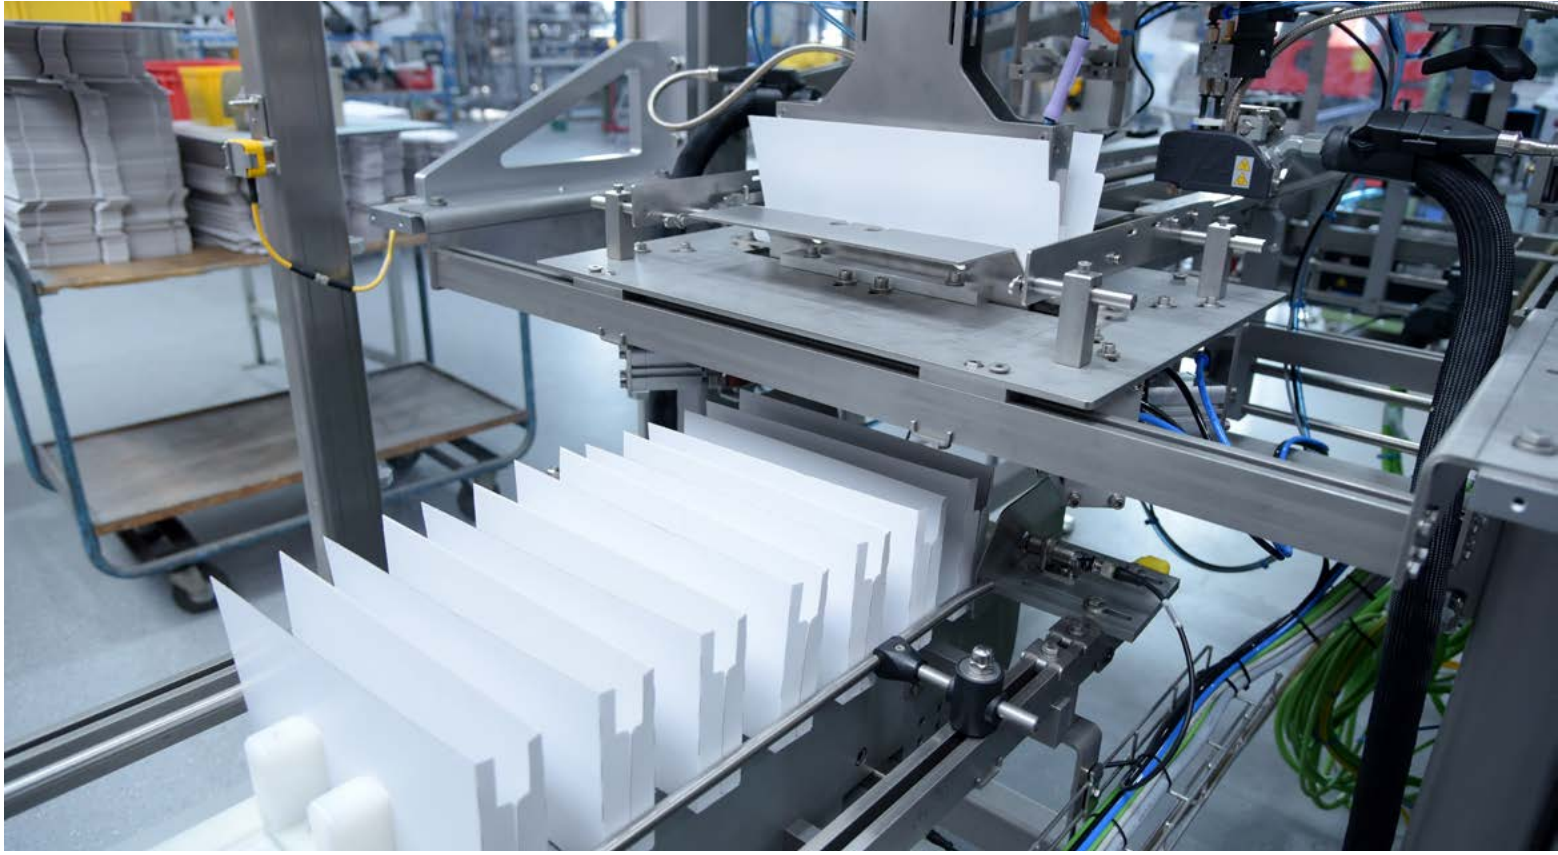

- ▲ Assembly of the machine
- ▲ Installation and commissioning
- ▲ Training of your employees on the machine
- ▲ Maintenance of the machine

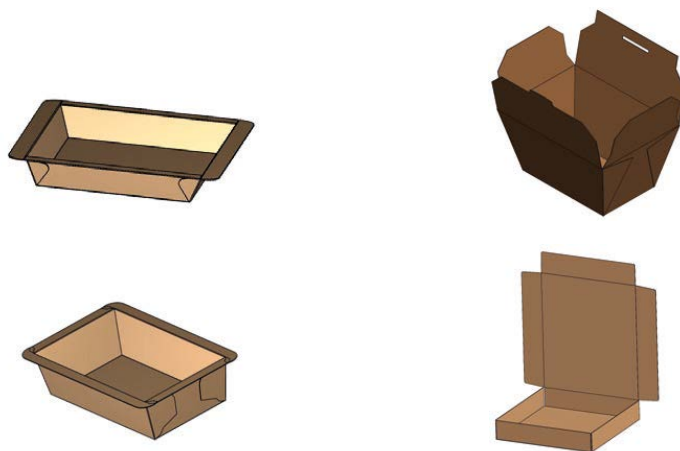

ELECTRICAL ENGINEERING

- ▲ Elaboration of the circuit diagram based on the specifications of the construction
- ▲ Takes over the control planning and the switch cabinet construction

CUSTOMER SERVICE

- ▲ All necessary correspondence
- ▲ Contact person during the entire project phase
- ▲ Service after commissioning (e.g. to arrange maintenance appointments)

PERFORMANCE FEATURES - CARTON FORMER

- ▲ Simple and fast format changeover
- ▲ Ergonomic and simple operation;
also for unskilled personnel
- ▲ Stable basic construction
- ▲ High output (approx. 60 cycles/minute per head)
- ▲ High availability
- ▲ One servo drive per forming head
- ▲ Travel of the forming head can be individually set via the touch panel

KEY DATA

- ▲ Plug-in, hot glue, hot air closure
- ▲ Customized format ranges
- ▲ 1 - 4 forming heads
- ▲ Additional options according to customer requirements

09

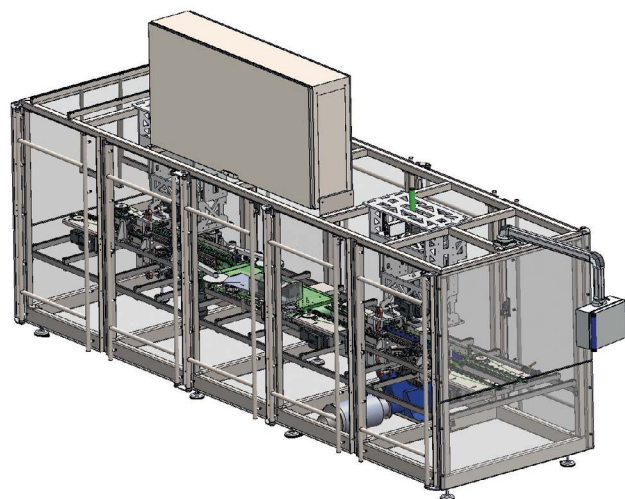

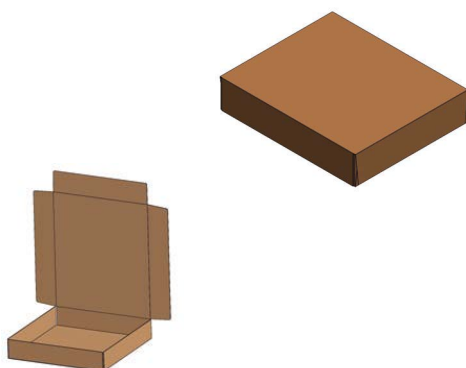

PERFORMANCE FEATURES - CARTON SEALER

- ▲ Easy and fast format change (approx. 10 minutes)
- ▲ Stable basic construction
- ▲ Output up to 250 cartons/minute
- ▲ High availability
- ▲ User-friendly
- ▲ Safe and gentle product handling
- ▲ Low maintenance and easy to service
- ▲ Wet operation and cleaning possible

KEY DATA

- ▲ Hot glue, hot air seal
- ▲ Customized format ranges
- ▲ Short or long version
- ▲ Additional options according to customer requirements

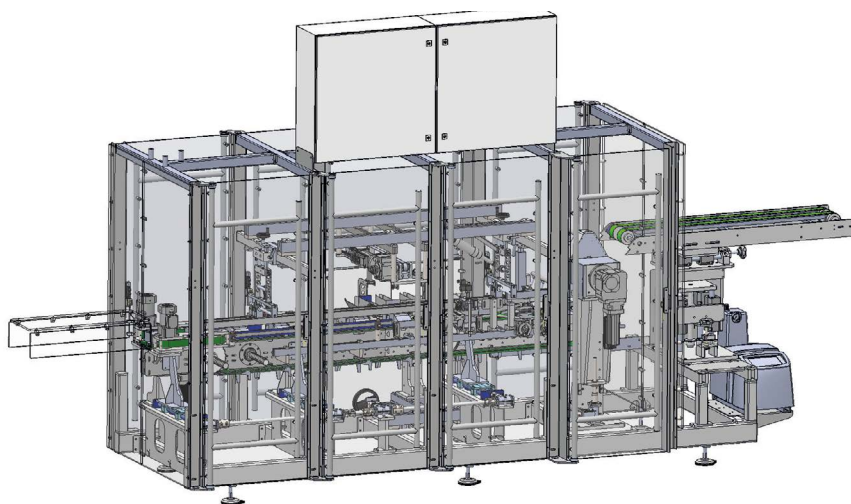

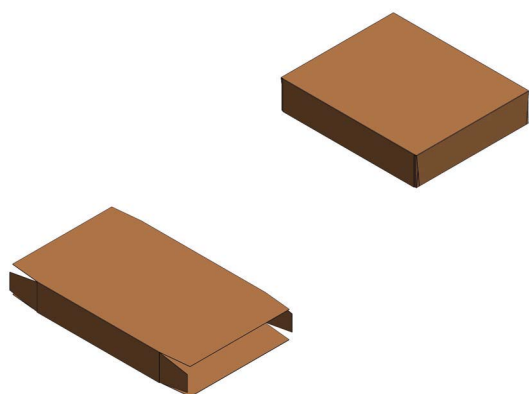

PERFORMANCE FEATURES - CARTONER (HORIZONTAL)

- ▲ Simple and fast format changes
(up to less than 10 minutes; depending on design)
- ▲ Stable basic construction
- ▲ High output (up to 300 cycles/minute)
- ▲ High availability
- ▲ User-friendly
- ▲ Safe and gentle product handling
- ▲ Low maintenance and easy to service
- ▲ Wet operation and cleaning possible

KEY DATA

- ▲ Hot glue, plug-in fastener
- ▲ Customized format ranges
- ▲ Continuous or intermittent
- ▲ Additional options according to customer requirements

011

PERFORMANCE FEATURES - BAR PACKAGING

- ▲ Easy and fast format change
- ▲ High availability
- ▲ Stable basic construction
- ▲ Low maintenance & easy to service
- ▲ High output up to 700 bars per minute
- ▲ Customized format ranges
- ▲ Additional options according to customer requirements

KEY DATA

- ▲ Single or dual lane infeed
- ▲ Top or sideload
- ▲ Additional options according to customer requirements
- ▲ Customized format ranges

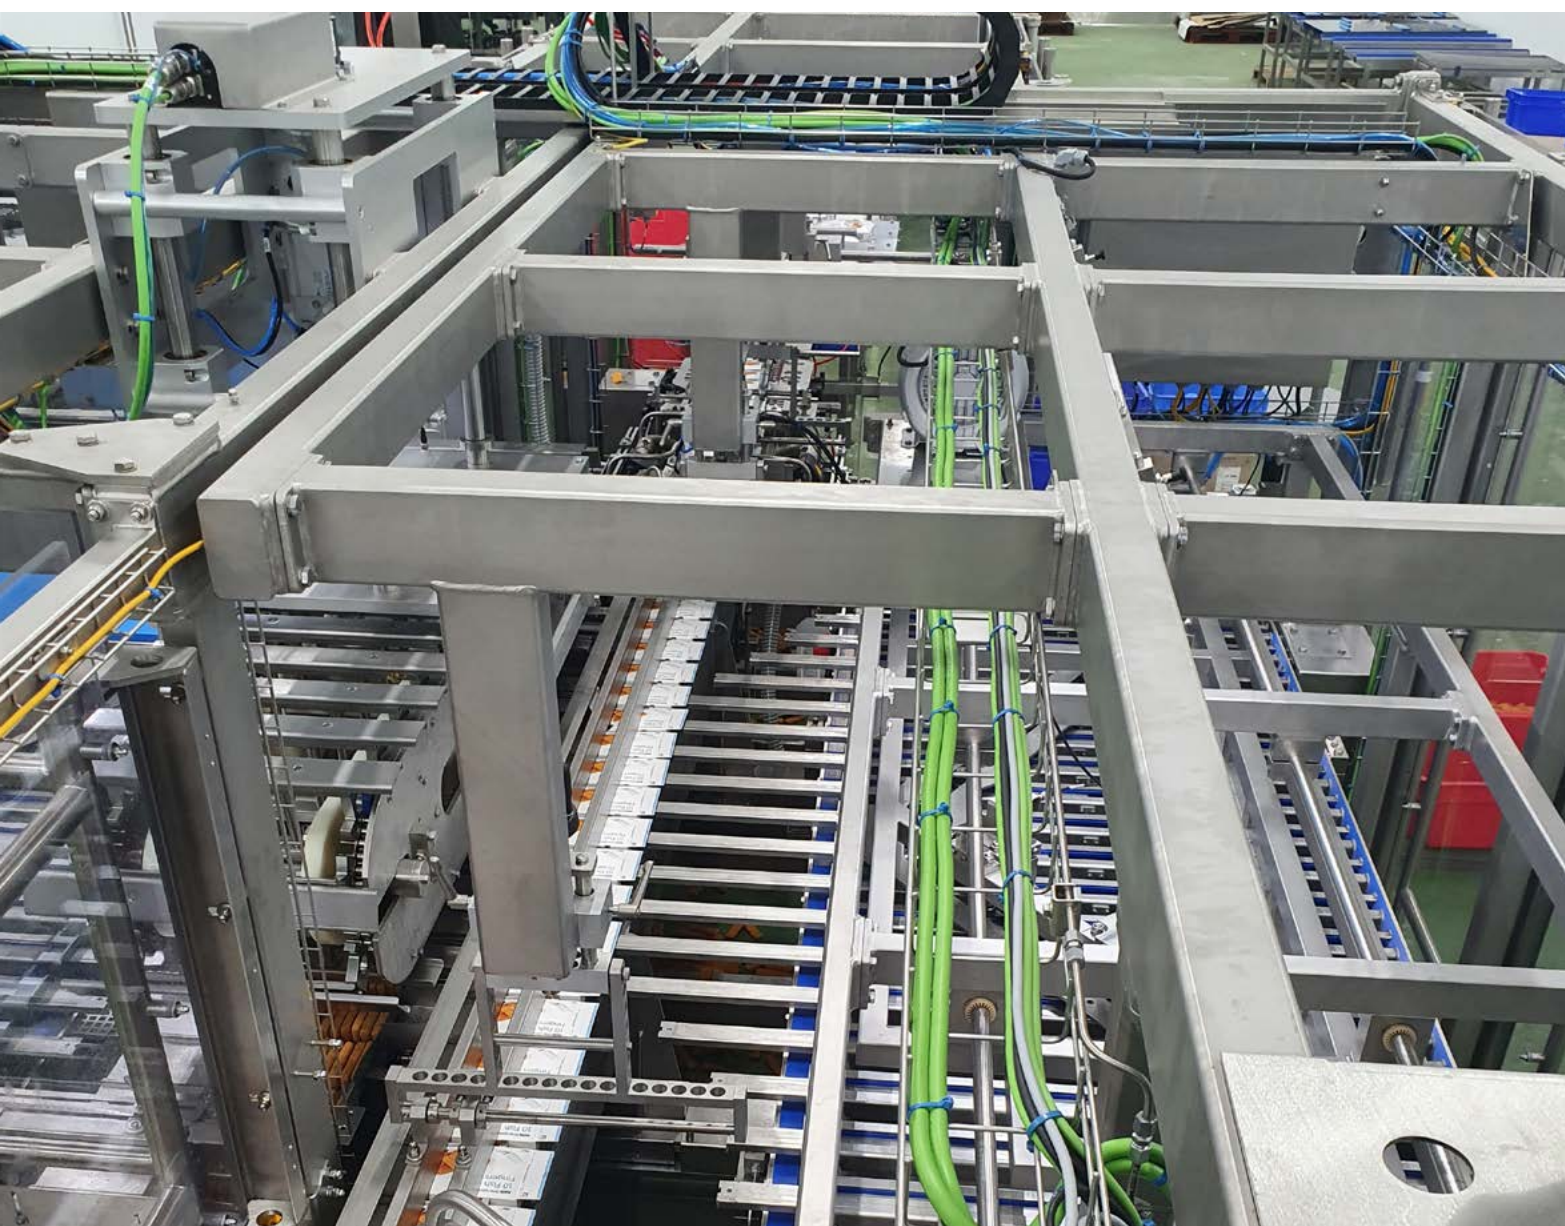

013

PERFORMANCE FEATURES - MULTIFISHLINER (HIGHSPEED)

- ▲ Preconnected system part for grouping of the formats
- ▲ Complete machine frame in stainless steel
- ▲ Wash down version
- ▲ Leading technology on the market
- ▲ Hot air and hot glue sealing
- ▲ Output up to 300 cartons per minute

KEY DATA

- ▲ Up to 5.5 tons/hour
- ▲ Gentle on product and high speed
- ▲ Single or double layer
- ▲ Highly flexible

WELL EQUIPPED FOR THE FUTURE

We are optimistic about the future - partly because we believe we are well equipped. There are several reasons for this. On the one hand, we are fortunate not only to count numerous well-known customers among our partners, but also to have a trusting relationship as the basis for all our customer relations. On the other hand, it is also our employees who, with their dedi-

cation and commitment, ensure that innovations can be launched, optimization processes implemented and production capacities increased. This combination makes us a reliable and strong partner at your side when it comes to finding solutions for your packaging.

WHAT ARE YOUR REQUIREMENTS? WE OFFER YOU THE RIGHT PACKAGING SOLUTION!

- ▲ Frozen food: fish, meat, fruit and vegetables, ice cream, ready meals
- ▲ Fresh produce: meat, ready meals
- ▲ Confectionery: Chocolate products, candies, cookies, bars
- ▲ Baked goods: Cakes, pies, pastries, pretzels
- ▲ Other food products: sugar, milling products, cereals, oils and fats, seasonings and sauces
- ▲ Beverages: soft drinks, alcoholic beverages, coffee and tea
- ▲ Cosmetics and hygiene products: Creams, fragrances, hygiene products
- ▲ Other non-food products: Automotive parts, small medical parts, remedies, paper products
